Subject : FREEDOM OF INFORMATION ACT (FOIA) RELEASE TO TED AGRES,  
ASSISTANT MANAGING EDITOR, THE WASHINGTON TIMES,  
REGARDING JOHN HUSTON, THE FILM DIRECTOR

PURPOSE: To advise of anticipated FOIA release on February 24, 1989, of records concerning John Huston.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated August 28, 1987, Ted Agres, Assistant Managing Editor of The Washington Times, requested under the FOIA any records on John Huston, the film director, who died August 28, 1987.

A search of the indices to our central records system at FBI Headquarters disclosed only a security matter investigation conducted on John Huston beginning in 1949 and ending in 1961.

The information being released from this file relates to Huston's membership in several left-wing organizations (i.e., League of American Writers, Hollywood Writers Mobilization and the Committee for the First Amendment), his opposition to the House Committee on Un-American Activities, defense of the Hollywood Ten and support for Presidential candidate Henry Wallace.

RECOMMENDATION: None. For information only.

famous writers. The article was based on material he received  
from the FBI in response to his various FOIA requests. The

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) release to  
Herbert Mitgang regarding Bennett Cerf, noted  
Television Personality and Publisher, Random  
House Publishing Company

A search of FBIHQ indices disclosed three main files concerning Cerf. Excised copies of one ITSP file regarding the theft of approximately \$30,000 in jewelry from the Cerf residence in 1969 has been released. Information was deleted to protect the confidentiality of sources, personal privacy of third parties, and an investigative technique. One Laboratory Examination file was denied in its entirety to protect the confidential relationship between the FBI and a local police department.

A third file contains information regarding Mr. Cerf's participation during the 1930's and 1940's in approximately 17 organizations designated then as communist front groups. This investigation ended in 1951 but the rest of the file contains a great deal of cordial correspondence between Director Hoover and Cerf, who was on the Special Correspondents List. This file is being released with information deleted to protect classified information, personal privacy of third parties, confidentiality of sources, internal administrative practices and investigative techniques.

DETAILS: Richard A. Rosenthal, Jr., a reporter for WGN-TV in Chicago, Bruce P. Rheins, a producer for WMAQ-TV in Chicago, and Danielle M. Jaeschke, an attorney representing victim Philip Andrew, have submitted FOIA requests for records concerning Laurie Dann, who has been the subject of national media interest.

Ms. Dann went on a shooting spree in a Winnetka, Illinois elementary school on May 20, 1988, killing one student and wounding five others. She thereafter fled the school and went to the Andrew home where Philip Andrew was wounded as he attempted to disarm her. She then barricaded herself in the Andrew home and committed suicide later that day. The Chicago FBI Swat Team leader and local police were on the scene during the barricade situation.

PURPOSE: To advise our response to this request from  
Mr. Sperling may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: By letter dated 5/12/89, Mr. Sperling, reporter for the Times Herald Record, requested "...a copy of the report that...is scheduled to be completed...following the closing of its (FBI's) investigation..." regarding Tawana Brawley. This matter concerns the alleged racially motivated assault/kidnapping/rape of Tawana Brawley. The story surrounding Ms. Brawley's ordeal created a nationwide media sensation. Although the Bureau has completed its Civil Rights investigation, the Department has not yet rendered its opinion and considers the case to be in a pending status. Mr. Sperling will be advised that since the matter is still under consideration by the Department, release of the FBI report(s) could reasonably be expected to interfere with enforcement proceedings.

Memorandum from Mr. Revell to Mr. Baker

Re: WRITTEN REQUEST FROM CONGRESSMAN ELLIOTT H. LEVITAS, CHAIRMAN, SUBCOMMITTEE ON INVESTIGATIONS AND OVERSIGHT, COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION, UNITED STATES HOUSE OF REPRESENTATIVES, FOR INFORMATION CONCERNING A LIST OF SOME 100 MEETINGS BETWEEN MR. EDWIN MEESE, III, ATTORNEY GENERAL-DESIGNATE, AND MISS RITA LAVELLE

DETAILS: Congressman Levitas, per a written request dated May 9, 1984, advised that the Subcommittee on Investigations and Oversight recently learned that when the Bureau was conducting its background investigation of Mr. Meese for the position of Attorney General, the Special Agents conducting the interviews had in their possession a list of some 100 meetings between Mr. Meese and Miss Lavelle. Congressman Levitas requests that this information be made available to the subcommittee so that the subcommittee can determine whether any of the meetings may have a relationship to any settlement matters administered from "Superfund" legislation by the Environmental Protection Agency. The Bureau has subsequently learned the source of Congressman Levitas' information is Rita Lavelle, who was recently interviewed by Mr. John P. O'Hara (former Special Agent), Counsel for the Committee. Miss Lavelle advised Mr. O'Hara she was shown a list or advised of a list of meetings between herself and Mr. Meese by a Special Agent when interviewed during the Meese inquiry.

During the course of the Bureau's background investigation of Mr. Meese, the White House received an anonymous letter on Playboy Interoffice Correspondence stationery which alleged that Mr. Meese and Miss Lavelle had had a long-term, sporadic intimate relationship. A copy of this letter was provided to the Bureau by the White House, and Mr. Meese and Miss Lavelle were subsequently interviewed by Bureau Agents concerning their professional and social contacts.

A review of the background investigation disclosed no information regarding any listing of meetings between Mr. Meese and Miss Lavelle. In addition, appropriate Washington Field Office Agents and FBIHQ personnel familiar with this SPIN matter were queried, and all advised they were completely unaware of any such listing.

The Agent who interviewed Miss Lavelle did so in the presence of her attorney. The only information imparted by the Agent to Miss Lavelle was in displaying a copy of the anonymous letter in question for her review prior to any questioning. The Agent retained the copy of the letter.

Copies of the anonymous letter and interviews of Mr. Meese and Miss Lavelle are being provided to the Office of Congressional and Public Affairs.

SUBJECT

I am writing to you as a loyal and deeply concerned Republican.

I am concerned because Ed Meese has been appointed attorney general. Not that he ~~xxxxxxxxxxxxxxxx~~ isn't the right man for the job. I'm sure he is. It's about his past relationship with Rita Lavelle— which is the subject of an in depth, forthcoming story in Playboy.

The story, the research on which I have assisted, basically recounts a friendship that began between Meese and Lavelle during the late 60's in Berkeley Ca. Evidently she served coffee and donuts to the National Guard who were in town to quell riots around People's Park. Meese heard about her gesture and invited her to his office (he was at the time in the DA's office — Alameda Co).

What began as a harmless, rather paternalistic friendship, evidently grew into a torrid love affair ~~xxx~~ which continued sporadically until her indictment. Incidentally, Lavelle has not breathed a word of this to ~~the press~~ Playboy or anyone else in the press. But her confidants have, believing that she was sacrificed by the administration and abandoned by Meese.

As a loyal Republican I can assure you that I did everything in my power to shoot holes in this story (my peers have kidded me about it relentlessly). But I have to ~~xxx~~ admit, I'm afraid, that it is airtight.

Playboy, of course, is planning to make a big production over this. It's the biggest ~~thing~~ ~~that~~ political story ~~that~~ since Jimmy Carter told Scherer he lusted after women (in his heart). ~~Nothing is more~~  
~~stop it~~

I'm telling you this so you can prepare yourselves. Naturally I have to withhold my name.

Oh yes, one last thing. Lavelle's confidantes have not told her that they have come to us. But both of them (independently) assured us that she would not deny their story.

Good luck in '81.

Mr. William H. Webster  
Director  
Federal Bureau of Investigation  
J. Edgar Hoover Building  
Washington, D. C. 20535

Dear Mr. Webster:

As you are well aware, this subcommittee has been inquiring into the administration of the "Superfund" legislation by the Environmental Protection Agency since 1982 as a part of our oversight responsibility. Some of the testimony given before this subcommittee was used by the Bureau in your investigation leading to the conviction of Rita Lavelle for perjury.

Some of the same matters which had been under review at that time continue to warrant attention in our efforts to unravel the underlying reasons for decisions which were made with regard to settlements at some hazardous waste sites.

We recently learned that when your agency was conducting a background inquiry in the matter of the appointment of Mr. Edwin Meese to the Cabinet position of Attorney General, the Special Agents conducting interviews relative to Mr. Meese had in their possession a list of some 100 meetings which took place between Mr. Meese and Miss Lavelle.

That information would be very helpful to this subcommittee in our present investigative efforts regarding several "settlements" which do not appear to serve the best interests of the federal government, and which may not be consistent with the intent of the appropriate statutes.

On 5/28 John P. O'Hara (former S.A.), Counsel  
was advised that no such lists exist.  
He stated that he would re-check his sources,  
who is Rita Lavelle.

PURPOSE: To advise of the proposed FOIA release of 337 pages

JOURNALIST ALEXANDER CHARNS.

RECOMMENDATION: None. For information.

A background investigation was conducted by the FBI in

information was surfaced during this investigation.

WYZANSKI is also the subject of a non-investigatory  
file that indicates he was a very controversial judge. The file

from the bench by WYZANSKI in which he criticized the FBI, the DEPARTMENT OF JUSTICE, their personnel and other Government agencies. WYZANSKI, testifying as a witness for the defense in the ALGER HISS trial, indicated that he attended HARVARD with HISS and subsequently visited him on several occasions in Washington, D.C., and that he believed HISS' reputation for honesty, loyalty and veracity was good. In 1968, WYZANSKI, when contacted by the Boston Office to secure his comments regarding a Departmental Applicant (probation officer), became angry and advised that he made appointments to his Court and did not want the FBI to conduct investigation on members of his Court. As a result, HOOVER placed WYZANSKI on a list of persons not to be contacted by the FBI. The file also indicates that WYZANSKI made a FOIPA request to FBI Headquarters in 1975 and was provided information from the above-described files.

The release will be forwarded to CHARNS on July 14, 1989.

OF MARK KIRCHMEIER REGARDING TERRY SCHRUNK

PURPOSE: To advise of the anticipated release of FBI  
Headquarters material to Mark Kirchmeier on August 7, 1989.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated August 18, 1988, Mark Kirchmeier, a  
reporter for the Portland Oregonian newspaper, submitted an FOIA  
request for records concerning the late Terry Schrunk, who was  
mayor of Portland, Oregon, from 1956 to 1973.

The anticipated release consists of four main files of  
which Terry Schrunk is the subject and two references to Terry  
Schrunk in general files composed of miscellaneous material. One  
of the main files contains information concerning Schrunk's  
appearance before the Senate Select Committee on Improper  
Activities in the Labor or Management Field in 1957. There are  
references in this file to Senator Joseph McCarthy and Robert F.  
Kennedy, who was Chief Counsel for the Committee, and their  
interaction with the FBI regarding the possibility of an FBI  
polygraph examination of Schrunk. There are also references to  
Senator McCarthy's close relationship with the FBI and Director

REQUEST OF RETIRED SA LAWRENCE T. SWEENEY  
CONCERNING THE "MCGORTY REPORT"

PURPOSE: To advise that 523 pages from the "McGorty Report" are proposed for release following receipt of duplication fees.

RECOMMENDATION: None. For information.

DETAILS: The "McGorty Report" is a New York Field Office in-house inquiry concerning the handling of TUMCON informant Michael Orlando and was the subject of three previous FOIA requests submitted by representatives of the news media at the time of the anticipated fraud trial of former Secretary of Labor Raymond J. Donovan. That material, although processed and reviewed by Unit Chief [redacted] Special Assistant [redacted] and Deputy Section Chief [redacted] of the Organized Crime and Racketeering Section, Criminal Division, Department of Justice, was not released due to the then pending Donovan trial.

This current request is from former SA Lawrence T. Sweeney, who retired in April, 1989, and who was the handling agent of Michael Orlando. SA Sweeney indicated he desired all information in the "McGorty Report," stating he wished to "clear his name" regarding several administrative inquiry investigations

concerning TUMCON events. Although it was pointed out this type of material was not located in the "McGorty Report" he still indicated his desire to obtain it.

The previously proposed release package has been reprocessed to restore material concerning SA Sweeney that was initially withheld to protect his privacy. The material to be released is a detailed background regarding the informant's criminal history and involvement in TUMCON matters; candid, informal interviews of management, supervisory and investigative agents who participated in TUMCON and recommendations made by the author of the report on the continued handling of the informant. The interviews show the conflict between street agents, supervisors, and management regarding the protection of an informant or the prosecution of that informant who conducted illegal acts. Names of agents who testified are being released as well as material regarding the informant since it has already been made public in various other forms during the aforementioned judicial proceedings.

FREEDOM OF INFORMATION ACT (FOIA)  
REQUEST OF KAREN POMER  
REGARDING THE "MOVE" ORGANIZATION

PURPOSE: To advise that 933 pages are proposed for release following receipt of duplication fees.

RECOMMENDATION: None. For information.

DETAILS: Karen Pomer, working with a grant from the Public Broadcasting System (PBS) to produce a documentary, has requested the file pertaining to the May, 1985, incident between the Philadelphia Police Department (PPD) and the organization MOVE. During this incident eleven MOVE members died and 62 homes were destroyed after an incendiary device was dropped on the roof of one of the houses by the PPD. The FBI conducted a civil rights investigation at the request of the Department of Justice (DOJ) following allegations that the PPD prevented MOVE members from leaving their burning house.

Public source documents (newspaper articles, court documents and documents from the Philadelphia Special Investigation Commission [PSIC] which were made public during the many hearings held regarding this event) comprise the majority of material being released.

Re: Freedom of Information Act (FOIA)  
Request of Karen Pomer  
Regarding the Organization MOVE

The PSIC documents are available to the public at Temple University. Transmittal letters to DOJ, facsimile forms and airtels from the Philadelphia Office forwarding newspaper articles and cover pages of reports constitute the remainder of the non-substantive information being released.

Also being released are discussions between the Philadelphia Field Office and FBIHQ about whether the FBI's previous cooperation with PSIC could possibly jeopardize the FBI's pending civil rights investigation; and whether the FBI was or could be perceived to be impartial or objective in conducting the civil rights investigation. A number of issues prompted this last concern but it primarily was raised because of the attendance of some Philadelphia FBI employees at meetings of the PPD to plan the raid on MOVE.

The fact that the FBI cooperated during several local investigations with the Philadelphia Police and Fire Departments and the Medical Examiner's Office, while normally protected from disclosure, is being released since this cooperation has already been publicly acknowledged. However, any documents which originated with the local agencies are being withheld.

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF MR. MIKE GALLAGHER FOR RECORDS ON JURY TAMPERING INVOLVING THE CASE OF FORMER UNITED STATES LABOR SECRETARY RAYMOND DONOVAN AND CO-DEFENDANTS IN BRONX SUPREME COURT, 1987

PURPOSE: To advise of a forthcoming FOIA release on December 15, 1989, of documents to Mr. Mike Gallagher, Gannett Westchester Newspapers.

RECOMMENDATION: None. For information.

DETAILS: A preliminary inquiry was initiated by the New York Office on June 2, 1987, relative to a possible Federal criminal violation, to wit: interstate travel in aid of racketeering to commit bribery of a juror during the New York State criminal prosecution of Raymond Donovan and co-defendants. This matter was presented to the United States Attorney's Office, Southern District of New York, and closed in July, 1988, as the facts did not indicate that any Federal violation had been committed.

A total of 20 pages are being released. A synopsis of the New York Office preliminary inquiry and innocuous administrative markings are the substance of information being disclosed. The file also indicates that on 9/29/89, an article appeared in a White Plains, New York newspaper authored by Mr. Gallagher which provided details concerning the alleged bribery investigation and questioned why the FBI investigation was terminated. The release of this material has been coordinated with the Public Corruption Unit, White-Collar Crimes Section, Criminal Investigative Division.

Memorandum for Personal Files

in this Law Enforcement Assistance Act and it could be a powerful instrument in the political field of people that Bobby wants to have money given to or grants that are made. I stated they are proposing a big grant in New England which has an effect in Massachusetts and there Bobby or Edward Kennedy will get the credit for it. I stated if he would note, the releases on the grants of these sums of money are all made by Katzenbach and not by the White House where it should be made as it is a part of the over-all crime campaign the President is carrying on.

I told Mr. DeLoach I would let Watson know about Evans and what a rat he is and how he denied these things until you pulled out the memorandum he himself had written and when confronted with that he then folded up. Mr. DeLoach stated he would reduce these to writing and I told him to make a memorandum on it and his conversation yesterday so we can have it in the confidential files at least. Mr. DeLoach stated he would get that material to me this morning.

Justice Fortas returned my call of midday, 6/13/66, late last night. I told him that I wanted to see him about a matter which he might consider bordered on a violation of judicial ethics. He was told that I had been able to discuss matters in confidence with him on several other occasions, i. e., the Jenkins case, [REDACTED] boyfriend, and other items which Mr. Hoover had me handle with him, and that I therefore felt that he wouldn't mind if this matter was brought to his attention.

F. O. J.  
The Black case was then brought up and he was told that although he had disqualified himself, he might not desire to discuss this matter. Justice Fortas replied that he would be glad to not only discuss this matter but any other matter with me on a confidential basis at any time. He then asked me to have breakfast with him at 7:45 a. m. this morning.

Upon seeing the Justice in his home for breakfast, we preliminarily engaged in small talk and eventually got down to the meat of the problem. I gave him a complete rundown on the exchange of correspondence that the Director had had with Katzenbach. He was told specifically of Katzenbach's evasive tactics in attempting to defend Bobby Kennedy. I then mentioned the Black case and told him that while the Director planned to furnish the Attorney General specific, honest, hardhitting answers to the Supreme Court's questions, we nevertheless knew that Katzenbach would throw our answers out the window and present his own slanted version to the Supreme Court. Justice Fortas agreed.

Justice Fortas stated that the entire matter boiled down to a continuing fight for the Presidency. He stated that Kennedy was of course out to capture that segment of voters which in the past had belonged to Vice President Humphrey. He mentioned that Kennedy, to a certain extent, had succeeded in capturing this left-wing group. He added that of course if facts, as possessed by the FBI, concerning Kennedy's approval of wiretapping were made known to the general public that it would serve to completely destroy Kennedy.

Memorandum to Mr. Tolson

Justice Fortas spoke of the Black case. He stated that after Solicitor General Thurgood Marshall had ineptly and inadequately presented the matter of electronic devices to the Supreme Court, the Supreme Court had held a confidential meeting among themselves. Although Justice Fortas and Justice White disqualified themselves, they still attended the meeting. At the meeting it was decided among the Justices that rather than remand the Black case to a lower court, the Supreme Court would set itself up as a tribunal to gather further information concerning the usage of electronic devices and afterwards make a decision. The Justices, with the exception of Byron White, felt that if the case was immediately remanded to a lower court Attorney General Katzenbach would, in order to win the case, pick his own Judge and thereby attain victory. Justice Fortas stated that some of the Justices in the Supreme Court were somewhat belligerent in their attitude towards Kennedy and Katzenbach. He stated these men would not be "pushed around" regardless of the politics involved.

Justice Fortas stated that the problem at hand was to determine how the FBI's irrefutable evidence exposing Kennedy and the Department in their clear-cut authorization for usage of microphones could be gotten to the Supreme Court and to the people. I showed him at this point several memoranda taken from the file, including the New York telephone memorandum which Kennedy had signed. He stated that there was no doubt in his mind but what the FBI acted in a complete, above-board and honest manner at the specific urging of Kennedy and the Department. He then stated that he fully recognized that Katzenbach would only slant any reply the FBI gave him in answer to the questions posed by the Supreme Court.

After some deliberation, Justice Fortas stated that he thought the best thing to do would be for him to slip in the back door and see the President. He stated he would tell the President all of the above facts. As an aside, Justice Fortas asked me if the President had been aware of the exchange of correspondence pertaining to the Director and the Attorney General. I replied that the Director in all fairness and in order to protect the FBI, had definitely advised Watson and the President. The Justice replied that this was good, however, he felt that the President would want to know his opinion as a result of seeing it from the Supreme Court.

He then stated that his plan of action would serve to protect the President and the FBI and could spell "back seat" for Katzenbach and Kennedy. He mentioned that he would recommend to the President that the President should immediately call Katzenbach in his office and tell him that

Memorandum to Mr. Tolson

he was very greatly concerned about this entire matter and that, in order for honesty and justice to prevail, an arbitrator should be set up who would listen to all of the evidence and then furnish a complete report to the Supreme Court. Justice Fortas added that naturally the arbitrator would be someone whom the President could trust to furnish the absolute true facts.

He stated the next problem would be to find this particular man. He said he had in mind somebody like Ken Royall, former Secretary of the Army. He asked me what I thought of him. I told him I naturally had heard Mr. Royall's name, however, Mr. Hoover would have far better judgment on this matter than I would. He next stated that perhaps someone like Ross Malone, former President of the American Bar Association, would be good in this regard. I told him that we had enjoyed very favorable relations with Mr. Malone. Justice Fortas then mentioned that there was an immediate past President of the American Bar Association from the State of Virginia. I told him he probably was thinking of Lewis Powell. He stated this was correct. He asked me what I thought of Powell. I told him that Mr. Powell had generally concurred with Mr. Hoover's beliefs concerning crime, however, on occasions he had been somewhat naive and a little weak. Justice Fortas stated that he thought Royall or Malone would be the best man.

Justice Fortas told me that he would take the above action immediately. He stated he was going to Jacksonville, Florida, today; however, he would try to talk to the President prior to his departure---if not, he would discuss this matter with the President Thursday morning, 6/16/66. I told him that time was growing short inasmuch as the Supreme Court wanted an answer almost immediately. He stated this was true and that, as a matter of fact, once the arbitrator was appointed all of his facts would have to be gathered and furnished to the Supreme Court within two weeks. He stated he thought this could be done.

Justice Fortas told me that he wanted to mention another subject. He stated that he had already taken steps to disqualify himself in the Hoffa case. He mentioned that the Black, Baker and Hoffa cases would be continuing cases which would go on for many years. He asked me if I knew of any irregularities on the part of Bobby Kennedy in connection with the Hoffa case. I replied in the affirmative, stating that Kennedy on one occasion had specifically asked an FBI representative to place a microphone on an attorney by the name of Haggerty. I stated this action had been taken despite the fact that the FBI had not wanted to do this. Justice Fortas replied that he had felt that such might be the case and that under the circumstances

Memorandum to Mr. Tolson

he would sit with the rest of the Supreme Court on the Hoffa case and would make certain that Kennedy was exposed. He stated that he felt that the Supreme Court would definitely confirm the decision of the lower court in the Hoffa case. He mentioned that this opinion had been expressed to him by the other Justices.

Justice Fortas next inquired if I had known a former Bureau employee by the name of Courtney Evans. I told him that I did know Evans. He asked if I knew of Evans' association with Kennedy. I told him that we were well aware of this relationship. I then briefed Justice Fortas completely concerning Evans. I told him of the statements made by Edward Bennett Williams with respect to the fact that Kennedy planned to use Evans as his "ace in the hole." I told Justice Fortas that Mr. Hoover had instructed me to call Evans in and to show him approximately eight memoranda which had previously been prepared by Evans. Justice Fortas was advised that Evans had been told that he had not only prepared but approved such memoranda and that we demanded to know if the facts as he had given them at the time of preparation were as true now as they were then. I told Justice Fortas that Evans had affirmed the truthfulness of these facts and had sadly indicated, "Facts are facts and can't be changed." I also told Justice Fortas that we had specifically asked Evans if Bobby Kennedy had been furnished information from microphone coverage in the Black case. The Justice was advised that Evans had admitted that he had frequently briefed Kennedy in this regard. The Justice was told that we next inquired of Evans whether or not Kennedy knew that such information came from microphone coverage and that Evans had replied that there was one specific occasion in which Kennedy specifically could have inferred that the information could only have come from microphone coverage.

Justice Fortas asked if the President knew of Evans' background. I told him that apparently the President did not know this. It was further mentioned that Evans was currently employed by Katzenbach, obviously at the urging of Kennedy. Justice Fortas replied that this was the worst news he had received since Bobby Kennedy's urging that the Viet Cong be allowed to sit down at the conference table. He stated that the President should definitely be told of this fact. He then mentioned that several members of the Supreme Court are well aware of the background of Evans as well as the background of such characters as Sheridan, Bellino, and other henchmen of Kennedy's.

CONTINUED.....OVER

Memorandum to Mr. Tolson

At this point, I told Justice Fortas of the memoranda in which the Director in 1963, at the specific request of the President, had furnished the President concerning Bellino, et al., and that the President had the following day dismissed these individuals from employment at the White House. I mentioned that Kenny O'Donnell had immediately advised Bobby Kennedy, and Bobby Kennedy had had Ed Guthman issue a direct threat to us in connection with this matter. Justice Fortas stated this was typical of Kennedy.

Justice Fortas next made reference to the decision handed down by the Supreme Court yesterday in connection with confessions. He stated that he sincerely hoped that the Director and the personnel of the FBI would pay close attention to the conclusion of the statement by Chief Justice Warren wherein the Chief Justice clearly implied that the FBI was a model agency for all law enforcement to follow. Justice Fortas told me that he wanted the Director to know that following Thurgood Marshall's inept and stupid presentation to the Supreme Court regarding the general matter of confessions, he, Justice Fortas, had been instrumental in instructing Thurgood Marshall to specifically return to the Department and ascertain exactly how the FBI handled the matters of questioning of subjects, arraignment of subjects, confessions, etc. He stated that Marshall therefore, as a result of such action, had found it necessary to submit such procedures to the Supreme Court. He stated on this basis, Chief Justice Warren had no alternative but to pat the FBI on the back.

Justice Fortas inquired as to the Director's opinion concerning Ramsey Clark. I told him that the Director of course had enjoyed a very favorable friendly relationship with Justice Tom Clark for many years and that the Director had also enjoyed a fairly favorable relationship with Ramsey Clark, however, not anywhere near as close as the friendship with his father. I told the Justice that the Director had received information pointing out that despite the fact Ramsey Clark was known as a "Johnson man," he nevertheless could see no wrong in Bobby Kennedy. Justice Fortas stated that he felt Ramsey was a good man but young, naive and one that constantly looked down into the deep waters and could see no wrong in anyone. He stated that Ramsey Clark was a "dreamer." Justice Fortas then inquired as to whether or not there are any loyal Johnson supporters in the Department. I stated that the Director had mentioned on a number of occasions that perhaps the only one who could be declared a loyal supporter of the President's was Ed Weisl, Jr. The Justice expressed no surprise. He stated he thought this to be the case.

CONTINUED. .... OVER

Memorandum to Mr. Tolson

At the conclusion of our discussion, the Justice reiterated once again the action he planned to take with the establishment of an "arbitrator." He stated that I should keep in touch with him on a confidential basis regarding this matter. He also stated that I should not hesitate in the future to get in touch with him concerning any problems in which the FBI's interest should be protected. He reminded me that the President had great faith in the Director and the FBI and that in many instances we undoubtedly found ourselves in a position where we could not protect ourselves. He also stated that while the President had issued specific statements concerning wiretapping and usage of electronic devices, he nevertheless realized that the FBI had to have the advantage of such devices in order to adequately handle its responsibilities both in the security and criminal fields. He stated the President's only concern had been his opinion that there were too many electronic devices in the political field. He stated we of course were not guilty of such practices. He stated he recognized this and he also recognized that the entire hysteria concerning the usage of microphones and electronic devices had been brought about as a result of Bobby Kennedy's brash practices. He stated he deeply resented the fact that Bobby Kennedy had thrown his former partner, Sheldon Cohen (Director, Internal Revenue) to the wolves in connection with these matters.

ACTION:

(1) Pursuant to the Director's instructions I will advise Marvin Watson today of the background and current employment of Courtney Evans.

(2) If the Director agrees, I will advise Justice Fortas that the Director is of the opinion that Ross Malone would probably be the best man to serve as an "arbitrator."

RESPECTFULLY,

C. D. DE LOACH

OK. Certainly Royal would be impossible. I had enough of him when he was at the funeral for the saboteurs & later when as Secretary of War he was instrumental in throwing me out of D & S & setting up a "practicality" of an "arbitrator" I have some doubts. It can be another "Warren Commission" & end in a fiasco. H

and there was a discussion of possible candidates. Fortas also characterized the presentation of the Government's case by then Solicitor General Thurgood Marshall as inept and inadequate. Significantly, while Fortas disclosed that he planned to disqualify himself, he also discussed his attendance at a "confidential meeting among the justices" which discussion included alternatives which the Court was considering. He also pointed out that Justice White did not intend to participate in the Black decision. The documents also disclose that Fortas asked De Loach whether there was any use of electronic surveillance in the Hoffa case. De Loach replied that then Attorney General Robert Kennedy had asked the FBI to place a microphone surveillance on an attorney by the name of Haggerty. Fortas disclosed to De Loach that he intended to sit on the Hoffa case and make certain that (Attorney General) Katzenbach was "exposed".

The documents also contain candid remarks about several individuals. The first document states Mr. Hoover's opinion that then Attorney General Katzenbach would present a "slanted" version of the facts to the Supreme Court; describes then Solicitor General Thurgood Marshall as "dumb"; refers to former Attorney General Ramsey Clark as a "dreamer"; discusses former America Bar Association President Ross Malone as Mr. Hoover's choice for the arbitrator; refers to (later to be Supreme Court Justice) Lewis Powell as a possible candidate, but contains Mr. De Loach's description of Powell as "naive"; refers to a Departmental Attorney Eddie Weisl, Jr. as being politically loyal to then President Johnson; and, lastly, refers to former Secretary of the Army Ken Royall as a possible candidate for the arbitrator. In a hand written postscript to the second document, Mr. Hoover notes remarks uncomplimentary to Royall and refers to the Warren Commission as having ended in a "fiasco."

The third document is a memo from Mr. De Loach to Mr. Tolson dated 9/12/66 which sets forth information from a "reliable source". That information refers to plans of the U. S. Supreme Court. From the context of the documents, the source appears to be Fortas. In that document, the source states that the Court believes that then Solicitor General Marshall was evasive in his handling of the Black matter and plans to call him before the Court; that Fortas and (Justice Tom) Clark are "leading the fight" to get the truth; that all Justices except Douglas and White are angry about (Attorney General) Katzenbach's handling of the Black matter; and makes reference to a "carefully conceived campaign" by Robert Kennedy to conduct electronic surveillance.

OFFICE OF THE DIRECTOR

UNITED STATES DEPARTMENT OF JUSTICE  
FEDERAL BUREAU OF INVESTIGATION

WASHINGTON, D.C. 20535

June 14, 1966

MEMORANDUM FOR PERSONAL FILES

Assistant to the Director DeLoach called and stated Supreme Court Justice Abe Fortas returned his call last night and asked him to have breakfast with the Justice this morning. Mr. DeLoach stated he outlined to the Justice the entire Black matter and told him what it is necessary for us to do is to protect the Bureau and gave the Justice the background of the exchange of correspondence and how Attorney General Katzenbach tried to blacken our name. Mr. DeLoach stated he mentioned to the Justice and showed him a copy of the New York telephone letter approved by former Attorney General Kennedy and the memorandum advising the Department of the use of microphones and trespass. Mr. DeLoach told the Justice that with respect to the Black case, despite all the facts we were going to furnish the Attorney General, no doubt they would furnish the Supreme Court a slanted version of the matter. Justice Fortas said he recognized this fact and that actually what this boils down to is a fight for the Presidency; that Bobby Kennedy has been trying to knock Vice President Humphrey out with the liberals and this is a continuation and Kennedy should be exposed.

Mr. DeLoach stated Justice Fortas asked if we had furnished the information to the President and was told we had for the most part but the President could not be involved in furnishing information to the Supreme Court. Fortas said the problem is to get the facts to the Supreme Court and the people and to protect the FBI and then referred to the Black Case and said after it had been ineptly and inadequately presented by that "dumb" Thurgood Marshall, there was a confidential meeting among the Justices of the Supreme Court and even though he, Fortas, planned to disqualify himself, he attended and gave his opinions and Justice Byron White was there and did not like what was taking place and was trying to defend Bobby Kennedy. Fortas stated that after the meeting, the Justices decided if they remanded the Black Case to a lower court, Katzenbach would merely pick a patsy as a Federal Judge and try the case in favor of the Federal Government and Katzenbach and he said the Supreme Court Justices did not want that done but Justices Douglas and Black, particularly, wanted to set themselves up as a tribunal to get further information and wanted to know who authorized it. Fortas said the Court can do either of two things: can either remand it to a lower court or issue a directed verdict for the defendant.

Fred B. B. B. B.

Memorandum for Personal Files

June 14, 1966

Fortas said he did not see how they could take the latter course of action because this particular microphone information had no relevancy insofar as the tax case is concerned. Fortas said it boils down to the fact that we have to get these facts out somehow rather than Katzenbach taking it and presenting a slanted version. Fortas said he thought he should slip over and talk to the President before he leaves for Florida and tell the President it is a continuing fight for the Presidency and it will be injurious to the President and other individuals and the country. Fortas said that obviously Mr. Hoover cannot go up and testify before the Supreme Court counteracting what Katzenbach is furnishing as it would be bad insofar as the country and history is concerned. Fortas said what he can do is prevail upon the President to appoint an arbitrator who will defend Johnson and take the evidence as furnished by the FBI and show it in a fair light and have this man sit down and listen to the FBI and take this damning evidence, which is on record, and write a report and let this stand as the answer to the Supreme Court and the Court will get all the facts and can remand it to a lower court and the FBI will be protected. Fortas said the thing to do is to pick a man and asked if DeLoach had anybody in mind. Mr. DeLoach told him that Mr. Hoover would have a better idea than he would.

Fortas said he was thinking of Ken Royall, who is a Johnson man and asked what DeLoach thought, who stated he had heard a few things about him. Fortas then asked DeLoach what he thought of Ross Malone, former President of the American Bar Association and DeLoach told him he knew Malone was friendly toward the Director and the Bureau. Fortas said there was another former President of the ABA in Richmond, Virginia, and DeLoach told him he was thinking of Louis Powell. DeLoach said that frankly, Powell is naive but is favorable toward the FBI. Fortas said he would talk to the President about these three men and if the Director had any ideas to let him know.

I told Mr. DeLoach I would, of course, be strongly inclined toward Ross Malone as I thought he would be a better man if they are going to name an arbitrator, although I did not see how they could work that around to supercede the Attorney General and the Solicitor General. I stated this means the whole thing then goes over to the fall term because an arbitrator will have to hold hearings and get our report.

Memorandum for Personal Files

June 14, 1966

I told Mr. DeLoach I saw a memorandum which came through this morning from Ramsey Clark asking us to work with Rogovin in preparing the answers to these questions that the Court asked. I stated, of course, I did not intend to do that. I stated what I want to do is get our memorandum prepared. I stated there was one thing which I had not seen in the paper and was in the memorandum was the request for the identity of the attorneys in the Department who first learned of this microphone and the date, which was not covered in the press insofar as I saw. I stated that is a good point because the record shows we notified them in August, 1965, long before the Circuit Court had decided and certainly long before the case went to the Supreme Court. We notified the Attorney General with copies to Vinson and the Deputy.

I told Mr. DeLoach that I thought if they felt it can be done by appointing an arbitrator, that's all right, that I knew the Department will not send up what we send over as they will distort and twist it.

Mr. DeLoach stated he had mentioned this to Mr. Tolson, who was of the opinion we should go ahead and consider getting the material over to the Department as expeditiously as possible and I commented today, in fact. DeLoach said there was one thing he wanted to mention and that is, if we go ahead and send it over today and Katzenbach takes advantage of this and throws it out the window and gets one prepared and sends it up to the Supreme Court and the President calls him over and says he wants to appoint an arbitrator, Katzenbach will be in a position to say he has already answered the Supreme Court. I stated I thought that would put Katzenbach in bad with the President and the President would be outraged that Katzenbach had gone ahead and sent over a distorted and watered-down version of the facts and it might be the end of Katzenbach's days. I stated so far as getting facts out, we can probably work something along that line afterwards if Katzenbach pulls that trick. I stated we ought to get it on record and over to him and a copy to Watson for the President and if they go ahead and move on that this week and get it up without following what we say, I don't intend to change our verbiage at all; I flatly refuse and won't yield an inch insofar as substituting the phrase the "general Departmental authorization" which was the verbiage Katzenbach used originally and cut out. I am willing that be in the memorandum indicating this action was taken in line with general Departmental authorization that had prevailed for some years and had been reiterated by Attorney General Brownell, Rogers, and more specifically in writing by Attorney General Kennedy. I told Mr. DeLoach to get it in that way and if they are going to start an argument on that, I am just going to take an adamant position that I will not change it and if they change it and send it up

Memorandum for Personal Files

June 14, 1966

they are falsifying the facts to the Supreme Court for which they will have to suffer the consequences. I stated in the meantime Fortas can try to get an arbitrator appointed.

Mr. DeLoach stated there was one other angle; that Fortas referred to the Hoffa case and said he had disqualified himself insofar as the Hoffa case was concerned but he might get back in and asked DeLoach if he knew anything about electronic devices there and DeLoach said he did and that Kennedy had asked us to put one on Haggerty, the attorney in the case and Fortas was amazed and commented that now DeLoach had told him, he was going to qualify himself in that case again. I commented that they also had some man wired up who was dealing with Hoffa from New Orleans; that they put out orders to wire him up so there could be a recording of that although I did not know if it went through or whether he saw Hoffa or not, but I did know of the lawyer incident and that is damning itself.

I stated that in the Black matter, to be certain to clarify the purpose for which it was put on, namely the crime syndicate in Las Vegas and it had nothing to do with the Bobby Baker case but dealt exclusively with the operations of the hoodlum element in Las Vegas. Mr. DeLoach stated he would have that in to the Director this morning.

Mr. DeLoach commented he thought this meeting with Fortas was well worth it. I stated as it turned out, it was; that I was dubious as I don't know Fortas well myself, but I thought he would try to weasel out on the grounds it was improper for him as a member of the Court to even discuss the matter and then, of course, nothing could have been obtained, but he apparently is a more honest man than I gave him credit for. DeLoach stated that it boils down to the fact that he has to defend the President.

I commented that I am surprised at Byron White disqualifying himself when he must remember the memorandum that went to him outlining in detail exactly what we were doing in the microphone situation and it was for the purpose of briefing Bobby Kennedy; now either he did or did not and if he didn't, he did not perform his duties as he should and I think he did and is trying to protect Bobby because Bobby had him appointed to the Supreme Court and of course, he is no doubt lined up with Bobby in connection with the Presidency. I stated

Memorandum for Personal Files

June 14, 1966

Katzenbach was Bobby's choice for Attorney General and the President made a mistake in appointing him, particularly after Bobby asked him to and he is getting paid back now and I think rightly so by Katzenbach. It is more or less a doublecross.

Mr. DeLoach stated Fortas asked him if there were any people in Justice who were loyal to Johnson and DeLoach told him one - Eddie Weisl, Jr. Mr. DeLoach stated Fortas asked about Ramsey Clark and DeLoach told him Clark sees no wrong in Kennedy. Fortas said the trouble with Ramsey Clark is he looks down in deep waters and sees nothing wrong with anybody and he is too dreamy. I stated that if the President asked me about him, I would say pretty much the same thing, that I think he is a nice fellow and an honest fellow, I think, but he supports Kennedy when any question comes up about the things Kennedy has done and he is a dreamy man and no man like that ought be appointed to be Attorney General at any time. I commented that like in the Giancana case in Chicago, it smells to high heavens that fellow Daley and the other fellow, who is probably a fence, were the two who interceded with Vinson and it resulted in the orders being issued to Hanrahan. I stated the thing that entered my mind in connection with seeing Fortas was that the Department went to see two Justices of the Supreme Court before they ordered the dropping of the Giancana case in Chicago and they were advised that if it came before the Supreme Court it would be reversed.

Mr. DeLoach commented that we have got to fight to save our lives. I stated there was no question it is the greatest crisis we have had and I am not going, as I said when I had the conferences with Clark before, to be conciliatory but agreeable, but now it has been laid on the line and I will not agree to changing the phraseology. Mr. DeLoach stated that Fortas said it will be a continuing thing and not end with the Black Case but go into the Baker Case and the Hoffa Case and the FBI has to stand up right now. I stated anybody who has Edward Ben nett Williams as their attorney can get Katzenbach to do anything.

Mr. DeLoach stated Fortas mentioned this fellow Evans (Courtney A. Evans) and he told Fortas that I had instructed that he, DeLoach, call Evans and interview him and he told Fortas what Evans admitted. Fortas asked if the President knew Evans is working for Katzenbach and DeLoach told him the President did not. FREEDOM OF INFORMATION ACT (FOIA)  
REQUEST BY THE ARKANSAS DEMOCRAT NEWSPAPER  
FOR RECORDS PERTAINING TO GORDON WENDELL KAHL

PURPOSE: To advise of the proposed release of documents on December 21, 1989, concerning Gordon Wendell Kahl, deceased, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Mr. Don Johnson, reporter for The Arkansas Democrat newspaper, has submitted an FOIA request for a portion of the FBI Headquarters file known as "MARMURS." This file pertains to the attempted arrest of parole violator and fugitive Gordon Kahl at Medina, North Dakota, in February, 1983. The attempted arrest resulted in a shootout between Federal and local law enforcement officers, Kahl, and several fellow members of the Sheriff's Posse Comitatus tax protestor group. Two United States Marshals were killed and three other law enforcement officers were injured in the confrontation. Kahl remained a fugitive after the shooting for four months until he was killed in a shootout and house fire in Smithville, Arkansas, with FBI Agents and U. S. Marshals in attendance. Mr. Johnson specifically requested the 100 pages immediately preceding the date of Gordon Kahl's death.

Allen H. McCreight to Mr. Otto  
Re: Freedom of Information Act (FOIA)  
Request By The Arkansas Democrat Newspaper  
For Records Pertaining to Gordon Wendell Kahl

Documents being released include FBI Laboratory Reports pertaining to firearms and fingerprint analyses; a summary of the Medina shooting incident and resultant deaths of the U. S. Marshals; discussion of inventoried crime scene evidence and status reports concerning plea agreements and court proceedings of the trials of Kahl's widow, son and other participants in the North Dakota assault on the law enforcement officers.

While Mr. Johnson limited this current request to the specified 100 pages, it is anticipated that after reviewing this material he may request additional information regarding this matter. Two files chronicle these events, i.e. the MARMURS investigation discussed herein and the Administrative Inquiry investigation conducted as a result of the shooting in which FBI Agents were involved. Both files are processed and portions have been released to previous requesters.

Memorandum from Allen H. McCreight to Mr. Otto  
Re: Freedom of Information Act (FOIA) release to  
Ted Agres, Assistant Managing Editor,  
The Washington Times, and others, regarding  
James Baldwin

The information being released relates to Baldwin's association with various Communist "front organizations" (e.g., Southern Conference Education Fund, Emergency Civil Liberties Committee, the Monroe Defense Committee, etc.) and with Baldwin's public statements about the FBI and Director Hoover. The material dates from 1961 to 1974.

One document being released shows that in 1964, Hoover noted on a memorandum, "Isn't Baldwin a well known pervert?" A subsequent memorandum responded that "while it is not possible to state that he is a pervert, he has expressed a sympathetic viewpoint about homosexuality on several occasions."

Deletions were made to protect classified information, personal privacy of other individuals, confidentiality of sources and investigative techniques. This release consists of 944 pages out of a total number of 1,302 pages.

Memorandum from Allen H. McCreight to Mr. Otto  
Re: Freedom of Information Act (FOIA) Request and Civil Action  
of Mr. James Lesar for Former Director Hoover's Official  
and Confidential (O & C) files

before the Court of Fred Black, (Black v. U.S., 385 U.S. 26  
(1966), decided 11/7/66, copy of decision attached).

Review of that case decision indicates that Fortas recused himself from the decision; however, it is possible that Fortas and De Loach (the FBI) will be viewed as having acted improperly in this matter. The Black case involved a prosecution for tax evasion. The Bureau had conducted an electronic surveillance of Fred Black in an unrelated investigation. According to the decision, it was not until the conviction for tax evasion had reached the Supreme Court on a petition for certiorari that Tax Division attorneys realized that conversation between the defendant and his attorney had been overheard by the FBI and included in their reports. The issue was presented to the Court in a petition for rehearing after the original petition had been denied. Neither Justice Fortas nor Justice White participated in the decision. On the petition for rehearing, the Court vacated Black conviction and ordered a new trial.

The first two documents disclose a discussion between De Loach and Fortas which took place at a breakfast meeting between the two on 6/14/66. It appears that the contact was initiated by De Loach. Hoover was apparently concerned that it appeared that the FBI had monitored Black's conversations without specific Departmental authority (note that the interception took place prior to the passage of Title III, of the Omnibus Crime bill of 1968). The documents disclose that it was Mr. Hoover's position that then Attorney General Robert Kennedy had clearly authorized the electronic surveillance in this and other cases.

The first document attached is a memo of Mr. Hoover to his personal files dated 6/14/66, apparently written after he was briefed by De Loach. In his memo, Mr. Hoover reiterates many of the comments made at De Loach's meeting with Fortas which is discussed in the second document, a memo from De Loach to Tolson also dated 6/14/66.

In that memo, De Loach reports that Fortas attributed the handling of the Black case by DOJ to politics; he reportedly states that the "problem" is "how the FBI's "irrefutable evidence" of (Robert) Kennedy's "clear cut authorization" of the electronic interception could get to the Court. Fortas suggested that an outside arbitrator be appointed

PURPOSE: To advise of the forthcoming release of documents on

DETAILS: SA [REDACTED] an FBI Agent from our Los  
Angeles (LA) Office, submitted an FOIPA request on 6/14/88 for  
all information from FBIHQ and LA files, regarding allegations  
made against him by Congressman Gallegly which resulted in an  
administrative inquiry.

In May of 1988, an inquiry was initiated regarding  
allegations by Congressman Elton Gallegly, 21st District of  
California, against SA [REDACTED] and other unidentified  
Agents of the LA Office for conspiring together to have SA  
[REDACTED] wife and others write unfavorable letters about the  
Congressman to local newspapers portraying the Congressman as not  
being a supporter of the FBI or law enforcement in general. The  
alleged purpose of this letter-writing campaign was to hurt the  
Congressman's chances of being re-elected. The Congressman  
believed that such a conspiracy possibly violated the provisions  
of the Hatch Act.

Mr. McCreight to Mr. Otto Memo

RE: FREEDOM OF INFORMATION-PRIVACY ACTS (FOIPA) REQUEST OF  
SA [REDACTED] AND ALAN C. MILLER, LOS ANGELES TIMES,  
FOR INFORMATION PERTAINING TO AN ADMINISTRATIVE INQUIRY

After receipt of complaint from Congressman Gallegly, the facts of the complaint were discussed with Richard M. Rogers, Deputy Counsel, Office of Professional Responsibility, DOJ (OPR/DOJ). It was his opinion that no potential Hatch Act violation had occurred, and that this matter would be more appropriately handled administratively by the FBI. Following interviews with Congressman Gallegly, SA [REDACTED] and others, Rogers was again contacted. It was his continued opinion that no Hatch Act violation had occurred, and administrative handling by the FBI was appropriate.

Following the completion of the administrative inquiry, the entire matter was reviewed by the SAC, Los Angeles and ASD. It was determined that there was no conspiracy among the FBI Agents to thwart the re-election campaign of Congressman Gallegly, and there were no violations of Bureau rules and regulations. It was recommended that no action be taken.

b6  
b7C

This entire matter has been the subject of several newspaper articles and is apparently of continuous media interest in the Los Angeles area. The media has reported that Congressman Gallegly has denied that he had ever complained, formally or informally, to the FBI in regard to this matter.

In addition to SA [REDACTED] request, in November, 1989, Alan C. Miller of the Los Angeles Times also submitted an FOIPA request for the same information, with [REDACTED] notarized authorization. This request will be processed at a later date.

A total of 107 pages were reviewed and 104 pages will be made available to SA [REDACTED]. As no expressed grant of confidentiality was afforded any interviewee, all information provided by individuals in the course of this inquiry will be released, with the exception of a few minor deletions to protect the privacy of third parties. The information to be released includes 302's of three interviews of Congressman Gallegly by ADD Otto as well as interviews of several retired FBI Agents.

allegations received from Congressman Gallegly that SA [ ] and others had possibly violated the provisions of the Hatch Act. The inquiry concluded that no violation had occurred and no action was taken. Included in the release of documents to SA [ ] on 1/12/90 were copies of 302s of three interviews you personally conducted with Congressman Gallegly in this matter.

[ ] As a result of an FOIPA request from SA [ ] he was furnished excised copies of an earlier Administrative Inquiry concerning himself and others (but not [ ] which also stemmed from information received from Congressman Gallegly. This inquiry also resulted in no action being taken. SA [ ] subsequently filed an administrative appeal challenging the withholding of two specific documents.

The documents at issue consist of a copy of a letter dated 10/16/87 from Congressman Elton Gallegly in which he described a visit to his office by SA [ ] and two other SAs to gain his support for a bill regarding overtime compensation, and a memo to file from then SAC Richard T. Redactions were made from the responsive material in order to protect identities of confidential sources and information provided by confidential sources, the identities and personal information concerning persons of investigative interest, as well as investigative techniques. Noteworthy information proposed for release indicates that in 1942 the Philadelphia Field Office made inquiries among "reliable contacts" in libraries in the Philadelphia area. They determined that the Free Library, Philadelphia, maintained copies of the Industrial Worker, and the names of persons who had charged out copies of this newspaper were obtained. Investigation of these persons was subsequently conducted, including a check of local directories, voter registration lists and mail covers placed on their addresses. The names and information pertaining to these individuals as well as the mail cover investigative technique were excised.

In view of the extensive publicity regarding the FBI's "Library Awareness Program," it is anticipated that this release could generate additional publicity.

A letter will be forwarded on 3/16/90 to Mr. Greene requesting duplication fees for the pages to be released. The above described documents will be released at such a time as the fees are received.

numerous police department requests for FBI assistance in solving homicides, kidnappings and/or missing person(s) cases wherein Ted Bundy was the prime suspect. All ten laboratory files were withheld in their entirety in order to protect the existing system of exchange of information between the FBI and local law enforcement agencies.

Documents being released include detailed accounts of the events surrounding the two times Bundy escaped from police custody and his recapture; Bundy's personal and criminal histories as of 1978; a number of photos of Bundy including wanted posters and "Ten Most Wanted Fugitive Program" information; FBI press releases and a limited number of laboratory documents pertaining to fingerprint analyses generated when Bundy was a fugitive.

Mr. Roy also specifically requested any FBI studies of Bundy and records gathered by the FBI's Behavioral Science Unit as a result of pre-execution interviews. Following consultation with appropriate personnel in the Behavioral Science Unit, it was determined that all material maintained by that unit regarding Mr. Bundy will be withheld in its entirety to protect, among other things, confidential sources and investigative techniques. Mr. Roy will be so advised.

An additional release is being made of the same material to a student requesting information on Bundy for a research paper.

The TSD survey process consisted of notification to the SAC, Pittsburgh, of survey requirements, and interview of available Resident Agency SAs and collection of Chamber of Commerce information concerning area demographic data and local real estate advertisement publications (attached as enclosures). Contacts outside the bureau were accomplished on an anonymous basis. However, during the conduct of the survey, the Honorable Senator Robert C. BARRETT, A FREE LANCE WRITER, FOR RECORDS CONCERNING  
WALTER W. JENKINS

PURPOSE: To advise our response to this request from Mr. Barrett  
may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Walter W. Jenkins, deceased, was an Administrative Assistant to President Lyndon Johnson. Three files were found to be responsive to this request: (1) A 1958 background investigation for the Atomic Energy Commission regarding a clearance for Jenkins; (2) A 1964/65 SPIN investigation ordered by President Johnson after Jenkins had been arrested on 10/7/64, along with Andrew Choka, a retired U.S. Army enlisted man, also deceased, on a morals charge; (3) a 1965 investigation of an alleged KGB "smear campaign" which tried to link Director Hoover to Jenkins and make it appear they were having an affair. Approximately 4,700 pages were reviewed and over 3,500 pages containing the following information will be released to Mr. Barrett:

Mr. Jenkins' morals arrest on 10/7/64 did not become known publicly until 10/14/64. During the intervening period, Abe Fortas and Clark Clifford, prominent D.C. attorneys who handled legal matters for President Johnson, visited several

Washington newspapers asking that the Jenkins story be suppressed. They also arranged for Mr. Jenkins' hospitalization at the direction of the President as a part of the effort to suppress and/or control the story concerning Jenkins' arrest.

President Johnson ordered a full background investigation of Jenkins following the publication of his arrest. Several hundred people were interviewed, including Congressmen, White House employees, business and personal associates along with Mr. Jenkins himself. Upon completion of the investigation, the FBI issued a Press Release stating that other than these two arrests, Mr. Jenkins had not committed any other acts of a homosexual nature. President Johnson ordered Director Hoover to make this statement although Mr. Jenkins had admitted to the FBI several homosexual encounters, some dating back to his youth.

Also being released is a statement indicating that the Civil Service Commission (now Office of Personnel Management) kept files on known "sexual deviates" employed by the U.S. Government; documents showing that the Secretary of Defense requested the FBI to investigate all members of the Air Force Reserve Squadron to which Jenkins belonged (names of these individuals, many of whom were Congressional staffers, and results of the inquiries are being withheld); letters from irate citizens (names deleted) questioning why Hoover sent flowers to Jenkins when he was first hospitalized; and the fact that the FBI withheld a background investigation report on another admitted homosexual until after the 1964 Presidential election because of President Johnson's concern that his name would be mentioned throughout the inquiry.

In processing the material proposed for release, the names and identities of third parties were protected where possible and results of the background investigations of other individuals included in the Jenkins files were deleted. Interviews of both Fortas and Clifford are being released. Neither statement contained any unfavorable information and details concerning their visits to the newspapers have been previously reported in news articles. Also being released is an interview of former Senator Barry Goldwater who at the time was also the Commander of the Air Force Reserve Squadron to which Jenkins was assigned. Goldwater's statement contained no

unfavorable information. In addition, former AD Cartha D. DeLoach, who was the White House liaison for the Bureau and in that capacity had almost daily contact with Jenkins, was requested by Hoover to prepare a statement for the record concerning his knowledge of Jenkins. This statement is being released and again contains no unfavorable information.

ROBERT GRADY JOHNSON V. U. S. DEPARTMENT OF JUSTICE, ET AL.  
(U.S.D.C., DISTRICT OF COLUMBIA) CIVIL ACTION NO. 89-2842  
FOIPA MATTER

PURPOSE: To report the upcoming mandatory April 16, 1990,  
release of documents pursuant to litigation.

RECOMMENDATION: None. For information only.

DETAILS: Plaintiff Johnson and Robert Jay Neill are subjects of  
Oklahoma City division file 91A-10056. Based on the Bureau's  
investigation, an Oklahoma state court jury found admitted  
homosexual lovers Johnson and co-subject Robert Jay Neill, guilty  
of multiple murders during the commission of a bank robbery and  
both were sentenced to death on July 2, 1985. Johnson is  
currently on death row and, through this litigation, seeks  
documents which he believes may contain exculpatory information.  
Johnson bases his claim in large part on the opinion of the FBI  
case agent contained in an FD-302, the pertinent portion of which  
came into Johnson's possession.

Memorandum from G. Norman Christensen to Mr. Otto  
RE: ROBERT GRADY JOHNSON V. U. S. DEPARTMENT OF JUSTICE, ET AL.  
(U.S.D.C., DISTRICT OF COLUMBIA) CIVIL ACTION NO. 89-2842  
FOIPA MATTER

Included in the plaintiff's complaint as EXHIBIT 2 is a copy of the attached page 26 of the FD-302 of SA Granville D. Long, setting forth SA Long's personal opinion that Johnson awaited Neill in their apartment while Neill committed the bank robbery and murders. We are not sure how Johnson obtained a copy of this page nor do we know whether or not he has the entire document. We surmise he may have had access, through his defense counsel, to the FBI prosecutive report.

Pursuant to this litigation, the FOIPA Section is processing and releasing to the requester any documents from both the FBI Headquarters and the Oklahoma City field office files which are construed to be possibly exculpatory in nature.

During this time frame, MARILYN ROACH, victim customer in captioned bank, had stabilized enough for interview. She was interviewed initially by SA JAMES T. VOLZ and SA DONALD K. MAURER. During the interview, ROACH furnished information that was contradictory on several points with information provided by the witnesses. While she indicated that she saw only one person within the bank, she indicated that after she was shot she believed she heard two people talking in conversation that leads her to believe that there were two robbers. Viewing ROACH's statement in its totality discloses several discrepancies and contradictions. These appear to be made in good faith but obviously under great trauma and after some loss of time and perception. For instance, ROACH is from one to two hours off on the time she actually entered the bank. She also indicated that the female employees were still alive when she entered the bank while the ROBLES' emphatically contend that there was no sign of life and that they observed blood upon their entry which was prior to the entry of ROACH. It is believed highly probable that ROACH was hallucinating somewhat after her injury and that certain things she recalled as being said were, in fact, said in general but they are variations of things she overheard the ROBLES' saying to each other as they lay on the floor feigning death mixed in with statements made by witnesses who were arriving on the scene very shortly after the departure of the robber. The basic point to be observed is that ROACH, while having almost total view of the bank, saw only one individual in the bank. Also, all of the information which she provided which would indicate that two persons were in the bank is contradictory to that previously provided by the ROBLES' whose other information, for the most, has been corroborated

From the outset of the arrest of NEILL and JOHNSON, Special Agent in Charge ANTHONY E. DANIELS and Assistant Special Agent in Charge JEFFREY J. JAMAR have been extremely cautious to avoid press releases which could cause danger of prejudice without significant law enforcement function.

On the basis of the investigation noted above, it seems apparent, at least in the mind of SA LONG, that JAY WESLEY NEILL entered the bank and perpetrated the murders and robbery by himself although he was assisted in the planning, preparation, and purchase of the instruments utilized in the crime by JOHNSON. It appears that JOHNSON awaited NEILL in their apartment while NEILL committed the robbery. JOHNSON's presence in the apartment is somewhat corroborated by the statement and observations of DEBBIE WARD and BRENT HOWARD who can place JOHNSON in the apartment, apparently alone, at approximately 12:45 p.m. on December 14, 1984, the date of the robbery.

CONCERNING THE FBI'S ACCELERATED GRADE RAISE PROGRAM

PURPOSE: To advise of the forthcoming release of documents on 5/4/90 concerning the FBI's Accelerated Grade Raise Program, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Harold James Pickerstein, Esq., Trager and Trager, Fairfield, Connecticut, submitted an FOIA request on July 24, 1989, concerning the FBI's "decision to implement the Accelerated Grade Raise Program which was announced on February 2, 1989." Trager and Trager represents the Agents Association.

On February 2, 1989, the Director announced the approval of accelerated grade raises for the Agents of the Boston, Newark, San Francisco, and Los Angeles Offices, wherein there would be only a one-year wait between grades. (The New York Agents had been receiving accelerated grade raises since January, 1988.) Since that time, additional FBI field offices have requested to be included in the program, but have been advised that no expansion of the accelerated grade raise policy is being recommended at this time.

RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF HAROLD JAMES  
PICKERSTEIN, ESQ., FOR INFORMATION CONCERNING THE FBI'S  
ACCELERATED GRADE RAISE PROGRAM

Responsive documents were located through the central records system, through Administrative Services Division (ASD), and from appropriate administrative files. Of the 98 pages reviewed, 71 pages are being proposed for release. This material includes information regarding the development and implementation of the FBI's Accelerated Grade Raise Program. Excisions have been made to protect information related solely to the internal personnel rules and practices of an agency, or, that if released, would violate the deliberative process and attorney work-product privileges, or would be a clearly unwarranted invasion of personal privacy.

The release package has been reviewed and approved by the Legal Counsel Division and the ASD.

Due to the identity of the requester, as well as the fact that the Accelerated Grade Raise Program has been applied to only five FBI offices, it is anticipated that the release of this material may result in publicity.

MEMORANDUM FROM G. NORMAN CHRISTENSEN TO MR. GREENLEAF, DATED 7/12/90  
RE: FREEDOM OF INFORMATION ACT (FOIA)  
REQUEST OF JAMES H. LESAR, ESQ.  
FOR INFORMATION PERTAINING TO  
FORMER FBI DIRECTOR J. EDGAR HOOVER'S  
TELEPHONE LOGS AND COMMITMENT CALENDARS

In responding to the FOIA request of Mr. Lesar, a review of our files revealed one bulky enclosure from an administrative type file pertinent to his request. There are approximately 17,000 pages of material contained in the above bulky enclosure consisting of daily logs of former FBI Director J. Edgar Hoover's telephone messages, dating January, 1941, to May, 1972; and Mr. Hoover's appointment calendars dating January, 1957, to May, 1972. The daily logs are printed forms which note the identity of the caller, as well as the date, time, and the action taken, i.e., whether the call was referred to a subordinate. The appointment calendars contain names of persons scheduled to see the Director, often with a designation of the organization or agency represented by the visitor.

A waiver of fees for duplication costs was granted by the United States Department of Justice, Office of Information and Privacy.

The proposed interim release consists of daily telephone logs for the years 1941 through 1943. All names and identifying information were deleted, except for those of public officials such as Congressmen, Judges, FBI Assistant Directors and SACs, to protect the privacy interests of the callers.

Processing of the remaining material is continuing.

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF PROF.  
ROBERT DALLEK, UNIVERSITY OF CALIFORNIA, FOR RECORDS  
CONCERNING LYNDON B. JOHNSON

PURPOSE: To advise our response to this request from Prof.  
Dallek may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Prof. Dallek is currently under contract with the  
Oxford University Press in New York to author a biography on  
Lyndon B. Johnson. As a part of his research, he made FOIA  
requests which were directed to FBIHQ and the Houston Field  
Office. A search by FBIHQ located 70 main files and numerous  
cross-references. Fifty-five of these main files were eliminated  
through telephone contact with Prof. Dallek as not being  
responsive to his request. Three main files were forwarded from  
the Houston Office for handling. A total of 18 main files are  
being processed for disclosure.

This initial release consists of 629 pages obtained  
from the following three files: 1) a correspondence file (5  
sections), covering the period of 1940-1973, which contains  
miscellaneous documents such as congratulatory letters,  
constituent matters, messages of sympathy, materials regarding  
family members, and inter-agency memoranda; 2) an investigation  
in 1966, surrounding obscene letters containing threats directed  
to Johnson and Vice-President Humphrey, and a third victim whose

identity is being protected; 3) an investigation opened in 1969 following an allegation of bribery involving Johnson, Jimmy Hoffa and other subjects.

As a repository for miscellaneous matters, the correspondence file basically consists of communications between Johnson or his administrative staff and the FBI in the form of notes, letters or memoranda. These communications contained information relating to Johnson's personal or family affairs, political issues, name checks or clearances, and detailed security plans prior to Johnson's travels. Also, maintained were several letters from admirers of both Hoover and Johnson.

It should be noted that this file also contains material concerning issues of public controversy during Johnson's career. This includes, but is not limited to the following instances: Documents concerning Walter W. Jenkins, deceased, Johnson's Administrative Assistant who was arrested on morals charges and subsequently admitted his homosexuality (these documents have been coordinated with a previous release to free lance writer William P. Barrett, who requested records on Jenkins); information regarding Johnson's association with Bobby Baker and Billy Sol Estes; two documents concerning bribery investigations which mention deceased Senators Thomas J. Dodd and Ralph W. Yarborough.

Information released from the second file consists of laboratory reports, copies of the obscene threat letters and airtels or reports setting out the events surrounding receipt of these letters. The threat letters were written by an individual who strongly resented the President's policy regarding racial equality. The city in which these letters were postmarked is being released; however, the identity of the writer was not determined.

The third file, concerning bribery allegations, which consists mainly of administrative data, contains the least amount of substantive information to be released. The basis for this investigation cannot be determined from this material, and the nature of the file is identified by the caption only. The identity of the other subjects involved in this case have also been protected.

Mr. Moschella to Mr. Christensen Memo  
RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF PROF. ROBERT  
DALLEK, OF CALIFORNIA, FOR RECORDS CONCERNING  
LYNDON B. JOHNSON

In processing these files, the names and identities of third parties and those individuals providing information on a confidential basis have been protected. With the exception of Sam Houston Johnson, deceased, information concerning family members or social acquaintances has been withheld. Names of other legislators or publicly known individuals have been released.

For further information, two additional FOIA requests for records concerning Johnson have been received from James H. Lesar, an attorney who represents several clients seeking information pursuant to the FOIA, and Michael Ewing, a free lance writer, who for more than ten years has requested material on persons involved in organized crime activities or other criminal matters. Documents processed for Prof. Dallek will also be made available to these requesters.

in its entirety pursuant to Exemption 7D, as confidential source information.

Hall has submitted a waiver of privacy executed by Britton's (second) wife. This, combined with the lack of privacy rights of deceased persons, has resulted in the prospective release of most of the information in the personnel file. Except for the privacy exemptions asserted to protect the names of FBI personnel and personal information concerning other surviving relatives, as well as references to FBI confidential sources mentioned in Performance Appraisals, only two major categories of information have been redacted: a) the reports of the physicians who examined Britton prior to his death, either as personal care providers, or to make recommendations concerning his fitness for duty; and b) the reports of co-workers who commented on his fitness for duty during an OPR-type inquiry.

Although the actual reports of the physicians have been protected, summaries of information concerning Britton's problems have been released when doing so will not compromise the physicians' identities or their individual diagnoses. These disclosures, together with the administrative record revealed by the remaining documents, demonstrate that the FBI made every attempt to accommodate the personal needs of SA Britton, as well as attempting to ensure the safety of the public by monitoring SA Britton's condition.

The FBI monitored Britton's medical health extensively, and made every effort to ensure that Britton received appropriate medical and career assistance to minimize the effects of his illness. Because of the need to protect certain medical information, as well as information supplied by his co-workers concerning Britton's behavior in specific episodes, the possibility exists that Hall will portray the FBI as insensitive to Britton's needs, or conversely, to the requirements of public safety.

[REDACTED] the only investigation which will be acknowledged to the requester pertains to a "Fraud Against the Government" (FAG) case involving Rev. Fauntroy and Representative Gus Savage. This investigation has been acknowledged by the Government and has received extensive publicity. A preliminary investigation was initiated on 2/14/89, based on allegations that the son of Representative Savage (D-Illinois) may have been on Mr. Fauntroy's Congressional payroll in Washington, D.C., while residing in Illinois, and campaigning for State Representative in 1988.

Mr. O'Brien to Mr. Christensen Memo  
RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST FOR RECORDS  
PERTAINING TO REV. WALTER FAUNTROY, DISTRICT OF COLUMBIA'S  
NON-VOTING DELEGATE

The Public Integrity Section, Department of Justice (PIS/DOJ), compiled and presented substantial evidence before the Federal Grand Jury which showed a pattern of alleged illegal activity; however, no evidence was developed to indicate that Representative Savage and/or Rev. Fauntroy had knowledge of or involvement in any illegal activity. By note dated 4/26/90, to Director Sessions, the PIS/DOJ declined prosecution against Rev. Fauntroy and advised they were in the process of preparing a letter of referral on this issue to the House Ethics Committee.

At this time no material is being provided to the requester. He will only be advised of the availability of newspaper articles from the FAG investigation. The remainder of this file will be withheld to protect Rev. Fauntroy's privacy. In addition, records concerning the Southern Christian Leadership Conference and the Poor Peoples Campaign have been processed, pursuant to other FOIA requests. Releasable material has been placed in the FBI's Reading Room. Included within these releasable records are references concerning Rev. Fauntroy. These records are also considered to be public source material and will be offered to Mr. Cohen.

Inasmuch as Rev. Fauntroy currently holds the position of D.C. Delegate and recently sought mayoral election in the District of Columbia, it appears that any release or denial of FBI documents could generate immediate publicity.

INFORMAL NOTE - NOT FOR RETENTION

TO: DIRECTOR SESSIONS

RE: FREEDOM OF INFORMATION ACT REQUEST BY  
BARBARA ANN (HOFFA) CRANCER  
REGARDING JAMES R. HOFFA

Reference your routing slip of 4/29/91 requesting background information on a New York Times article dated 4/28/91 (attached) pertaining to a Freedom of Information Act (FOIA) request by Jimmy Hoffa's daughter, Barbara Crancer, for the FBIHQ file (9-HQ-60052) concerning his disappearance.

b6  
b7C

After reading a Detroit Free Press newspaper article concerning an eye-witness account of Jimmy Hoffa entering a car on the date of his disappearance, Barbara Crancer filed a FOIA request dated 2/17/87 for that witness's statement. She later requested the entire Headquarter's file on Hoffa's disappearance, an investigation which is still pending. After consulting with the Criminal Division, the FOIPA Section denied her request on 6/1/87 pursuant to 5 U.S.C. § 552 (b)(7)(A), which exempts from disclosure records or information that could reasonably be expected to interfere with enforcement proceedings. Crancer's administrative appeal of this decision was denied by the Office of Information and Privacy, Department of Justice, in November, 1987. On 2/8/89, Crancer filed a complaint in the United States District Court for the Eastern District of Missouri contesting the FBI's assertion of Exemption (b)(7)(A).

In addition to several declarations by FOIPA Section attorneys, Assistant Director William M. Baker executed a declaration on 9/27/90, explaining why the Hoffa file is totally exempt from disclosure under Exemption (b)(7)(A). Despite those affidavits, in March, 1991, the Court ordered that the FBI prepare an in camera Vaughn index justifying, on a document-by-document basis, why none of the requested information can be released from the 68 volume file. On 4/11/91, the Court denied a three-part motion to set aside the 3/22/91 order, to certify for appeal the question of whether the court could order the production of a Vaughn index, and to stay the order pending appeal. The FBI, the Office of Information and Privacy, and the Civil Division of the Department of Justice have recommended interlocutory appellate review and a stay, but no final decision has been reached by the Solicitor General. Therefore, the FOIPA Section has not begun to prepare a Vaughn index.

A separate FOIA request for the Hoffa file from the Detroit Free Press is being litigated in the Eastern District of Michigan.

## Hoffa's Daughter Sues U.S. For Files on Disappearance

By ISABEL WILKERSON  
Special to The New York Times

ST. LOUIS — Nearly 16 years after James R. Hoffa disappeared from a restaurant parking lot outside Detroit in one of the great unsolved mysteries of the century, his daughter has grown tired of theories and is looking for answers.

She thinks they may lie in the 69 volumes of documents and memorandums amassed by the Federal Bureau of Investigation since her father's presumed murder, and she has sued the Justice Department to have them opened.

The lawsuit seeks access to the files under the Freedom of Information Act. Mr. Hoffa's daughter, Barbara Ann Hoffa Crancer, who has gained prominence as an administrative law judge in St. Louis, is serving as co-counsel in a case that may test the F.B.I.'s right to secrecy and a daughter's right to know.

Judge Crancer, who shares her father's dark eyes and Roman profile, argues that the bureau has had long enough to solve the case. "You can sit forever clipping newspaper articles and waiting for deathbed confessions," she said.

### A Four-Year Effort

The Justice Department says that the investigation is continuing, and that making the files public would jeopardize the case and endanger informers.

"The files will lead to an ultimate conclusion, and at some point the ultimate conviction of someone," said Henry J. Fredericks, an assistant United States attorney in St. Louis.

Judge Crancer has been trying to gain access to the files since she read a newspaper article four years ago. It identified a Michigan woman who said she watched Mr. Hoffa being taken away from the restaurant on the afternoon of July 30, 1975.

She was growing weary of the bizarre theories about her father's death, those that had him buried in the end

zone of Giants Stadium in the New Jersey Meadowlands or ground up and dumped in a Florida swamp, or alive, and well in Argentina.

The conventional hypothesis, espoused in numerous books and said to be held by Federal investigators, is that Mr. Hoffa was killed by associates of the Genovese crime family over his efforts to regain control of the International Brotherhood of Teamsters after his release from prison. His body is thought to have been ground up and buried in a Mafia-controlled dump in Jersey City under the Pulaski Skyway.

After exhausting administrative channels, Judge Crancer sued the Justice Department in early 1989. But the case has been stalled for months by the Government's refusal to comply with a court order to produce an index of the files, along with reasons the documents should be kept secret.

Government officials argue that even an index of the files would tip off suspects about the investigation and frighten away informers.

"The mere giving of a name, the mere giving of a place, a date, a time could be detrimental," Mr. Fredericks said. "A good criminologist could piece this together like some giant jigsaw puzzle without your telling him anything else."

Another problem is the sheer bulk of files. At last count, there were 69 volumes, each including about 240 pages of memorandums and confidential interviews for a total of about 16,000 pages. In court documents, the bureau says it would take an analyst 20 months to compile the index.

In late March, Judge Stephen Limbaugh of Federal District Court gave the Government 90 days to compile an index of the first 17 volumes and present it to a magistrate for examination. The Justice Department would not say whether the indexing had begun.

Experts on the Freedom of Information Act say that because of the nature of the case and the inherent secrecy of law-enforcement agencies the odds are against Judge Crancer's succeeding.

"In cases like these, the agency prefers to withhold as much as it can," said Gary M. Stern, legislative counsel with the American Civil Liberties Union in Washington. "And the courts tend to be fairly deferential and sympathetic if the agency makes a reasonable claim."

Does anyone  
have a clue to  
what happened in  
1975?

### No Exemptions for Kin

There is no exemption for immediate relatives. "The fact that she's his daughter doesn't figure into the calculus," said Theresa Amato, who is director of the Freedom of Information Clearinghouse and a lawyer for the Public Citizen Litigation Group, a not-for-profit group in Washington.

Judge Crancer questions how serious the investigation has been. Her lawyer, Richard Greenberg, said: "They have not said they have targets or leads or that anyone is even assigned to the case. The only proof that there is an ongoing investigation is that they file papers in the investigative file."

But the Justice Department says no one needs to be reminded that this is no ordinary case.

Mr. Hoffa rose from dock worker to the head of the teamsters, once the nation's largest union. Along the way, he made alliances with the Mafia, locked horns with Robert F. Kennedy and served nearly five years in Federal prison for jury tampering and fraud.

After his sentence was commuted by President Richard M. Nixon, Mr. Hoffa was released on the condition that he not seek the union presidency. He tried anyway, and incurred the wrath of organized-crime leaders who preferred his more pliant successor Frank Fitzsimmons.

"Hoffa was unpredictable," said Arthur Sloane, a professor of industrial relations at the University of Delaware, who is author of the biography, "Hoffa," to be published in June by M.I.T. Press. "He could say no to the mob as well as say yes."

But Judge Crancer, who is 53 years old, remembers a different Jimmy Hoffa, a "loving father, full of life."

Growing up in Detroit with her younger brother, James, she had what she calls "a normal, happy childhood" of Girl Scout meetings and going to picket lines with her father and learning to live with the frequent visits to the Hoffa house of reputed underworld figures. She remembers her father saying, "When you're in labor, you deal with the people you have to deal with."

Barbara Ann Hoffa was Phi Beta Kappa and a member of the literary club at Albion College in Michigan. She was a teacher before marrying and moving to St. Louis in the early 1960's. She entered law school at Washington University here at age 42.

A Republican, she is an administrative law judge, hearing worker compensation cases. Her brother is a Detroit lawyer fighting to win the right to run for the presidency of the union their father headed.

In her courtroom, the truck drivers and laborers seeking damages and back pay for their injuries often get a kick out of it when they learn who she is. On her desk she keeps a black-and-white picture of her father, beaming and proud, with her standing on the podium next to him at the 1961 teamsters' convention in Miami.

A lifetime of hearing jokes and innuendo has girded her for whatever the files hold. "It could be very painful," she said. But she hopes for "a sense of coming to an ending."

RE: FREEDOM OF INFORMATION ACT RELEASE TO  
MRS. AGNES WILLIAMS; EVAN THOMAS, WASHINGTON  
BUREAU CHIEF, NEWSWEEK MAGAZINE; AND TED AGRES,  
ASSISTANT MANAGING EDITOR, WASHINGTON TIMES, REGARDING  
EDWARD BENNETT WILLIAMS, PROMINENT WASHINGTON, D. C.  
ATTORNEY

The General file, containing two volumes, dates from 1953 through October, 1985. It was opened at the request of DIRECTOR HOOVER and over the years accumulated documents relating to WILLIAMS' general activities, such as speeches made, articles written and media appearances. During the portion of the file wherein MR. HOOVER was Director, there are numerous unfavorable written comments by MR. HOOVER regarding WILLIAMS. References to WILLIAMS' representation of various organized crime figures and other controversial figures, such as JIMMY HOFFA, missing former Teamsters Union president, are set forth in the file.

The Special Inquiry files include a Headquarters file and two Washington Field files. These files, opened in 1975, regard background investigations on WILLIAMS when he was considered for various Federal appointments.

The Contempt of Court file contains 8 pages and concerns an alleged disclosure of confidential information during the 1967 investigation of ROBERT G. BAKER, in which WILLIAMS was the defense attorney.

One file pertains to a 1973 burglary of WILLIAMS' home in Potomac, Maryland.

Finally there is a 2-page file concerning a 1954 allegation of Obstruction of Justice and bribery against WILLIAMS. No action was taken by the Bureau.

Deletions were made to protect the privacy of third parties, confidentiality of sources, classified information, and investigative techniques. Of the 714 pages processed, 515 are being released. All requesters are receiving the same pages.

Government investigation. In addition to these files, there is another Bribery investigation concerning two workers of Pepper's 1964 Congressional campaign. Congressman Pepper is also the subject of a general correspondence-type file and is mentioned in the Official and Confidential Files of former Director Hoover and former Assistant Director Nichols. A majority of this material is dated in the 1940s, during the time when Mr. Pepper was a U. S. Senator.

With the exception of the general correspondence file, the documents being released contain the results of these investigations. Deletions were made to protect the personal privacy rights of other individuals of investigative interest to the FBI, and to protect the identity of confidential sources and the information furnished by those sources.

The general correspondence file regarding Congressman Pepper requires additional review of potential national security information and is not available for release at this time. Upon completion of this review, all information subject to disclosure will be released. Absent any unforeseen circumstances, notification of this release will be made directly to the Press Office.

A letter dated 5/28/91, requesting fees for duplication of the 582 pages available for release will be forwarded to the requesters. The documents will be released at such time as the fees are received.

INFORMAL NOTE - NOT FOR RETENTION

TO: DIRECTOR SESSIONS

RE: FREEDOM OF INFORMATION ACT REQUEST BY  
BARBARA ANN (HOFFA) CRANCER  
REGARDING JAMES R. HOFFA

Reference is made to my informal note dated 5/2/91, a copy of which is attached.

Barbara Crancer, Jimmy Hoffa's daughter, has filed a complaint under the Freedom of Information Act in the Eastern District of Missouri contesting the FBI's denial of her request for the FBIHQ file (9-HQ-60052) concerning her father's disappearance. In March, 1991, the District Court ordered the FBI to prepare an in camera Vaughn index justifying, on a document-by-document basis, why none of the requested information can be released from the 68 volume file. On 4/11/91, the District Court denied a three-part motion by the Department of Justice (DOJ) to set aside the 3/22/91 order, to certify for appeal the question of whether the Court could order production of a Vaughn index, and to stay the order pending appeal. On 5/13/91, the DOJ filed an interlocutory appeal and a petition for a writ of mandamus, arguing that the District Court was ignoring Eighth Circuit precedent which holds that only a categorical explanation is necessary, that is, a description of the categories of documents being withheld and an explanation of the harm that would flow from disclosure of each category. The Eighth Circuit has not yet rendered a final decision, but on 6/18/91 it granted a stay of the District Court's order to produce a Vaughn index.

Subject : FREEDOM OF INFORMATION ACT (FOIA)  
REQUESTS OF WRITERS STEWART HARRIS,

RECORDS CONCERNING WILLIAM JOSEPH CASEY,  
FORMER CIA DIRECTOR

PURPOSE: To advise of the release of 223 pages of documents on July 12, 1991, concerning William Joseph Casey, former CIA Director, now deceased, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Separate FOIA requests for records pertaining to William Casey have been received from Stewart Harris, staff associate of nationally syndicated columnist Jack Anderson of the Washington Post, Ted Agres, Assistant Managing Editor of the Washington Times, and Joseph E. Persico, an author. Two FBI investigations of Mr. Casey concerning Ethics in Government and 35 cross references are proposed for release.

A 1981 FBI investigation concerned allegations that Casey received a \$300,000 cash bribe from a South Korean businessman when he (Casey) headed the U.S. Export-Import Bank (EXIMBANK) in 1975. The bribe was allegedly paid for Casey's efforts in securing funding through the Eximbank for the construction of two nuclear power plants in South Korea. The investigation determined that Eximbank did fund

the power plant construction, but failed to substantiate the allegation or indicate any wrongdoing on Casey's part. The exact nature of the allegation and the identity of the source of the allegation is being withheld. Interviews of Eximbank officials which indicated no irregularities in the processing or approval of the loan application are being released following consultation with Eximbank. An inquiry from Senator Barry Goldwater, Chairman of the Senate Select Committee on Intelligence (SSCI) is also being disclosed.

A 1982 FBI investigation concerned allegations that Casey, while engaged in the private practice of law in 1976, lobbied officials of the Treasury Department, the Internal Revenue Service, and the Department of State on behalf of the Government of Indonesia (GOI) without registering pursuant to the provisions of the Foreign Agents Registration Act. Casey's representation of the GOI occurred approximately six months after his departure from Eximbank, whose alleged multi-million dollar loans to Indonesia again raised a possible conflict of interest violation. In March 1982, the Internal Security Section of the Department of Justice (DOJ) found no evidence of wrongdoing by Casey. The nature of the allegations, derogatory news articles by Jack Anderson, information indicating that the SSCI sent a four page report to the DOJ alleging that Casey had violated the FARA, and an interview of the Special Minority Counsel to the SSCI are being released.

Information being disclosed from the 35 cross references consists of: (1) an inquiry by the SSCI regarding whether Casey was the subject of an alleged Hobbs Act violation; (2) Ethics in Government allegations for which DOJ found no evidence of criminality; (3) general correspondence between Casey and the FBI; (4) a threat against Casey as Director of CIA; (5) his attendance at a symposium on terrorism; and (6) newspaper articles regarding his appointment as President of the Eximbank, his appointment as Undersecretary of State for Economic Affairs, and his recommendations while Chairman of the Securities and Exchange Commission.

his position on the Board of Regents of the University of California. There was no derogatory information uncovered during these investigations regarding MR. REAGAN. However, several individuals interviewed declined to recommend him due to their opposing political views.

Another file in the proposed release consists of correspondence to and from MR. REAGAN, threats and demonstrations against him as a political figure, notifications of anticipated travel by MR. REAGAN, and indications that the FBI provided then Governor REAGAN with information regarding plans for demonstration on the Berkeley campus or at his press conferences. This file, as well as the two files described above, mentions that MR. REAGAN was a member or sponsor of subversive organizations prior to becoming Governor of California. MR. REAGAN, however, disassociated himself from those organizations which had possible communist infiltration and became a spokesman for anti-communist groups. This information was included in a previous release of information on MR. REAGAN which has been furnished to several requesters, including MS. FREEDMAN.

The remainder of the proposed release consists of four files from the San Francisco Office, six additional Headquarters files and seven cross-references. These files and references all contain investigations of threats and demonstrations against MR. REAGAN when he was Governor of California.

Deletions were made in the material proposed for release to protect internal administrative policy; the identity of, and information from, all confidential sources; the privacy of third parties, the identity of FBI employees, and an investigative technique.

RE: FREEDOM OF INFORMATION RELEASE TO RICHARD D. THOMPSON,

The "Impersonation" file relates to an incident in 1953 wherein an individual sent a telegram using Senator Magnuson's name as the sender, in an attempt to delay a scheduled execution.

The "Bribery - Conflict of Interest" file is in regard to an allegation in 1966 that an employee of the Senator was in receipt of money from a third party. The Department of Justice advised there was no prosecutable violation of Federal statutes and the matter was closed.

The "General File" dates from 1940 through 1978. This file has been a repository for miscellaneous documents regarding Senator Magnuson, such as correspondence between him and the FBI, news articles and name check requests. The file contains allegations that in his early political days he was connected with gambling and racketeering in the Seattle area and was a sponsor of the Abraham Lincoln Brigade Rehabilitation Fund, Inc., a communist-front organization.

The four individual documents contain information regarding third parties and correspondence between Senator Magnuson and the FBI.

Deletions were made to protect the privacy of third parties, confidentiality of sources, and investigative techniques. Of the 375 pages processed, approximately 230 pages are being released to both requesters.

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUESTS FOR  
INFORMATION ON CYRUS HASHEMI

PURPOSE: To advise of the forthcoming release of information on  
11/25/91, which may result in publicity.

RECOMMENDATION: None, for information.

DETAILS: The FBI has received several FOIA requests for  
information concerning Cyrus Hashemi, a deceased Iranian  
national. One request is from the ABC Television show NIGHTLINE  
and two are from newspaper reporters. Files pertaining to  
Hashemi were located at FBIHQ and the New York Field Office. At  
this time, the HQ portions of this material are ready for  
release. The material purposed for release has been reviewed by  
the Criminal Investigative Division and the Congressional Affairs  
Office. The New York request is in the very early stages of  
processing.

A significant amount of public interest may be  
generated by this release. Cyrus Hashemi has been identified in  
the press as the individual through whom William Casey allegedly  
made arrangements to have the American Embassy hostages held  
until after the 1980 Presidential election, in order to aid the  
candidacy of Ronald Reagan. In 8/91, House of Representatives  
Speaker Thomas Foley announced that Congress would investigate  
these allegations.

Memorandum from J. Kevin O'Brien to Mr. Christensen  
RE: FREEDOM OF INFORMATION-PRIVACY ACTS (FOIPA)  
REQUEST OF FORMER PRESIDENT GERALD R. FORD

as a follow-up on President Ford's request. The FBI responded to these letters on October 8, 1991, advising Mr. Mackaman that the review of records had begun and, in the absence of any unforeseen difficulties, copies would be forwarded to the Ford Library within the next two months.

Documents prepared for release pertain to the October 1973 background investigation conducted on Gerald R. Ford at the request of the White House. Only the report as reviewed by members of the appropriate 1973 Congressional committee was processed for this request.

As the investigation was conducted prior to the Privacy Act of 1974, names and identifying information of most persons interviewed were deleted under the assumption of implied confidentiality. Deletions were also made to protect the unwarranted invasion of the personal privacy of other individuals and the identities of FBI and other government personnel.

Interviews of persons acquainted with Gerald Ford were generally favorable describing him as honest, hard working, capable and of high integrity. Of those interviewed that were not personally acquainted with him, most knew of nothing unfavorable concerning his character, reputation or family.

Information of a derogatory nature was minimal and ranged from statements against his party affiliation and concerns about his voting record on issues such as busing and labor laws to personal statements that he was dull, of limited intelligence and unqualified.

Nothing improper was developed concerning his financial affairs, including an allegation concerning his misuse of election funds. Other allegations of wrongdoing included his improper use of free air transportation, his involvement in the setting up of an import business following his official trip to China in 1972, and his acceptance of political payoffs for favors on behalf of private concerns. Our investigation failed to corroborate any alleged wrongdoings.

Memorandum from G. Norman Christensen to The Director  
RE: FREEDOM OF INFORMATION ACT (FOIA) REQUESTS FOR  
INFORMATION ON CYRUS HASHEMI

In 1980, Cyrus Hashemi was the subject of an investigation by the FBI, which included extensive electronic surveillance. The FBI's investigation led to indictments in 1984 of Cyrus Hashemi and several of his associates for illegally exporting arms to Iran. Two of these individuals entered guilty pleas. Cyrus Hashemi was not prosecuted in exchange for his assistance in another investigation concerning illegal arms, which was being conducted by the U.S. Customs Service. Hashemi died of heart failure in London in 1986.

There is nothing in the HQ file to prove or disprove the Casey/Hashemi connection. The file contains no information showing contact between Hashemi and anyone known to be associated with the Reagan election staff. However, information being released will show that numerous times during the early stages of the surveillance (which ran from 8/27/80 thru 2/12/81) different officials of the U.S. Government did contact Hashemi. These included employees of the State Department and members of the National Security Council (NSC). These contacts were made in an attempt to solicit Hashemi's assistance in the Embassy hostage crisis. State and NSC were contacted and advised of the Bureau's investigative interest in Hashemi. Both agencies requested and received, on a continuing basis, summaries of the information obtained through the electronic surveillance.

Additionally, information will be released which will show that in 1984, the investigation of one of Hashemi's associates, a former Assistant Attorney General, was dropped when it was discovered that the FBI had lost vital evidence. The lost material consisted of three original tapes from the electronic surveillance. A later FBI OPR inquiry into the missing tapes resulted in disciplinary action against an employee of the FBI. A limited amount of information from that inquiry is also being released. The released portions will show the Bureau's extensive efforts to locate the missing tapes and to determine responsibility for their loss.

The HQ files reviewed for these requests consist of a total of 2,704 pages. FOIPA Section is withholding 1,408 pages in their entirety and redacting considerable portions of the remaining material. The majority of the redactions are to protect the privacy of other individuals and classified information.

 REQUEST OF DAVID F. HALLBERLIN ON BEHALF OF  
 MARTIN HABIB FOR INVESTIGATIVE RECORDS PERTAINING  
 TO THE DEATH OF GREGORY HABIB AND THE MAIMING OF  
 MARTIN HABIB ON MAY 20, 1989

PURPOSE: To advise of proposed FOIPA release of 109 pages on March 17, 1992.

RECOMMENDATION: None. For information only.

DETAILS: On May 20, 1989, a confrontation occurred between the Habibs, citizens of Ghana, and officers of the Prince Georges County Police Department which resulted in the death of Gregory Habib and injury to Martin Habib. The main officer involved in this confrontation, Corporal Steve Kerpelman, was indicted by the Maryland State Grand Jury. However, the State Prosecutor decided to enter a nolle prosequi to the charges against Kerpelman. The Department of Justice, Civil Rights Division, concluded that there was insufficient evidence to support a prosecution under criminal Civil Rights statutes. This was a highly publicized incident during which requester, David Hallberlin, represented the Habib family.

PERTAINING TO THE AMERICAN BAR ASSOCIATION (ABA)  
TO ALEXANDER CHARNS, ESQ.

PURPOSE: To advise of the anticipated interim release of FBI Headquarters (FBIHQ) material regarding the ABA on 3/27/92.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated July 6, 1989, Mr. Charns submitted an FOIA request to FBIHQ for material in our files pertaining to the ABA's Standing Committee on Federal Judiciary (ABASCFJ). A search of the indices at FBIHQ located no records responsive to the ABASCFJ. However, we did locate main files pertaining to the ABA, the ABA Committee for the Investigation of Criminal Justice, and the ABA Delaware Chapter. Pursuant to our telephonic contact with the requester on March 28, 1990, and his letter to us dated February 20, 1991, he amended his request to include all records on the ABA except public source material.

MEMORANDUM FROM J. KEVIN O'BRIEN TO MR. CHRISTENSEN  
RE: FREEDOM OF INFORMATION ACT (FOIA) RELEASE OF DOCUMENTS  
PERTAINING TO THE AMERICAN BAR ASSOCIATION (ABA)  
TO ALEXANDER CHARNS, ESQ.

Alexander Charns is a North Carolina attorney affiliated with the American Civil Liberties Union and has made approximately 300 FOIA requests to the FBI in recent years. Most of his requests concern the U. S. Supreme Court, individual Justices who are deceased, or other persons affiliated with the Justices or the Court. He has requested files for all the deceased Justices since the 1920's. We are presently involved in two protracted litigations with Charns and he has published two news articles (copies enclosed). Charns has indicated that he is gathering this material in order to publish a book regarding the FBI's relationship with and attitudes towards members of the Supreme Court. We do not know the reason for his interest in the ABA.

The anticipated release of FBIHQ files on the ABA discloses a very close association with the FBI. The files consist mainly of correspondence between ABA officials and high level FBI officials, including former Director J. Edgar Hoover. The files also disclose attempts by the FBI to influence personnel decisions by the ABA.

We currently have a cordial relationship with the ABA. FBI employees attend seminars and meetings, become members of committees, and report the results of ABA gatherings to Director Sessions. This relationship with the ABA could be construed by Charns as the FBI having too much influence over ABA activities. Adverse media attention, concerning the FBI's influence, may cause embarrassment for the ABA.

# F.B.I. KEPT A FILE ON SUPREME COURT

## Some Conversations Involving Justices Were Monitored, Documents Disclose

Special to The New York Times

DURHAM, N.C., Aug. 20 — The Federal Bureau of Investigation kept a confidential file on the United States Supreme Court from 1932 until at least 1985, according to recently obtained F.B.I. documents.

The 2,076-page file, much of it compiled during the tenure of Director J. Edgar Hoover, contains everything from suspicions about possible Communist influences on the Court in the 1950's to the use of Court employees as F.B.I. sources. The file was obtained by a Durham lawyer and freelance journalist under the Freedom of Information Act.

Other F.B.I. documents, obtained by earlier freedom of information requests, show that the F.B.I. wiretapped or monitored conversations involving four men who served on the Court: Earl Warren, William O. Douglas, Abe Fortas and Potter Stewart.

It is not clear from the documents whether all the conversations occurred while the four were on the Court. Nor is it clear, in most instances, whether the F.B.I. listened to actual conversations of the four Justices, or conversations involving them.

### Stewart's Voice Is Heard

Justice Stewart, who served on the Court from 1959 to 1981, was heard in two monitored conversations. He was not the target of the wiretap, the bureau documents show. The dates of the conversations and the target of the investigations that occasioned the wiretaps were not revealed.

Ramsey Clark, who was Attorney General from 1967 to 1969 and as such officially in charge of the F.B.I., said he had not been aware of such a file on the Supreme Court.

Told of the file, whose existence was first reported last week in The Durham Morning Herald, Mr. Clark described the disclosure as worrisome "considering the history of the F.B.I. and its ideology." Mr. Clark said he did not recall ever being asked to authorize electronic surveillance of a Justice or being told of a wiretap involving a Justice.

Epstein said for the F.B.I. repeatedly declined to comment.

Kenneth O'Reilly, professor of history at the University of Alaska at Anchorage and author of "Hoover and the Un-Americans," said that wiretapping was so pervasive from the 1940's to the 1960's that "virtually everyone was overheard" who was important in Washington politics.

The documents, which include newspaper articles, clippings from The Congressional Record and internal F.B.I. memorandums, show the F.B.I.'s relations with, and changing attitude toward, the High Court from 1932 to 1985.

The earlier material includes references to personal favors, such as help with travel arrangements, that the bureau furnished for the Justices and their families. Much of the material after Mr. Hoover's death in 1972 includes references to security checks for prospective Court employees that the F.B.I. furnished at the Court's request.

In the late 1950's, the F.B.I. became increasingly concerned about what it believed were pro-Communist decisions by the Court. F.B.I. records previously released show that Justice Douglas's loyalty was questioned by Mr. Hoover and his top aides in that era because of his views involving the Constitutional rights of Communists.

### Rosenberg Case Is Mentioned

Also, according to the file, select Court employees served as F.B.I. sources of information during the Rosenberg atomic spy case in the early 1950's.

The chief of the Supreme Court police, Capt. Philip H. Crook, was described in a 1953 memorandum as having "furnished immediately all information heard by his men stationed throughout the Supreme Court building. He kept special agents advised of the arrival and departure of persons having important roles in this case."

An F.B.I. memorandum states that Harold B. Willey, then Clerk of the Supreme Court, made suggestions to F.B.I. agents as to the best places to be in order to "know at once what action individual judges, or the court as a whole, was taking. They also advised as soon as legally possible any action contemplated by the defense lawyers."

A few days after the execution of Julius and Ethel Rosenberg in 1953, an F.B.I. memo recommended that Mr. Willey, T. Perry Lippitt, the marshal of the Supreme Court, and Captain Crook be sent "a letter of appreciation by the director for their wholehearted cooperation in this case."

### Warren Not a Target

The bureau located seven classified references in its electronic indices to Earl Warren, who was Chief Justice from 1954 to 1969. The electronic surveillance indices are a collection of the names of people targeted by or overheard on F.B.I. wiretaps and monitors. Mr. Warren was not the target of the surveillance, the F.B.I. said.

There are two classified "references" from 1965 and 1967 to Mr. Fortas, who was an Associate Justice from 1965 to 1969, when he resigned amid controversy over his personal finances.

It has been reported previously that Justice Douglas, who served from 1939 to 1975, believed in 1969 and 1970 that listening devices had been planted in his chambers. He sometimes conducted conversations in the hall, say.

In 1969, Mr. Hoover discussed with President Richard M. Nixon what he

saw as the need for a more conservative Court. Mr. Hoover told the President that he would have the opportunity to appoint four justices. One vacancy, Mr. Hoover said, would be created by the departure of Justice Douglas. "Douglas, of course, is crazy and is not in too good health," a note in the F.B.I. file says.

# How the FBI Spied on the High Court

## Thirty Years of Snooping and Over 2,000 Pages of Private Files on the Justices

By Alexander Charns

**I**F WILLIAM O. Douglas had been appointed chief justice in 1946, what would the Supreme Court be like today? Since Douglas did not retire until 1975, Earl Warren would not have gotten the job in 1953 nor Warren Burger in 1969. The appointment of Douglas's successor in 1975 would have gone to President Gerald Ford—and the chief justice of the United States today might well be John Paul Stevens.

Why speculate about what might have been? Because once-secret government records disclose that warrantless FBI wiretaps that captured some of Douglas's conversations may have helped convince President Harry Truman to abandon his consideration of Douglas as chief justice and nominate his

friend Fred Vinson instead—thereby changing history.

Nor was Douglas the only Supreme Court justice inadvertently recorded on FBI wiretaps or bugs. From 1945 to 1975, at least 12 justices were overheard on at least 106 occasions—including Chief Justices Warren and Vinson and Associate Justices Douglas, Felix Frankfurter, Hugo Black, Stanley Reed, Robert Jackson, Frank Murphy, John Harlan, Potter Stewart, Harold Burton and Abe Fortas. Warren was overheard six times between 1961 and 1965, including one conversation on March 9, 1964, about a month after the Warren Commission started hearing testimony about the assassination of President Kennedy. Except for the transcripts involving Douglas, almost all wiretapped conversations remain secret—as do even the dates of the more recent ones.

The FBI's interest in the Supreme Court was especially vigorous under J. Edgar Hoover, who died in 1972. Evidence is con-

tained in a file of more than 2,000 pages entitled "Supreme Court." The bureau continued to maintain this file as recently as 1985, but there's no evidence that in recent years it contained much more than relatively mundane items—newspaper clippings and Congressional Record excerpts—that demonstrate the FBI's interest in pending cases, in training the court police and in other legitimate matters.

But some documents from the Hoover era are truly startling. They show, for example, that his FBI had three sources among high-level court employees during the Rosenberg atomic spy case in 1953, that it closely watched the political beliefs of justices and a "left-wing ring" of law clerks during the 1950s and that it performed favors for selected justices. There is also evidence that Hoover—in reaction to Warren Court decisions in 1956 and 1957—worked to place conservatives on the court. On a May 1958 Hoover wish list

WIRETAP, From C1

were Potter Stewart, who that October became President Eisenhower's next Supreme Court appointment, and Warren Burger, a federal appeals court judge who was Hoover's first choice and finally was named chief justice in 1969 by Richard Nixon.

The bulk of the Supreme Court file has been released to me in a Freedom of Information action, but other documents have been withheld or are classified. The file may be active to this day, but gaining access to it will require another FOI action. In addition, federal privacy laws generally protect records of living individuals against disclosure.

There's no evidence that the FBI ever directly tapped a justice. The justices were overheard during their conversations with other people, who were tapped. Still, there are some troubling questions. Why was the FBI keeping a political file on the court during the Hoover years? What business does it have recording conversations by or about justices and keeping the transcripts available?

What answers we have come largely from government records released through FOI actions in recent years to me and a handful of historians and reporters. As a law student in 1982, I became interested in David Garrow's research about FBI surveillance of Dr. Martin Luther King Jr. and decided to investigate whether the bureau had kept track of two other presumed Hoover enemies—Warren and Douglas. My FOI request produced hundreds of documents about them, but when I asked for the FBI file on the Supreme Court itself in 1984, I was told none existed. I later learned that FBI personnel had in fact located such documents in 1984; in the winter of 1988, I filed suit and in July 1988 the FBI released them to me. All told, I have received some 20,000 pages of records about the Supreme Court and the federal judiciary in response to six years of FOI requests and two FOI lawsuits.

But as disturbing as their disclosures are, they do not explain the who-what-when-where-why of the still-secret wiretaps, and the Justice Department and the FBI decline to elaborate. Some electronic surveillance records concerning Warren, Douglas, Fortas, Murphy, Jackson, Harlan and Burton, they say, "must be kept secret in the interest of national defense or foreign policy." In other instances, the government asserts, Jackson, Murphy, Harlan, Fortas and Burton were merely mentioned by others during conversations of wiretap targets, but it refuses to say why these mentions were kept on file or whether they concerned official court business. Two conversations in which Potter Stewart was a party were wiretapped, but the government contends that their release would violate the privacy of the justices. If his name was deleted, my effort to get the transcripts and additional records is continuing in court. In the meantime I can report only what I have learned so far.

The most detailed eavesdropping account available concerns those conversations of William O. Douglas overheard in the spring of 1946. The target was not Douglas but Thomas G. Corcoran, a member of President Franklin D. Roosevelt's brain trust who continued to exert wide-ranging political influence after Truman became president. Truman requested the taps on Corcoran, and Hoover obliged without getting the required attorney general's approval. Hoover kept the politically explosive summaries in his office but regularly sent copies to the White House, sometimes within a week, and occasionally excised conversations he didn't want the president to know about.

According to Athan Theoharis, professor of history at Marquette University and co-author with John Cox of "The Boss: J. Edgar Hoover and the Great American Inquisition," the Truman White House perceived Corcoran to be so powerful that he was said to be acting as de facto attorney general. The true head of the Justice Department, Attorney General Tom Clark, did not authorize the taps until five months after they were installed by the FBI and after Clark's own conversations with Corcoran had been recorded. Truman told Clark the taps were needed to ensure that Corcoran was not breaking the law or interfering with "the proper administration of government." Theoharis told me he believes that the White House was simply gathering political intelligence.

If so, it was a wish fulfilled. Among the luminaries picked up in the 1946 taps were Sens. Robert La Follette and Claude Pepper, Speaker Sam Rayburn, former New York mayor Fiorello La Guardia and Washington attorneys David Bazelon, Joseph Rauh Jr. and Paul Porter.

Douglas was a party in more than 50 Corcoran conversations monitored by the FBI between 1945 and 1948 and in at least nine other conversations between 1960 and 1975. In one 1945 conversation, Corcoran alluded to Douglas's presidential ambitions and said: "[I]f there is a Chief Justiceship, [Truman] ought to make Douglas the Chief in order to make Douglas a captive for political purposes.... [H]e would keep him out of the political arena."

On April 22, 1946, the day Chief Justice Harlan Stone died, an FBI summary records that at 7:55 p.m. Douglas phoned Corcoran to tell him about Stone's death.

TC: Oh Lord, does the world know that?

WD: You're the first one.... I just got a flash from his house. His secretary just called me.... Cerebral hemorrhage. He passed out on the bench at 2 o'clock and we carried him out....

TC: Well, the lightning is striking, isn't it?

WD: Another great risk has taken place.

TC: Can I see you in the morning?

WD: Yes, I'll be there.

The wiretaps were a peeking up conversations about the chief justice vacancy, giving Truman and Hoover unprecedented access to the behind-the-scenes discussions among members of the court and influential

New Dealers. Initially, the battle for the post was between Justices Jackson, Douglas and Black. But virulent feuding between Jackson and Black became public and Truman clearly could not elevate either without damage to the court. According to Corcoran, Black then began lobbying Douglas, with support from Corcoran and Justice Reed—though Corcoran told Douglas that he could not publicly support Douglas because that would be the "kiss death." Frankfurter, meanwhile, was exerting his political muscle on behalf of Jackson.

During the month and a half between Chief Justice Stone's death and Truman's nomination of Vinson to succeed him, Douglas was a party in 10 FBI-wiretapped conversations and was discussed in another 1. In one call to Douglas at his Supreme Court chambers, Corcoran tapped the phone receiver with his pencil and said: "I'm doing my own tapping now." Douglas and Corcoran both laughed. Later, Corcoran commented to a number of his callers that he was "awfully afraid of this wire," referring to his phone.

Wiretap summaries on May 4, 1946, reported that newspaper columnist Drew Pearson called Corcoran and told him that Douglas had been in the lead to become chief justice but that Frankfurter had started lobbying against him. Corcoran said Truman had been decided on Jackson until the left-wing of the court objected. The next chief justice, he said, would be someone outside the court, possibly Secretary of the Treasury Fred Vinson or Secretary of State James Byrnes.

"Is it lost for Bill?" Pearson asked. Apparently it was. On June 6, 1946, Truman appointed Fred Vinson chief justice of the United States.

The wiretap summaries, among other things, may have turned Truman against Douglas. Later, Truman referred to Douglas as a "professional liberal" and wrote in his memoirs that "[Douglas] belongs to that crowd of Tommy Corcoran, Harold Ickes, Claude Pepper—crackpots whose word is worth less than Jimmy Roosevelt's." It may be no coincidence that all of these men were overheard in the Corcoran wiretaps.

Hoover continued to have important intelligence, apparently from FBI electronic eavesdropping, about court-related politics. In 1948 Hoover learned that someone high in the Democratic Party had mentioned Hoover as Douglas's running-mate if Douglas decided to challenge Truman for the presidential nomination and that Abe Fortas and other Douglas advisers were cool or openly opposed to the idea because such a ticket would smack of a police state. The memo to Hoover was marked "Do Not File," meaning that it was not to be placed in regular FBI files. For obvious reasons, this information was not passed on to the Truman White House.

The idea of a Douglas-Hoover ticket sounds bizarre today, but the two men remained on good personal terms from the 1930s to the late 1940s. From the FBI questioned Douglas's loyalty and kept a close eye on his contacts in the 1950s and the civil-rights, counter-culture and Vietnam years.

(Earl Warren, too, had a fascinating po-

political alliance with Hoover prior to his nominations as chief justice—one that included a secret FBI program titled "Cooperation With Governor Earl Warren." But Warren, like Douglas, had a falling out with Hoover after he became chief justice.)

Douglas suspected for years that he was being tapped. According to Dagmar Hamilton, who in 1969 was editing a volume of Douglas' autobiography, the justice told her his chambers were bugged and insisted that they walk outside the court building before discussing his book. During the height of the 1973 Senate Watergate hearings, he proclaimed in one dissenting opinion that he was "morally certain that the Conference Room of the Supreme Court has been bugged."

While visiting on the West Coast in 1973, Douglas temporarily reinstated a lower-court ruling that the bombing in Cambodia was unconstitutional and dictated his ruling to employees at the Supreme Court from a pay phone. Douglas believed that his dictation was overheard, possibly by an FBI agent posing as a telephone operator, and hired former justice Fortas to investigate. The FBI assured Fortas that the pay phone had not been tapped and that the long-distance operator who handled the call worked for the phone company. It did not check phones at the Supreme Court building.

Four of Hoover's nominal bosses in the 1950s, '60s and '70s denied knowledge of any such bugging, and it may never have happened. Former attorneys general William Rogers (1957-1961), Nicholas Katzenbach (1965-66), Ramsey Clark (1967-69) and Richard Kleindienst (1972-73) told me they neither authorized nor were told of any electronic surveillances of the justices. Clark, whose father as Truman's attorney general finally authorized the tap on Corcoran, speculated that the surveillances might have been directed at foreign embassies. Katzenbach said flatly that the FBI had no business taking notes about conversations involving Supreme Court justices.

Little of this history has emerged until recently. In 1976, the Senate Select Committee on Intelligence did report that Frankfurter was a party on a few occasions in a wiretap installed in 1945 and that in 1970's "currently sitting" justice was a party in one of "17" wiretaps directed at government officials and reporters. The report also said that an unidentified former aide to FDR was tapped from 1945 to 1948. The summaries of the taps we now know targeted Corcoran were made public by the Truman Presidential Library in 1982, but their connection with Justice Douglas was not generally recognized until this year.

Aside from the justices' overheard words, the FBI had other sources of information about the court. According to FBI records, the clerk of court, its marshal and its police chief served as FBI sources of information during the Julius and Ethel Rosenberg atomic espionage case pending before the court in 1953. Police Capt. Philip H. Crook was described as having "furnished immediately all information heard by him while stationed throughout the Supreme Court building." The top Secret Service official of the arrival and departure of persons having important roles in this case. A few days after the execution of the Rosenbergs, an FBI

memo recommended that Hoover send Crook, court clerk Harold B. Willey and court marshal T. Perry Lippitt a "letter of appreciation" for their wholehearted cooperation.

In May 1957, the FBI received an allegation it took seriously about a "ring of left-wing law clerks." The FBI checked its files for subversive references on law clerks of both the Supreme Court and the U.S. Court of Appeals for the District of Columbia. U.S. District Court Federal Judge John H. Druffel of Cincinnati passed along information on at least one law clerk. Later that year, a man said by the FBI to be psychotic alleged that the father of one of the Supreme Court law clerks was a communist. Though the FBI memo said the accusations should be disregarded, the Washington field office was ordered to "discreetly ascertain identities of newly appointed law clerks" to one of the justices—possibly William Brennan.

The FBI not only kept track of Douglas and his political statements and nonjudicial writings, but it looked out for its judicial friends as well. In 1955 the FBI's Boston office received a complaint from U.S. District Court Judge William T. McCarthy of Boston about the "insidious influence that has been exercised by Justice Felix Frankfurter in our government for many years." Hoover was informed that "Judge McCarthy, who has been a vigorous and outspoken opponent of Frankfurter and Communism, has been a long time friend of the Bureau." Other documents contain similar references to Douglas, Reed, Warren and Fortas as subversives.

Under Hoover, agents also assisted vacationing justices, made hotel reservations, offered chauffeur services, served as a private-detective agency, took family pictures, arranged special FBI tours and provided other perks to select justices and their families. In 1958, when Justice Burton returned from a European vacation, an FBI driver was made available. During the drive, Burton talked in very general terms about the pending Little Rock desegregation case. The agent reported this discussion to his superiors.

More recently—in 1985—a memo described FBI assistance in expediting delivery of Oriental rugs that Chief Justice Burger ordered from London for use at the court.

The story of the courts and the FBI isn't over. My original lawsuit is still pending in U.S. District Court in Greensboro, N.C., and seeks all other FBI records about the Supreme Court as a body and the wiretap records of the two conversation to which Potter Stewart was a party. I filed a second lawsuit this year asking for, among other things, any electronic surveillance records about 34 former justices and a 5,600-page subject file called "Federal Judges" that extends from the 1930s to the present day.

Research for this article was supported by the Durham Institute for Southern Studies, the J. R. Lick McArthur Foundation, The Fund for Investigative Journalism and the Dick Caldwell Fund. Assistance was also provided by attorney Paul M. Green. Some of this material originally appeared in the Durham Morning Herald.

Memorandum from J. Kevin O'Brien to Mr. Christensen  
RE: FREEDOM OF INFORMATION ACT (FOIA)  
REQUEST OF MARTIN ANDERSEN FOR  
RECORDS ON JUAN DOMINGO PERON, DECEASED

Pursuant to Mr. Andersen's request, a search revealed one Headquarters and ten Legat Buenos Aires main files ranging from December, 1943 to August, 1974. These files briefly address Argentine collaboration with German agents in espionage activities and Juan Peron's political aspirations, his exile, events leading up to his return to power and eventual demise. The majority of material originated with other government agencies and has been referred to them for direct response to Mr. Andersen.

The documents being released are a compilation of information relevant to the military and political career of Peron. Deletions were made to protect the personal privacy rights of other individuals mentioned, to protect the identity of confidential sources and the information furnished by those sources. Redactions were also made to protect classified national security information.

Due to the nature of the files, the amount of information being withheld and Peron's notoriety, Mr. Andersen may publicly take issue with the existence, contents and/or processing of the records.

MEMORANDUM FROM J. K. O'BRIEN TO MR. CHRISTENSEN  
Re: FREEDOM OF INFORMATION ACT (FOIA) RELEASE  
TO JOURNALIST TRACY FREEDMAN REGARDING  
FORMER PRESIDENT RONALD WILSON REAGAN

Two files from LAO correspond to files from FBIHQ which were previously released to MS. FREEDMAN. The only additional material now being released from these files is summaries of cross-references appearing in LAO at the time of the investigations and search slips contained in the files. The five remaining LAO files in the proposed release consist of one file pertaining to a threat against MR. REAGAN and four files pertaining to investigations of proposed demonstrations during functions at which MR. REAGAN was to attend. MR. REAGAN'S name appears in the captions of these files; however, there is only minimal information pertaining directly to him in the files. The majority of the information in these files concerns third parties and was withheld.

The FBIHQ cross-references consist of 61 documents from a variety of files. Only those portions of the documents which pertain to MR. REAGAN were processed for release. There is no derogatory information about MR. REAGAN in these documents. The material being released includes threats and demonstrations against him or other public figures, newspaper articles, contacts between the FBI and MR. REAGAN as Governor or other California representatives, and brief mentions of him as Governor of California. The majority of the information in these documents was also withheld as the information pertains to third parties.

MS. FREEMAN also requested and is receiving the search slips used to process the proposed release.

Deletions were made in the material proposed for release to protect information which is properly classified by Executive Order in the interest of national security; internal administrative policy; the identity of, and information from, all confidential sources; the privacy of third parties, and the identity of FBI employees.

Material being released consists of information provided by Rochon (signed statements, FD-302s, memoranda and EEO complaints) and administrative data regarding the progress and direction of the civil rights investigation and OPR matters. Redactions were made to protect a pending investigation regarding a terrorist matter; classified material; names, statements of and information concerning other individuals; and identities and information provided by confidential sources.

Enclosures (28)

The enclosed civil rights investigative file consists of five main sections and 18 enclosures behind file, commonly referred to as EBFs. The document describing the contents of the EBF is referred to as a cover letter and is located in one of the main sections of the file. A copy of the cover letter is also filed with the EBF. For example, in section 2, serial 54, a stamp "ENCL BEHIND FILE" appears on the lower left-hand side of the document to indicate that there is an EBF for that serial.

Prior to the Freedom of Information-Privacy Acts Section receipt of this file for processing, all of the Federal Grand Jury material ordered sealed by United States Judge John D. Grady, Northern District of Illinois (88-GJ138), on March 23, 1988, was removed. In those instances where an entire document was removed, a page had been inserted to identify its previous location within the file (see section 1, serial 12). In those instances where only a portion of a document was redacted, the notation "Rule 6(e) FRCP" was placed beside the excised material (see section 1, serial 12X5, page 2). A form indicating that Federal Grand Jury material was removed from the file had also been placed on the top of each section of the file.

Approximately 200 additional pages from the civil rights investigation are currently being reviewed by the Department of Justice to identify any additional Federal Grand Jury material to be sealed. We will correspond further with you when these records become available.

Presidential liaison to the committee. The recommendations never  
became operational.

In response to Prof. Kutler's request for documents on

# Anti-Defamation League Sued; Rights Violations Alleged in Spying

By Lyane Duke  
Washington Post Staff Writer

Fifteen civil rights groups and seven individuals filed a federal lawsuit yesterday against the Anti-Defamation League (ADL) of B'nai B'rith, claiming the Jewish group violated their civil and privacy rights by spying on their activities.

The lawsuit, based in large part on facts that have emerged in a criminal probe of the ADL in San Francisco, not only pits Arab-American groups against the ADL, but several other civil rights groups representing African Americans, Latinos and Jews, as well as various social causes such as the anti-apartheid movement and those opposed to police abuse.

"This is no personal lawsuit. An organization that has done important civil rights work is being charged with violating civil

rights," Albert Mokhiber, president of the American-Arab Anti-Discrimination Committee (ADC), which is the lead plaintiff in the case, said at a news conference.

The lawsuit, filed in U.S. District Court in San Francisco, alleges that the ADL raided the trash of the people on whom it spied, infiltrated meetings and even obtained from the police confidential law enforcement information," Mokhiber said.

Named in the suit is the ADL; its national "fact-finding" director, Irene Sault; Roy Bullock, a freelance ADL "hot finder" for 25 years, and Tom Gerard, a former San Francisco police inspector who has been charged with giving confidential police information to Bullock. The counties of San Francisco, Los Angeles and San Diego also are named because of allegations that law enforcement officials in those counties pro-

vided confidential information to the ADL. Allegations in the separate criminal investigation are to be presented to a grand jury in San Francisco Nov. 3 in a case in

*The lawsuit is based largely on facts that emerged from a San Francisco probe.*

which prosecutors plan to allege that ADL officials conspired to obtain legally confidential police material on individual political activists, which is a felony in California.

The case took shape earlier this year

when authorities investigating police abuse discovered that Gerard and Bullock kept files on hundreds of groups and individuals across the political spectrum. Those files, plus files taken in searches of the ADL's two California offices, showed the group's attentions had spread far beyond the hate groups, such as the Ku Klux Klan, that were its traditional targets. Instead, the ADL appears to have become concerned about groups of all stripes that did not share its views on Palestine and Israel.

The files were suspicious because many contained legally confidential information, according to court papers. The plaintiffs in yesterday's suit are among the groups and individuals on whom either Gerard, Bullock or the ADL gathered information.

ADL officials have denied the allegations. In a statement yesterday, the group said,

"The Anti-Defamation League regards the suit as without merit. The ADL conducts its fact finding seriously, professionally and lawfully. The conspiracy theories outlined in the complaint are completely false and serve only to highlight the plaintiffs' political agenda."

In past interviews on the subject, ADL officials have suggested that those who accuse their organization of unlawful or intrusive "fact finding" are motivated by antisemitism. "The National Lawyers Guild and the other plaintiffs are biased" for such accusations, said John Brittain, the immediate past president of the National Lawyers Guild, which also is a plaintiff in the suit.

"We are not here to put the ADL out of business," Mokhiber said. "We are here to put the ADL back into the business of protecting civil rights, not violating them."

RE: FREEDOM OF INFORMATION ACT (FOIA) RELEASE OF DOCUMENTS

Investigation of Criminal Justice, and the ABA Delaware Chapter. Pursuant to our telephonic contact with the requester on March 28, 1990, and his letter to us dated February 20, 1991, he amended his request to include all records on the ABA except public source material. An interim release of ABA files was made to Mr. Charns on August 25, 1992.

Alexander Charns is a North Carolina attorney affiliated with the American Civil Liberties Union and has made approximately 300 FOIA requests to the FBI in recent years. Most of his requests concern the U.S. Supreme Court, individual Justices who are deceased, or other persons affiliated with the Justices or the Court. He has requested files for all the deceased Justices since the 1920's. We are presently involved in two protracted litigations with Charns. Charns has indicated that he is gathering this material in order to publish a book regarding the FBI's relationship with and attitudes towards members of the Supreme Court. We do not know the reason for his interest in the ABA.

The anticipated release of FBIHQ files on the ABA discloses a very close association with the FBI. The files consist mainly of correspondence between ABA officials, including then ABA President and later Supreme Court Justice Lewis Powell, and high level FBI officials, including former Director J. Edgar Hoover. Additionally, the files contain documentation of attempts by the FBI to influence personnel and committee decisions of the ABA.

We currently have a cordial relationship with the ABA. FBI employees attend seminars and meetings, become members of committees, and report the results of ABA gatherings to the FBI Director. This relationship with the ABA could be construed by Charns as the FBI having too much influence over ABA activities. Adverse media attention concerning the FBI's influence may cause embarrassment for the ABA.

Memorandum from J. Kevin O'Brien to Mr. Baugh  
RE: FREEDOM OF INFORMATION ACT (FOIA) REQUESTS OF DAVID L.  
SOBEL AND DAVID A. BANISAR ON BEHALF OF COMPUTER  
PROFESSIONALS FOR SOCIAL RESPONSIBILITY (CPSR) FOR  
RECORDS CONCERNING THE FBI'S DECISION TO SUBMIT A  
DIGITAL TELEPHONY LEGISLATIVE PROPOSAL TO CONGRESS

On 3/12/93, the court ordered that all three requests be handled jointly and that the processing of responsive documents be completed no later than 11/1/93.

The documents responsive to these requests are found in a seven-section administrative file. Only 70 pages from this file were determined to be responsive to these requests. All 70 pages are being released with minimal deletions to protect personal privacy and a sensitive file number. The information being released consists of memoranda that relate to FBI meetings concerning the legislative proposal, newsclippings and other public source material on digital telephony, and letters to editors of various newspapers and magazines setting forth the FBI position on the need for access to the digital communication networks.

Also being released are a GAO report (26 pages) on the digital telephony legislative proposal and two briefing books (75 pages) prepared for the Director's use during Congressional testimony on the legislative proposal. It is noted that copies of the briefing books were widely distributed outside of the Justice Department (DOJ) and the FBI. No deletions have been made from these documents.

During the processing of this request, documents were referred to the FBI from the Department of Defense (DOD), National Security Agency (NSA), and the Office of Information and Privacy (OIP), DOJ, for our review and direct response to the requesters. The documents from DOD and NSA are duplicative of the digital telephony briefing books that are being released by the FBI. Documents from OIP pertinent to this request have been processed and will be released with the FBI material. Included in the material referred from OIP was a draft of testimony that former Director Sessions had prepared to present to Congress. This draft is being withheld since it had not been approved and the Director did not testify.

This release was coordinated with the Advanced Telephony Unit, TSD, the Office of Congressional and Public Affairs.

Subject : FREEDOM OF INFORMATION-PRIVACY ACTS (FOIPA) SECTION  
RELEASE OF RECORDS PERTAINING TO MENACHEM BEGIN

PURPOSE: To advise of the anticipated release on October 29, 1993, of the FBI Headquarters (FBIHQ) records pertaining to IRGUN, an organization headed by Menachem Begin.

RECOMMENDATION: None. For information only.

DETAILS: Dr. Robert Rockaway, on May 24, 1990, submitted an FOIPA request to the FBIHQ for records pertaining to IRGUN (Irgun Zvai Leumi), an underground Jewish terrorist organization, during the time period of 1946-1949. A search of the indices at FBIHQ located one main file and numerous "cross references" responsive to his request. However, in accordance with current Section policy, "cross references" to the IRGUN group have not been reviewed at this time to determine if they are identifiable.

MEMORANDUM FROM J. KEVIN O'BRIEN TO MR. BAUGH  
RE: FREEDOM OF INFORMATION-PRIVACY ACTS (FOIPA) SECTION  
RELEASE OF RECORDS PERTAINING TO MENACHEM BEGIN

Responsive material consists of one main file totalling 802 pages, of which 196 pages are being proposed for release. This case, captioned Irgun Zvai Leumi (IRGUN), was opened in 1946 as an Internal Security Case, a 105 classification, investigating Jewish extremist groups that intended to conduct a personal vilification campaign against all British Government officials in the United States. The investigation was later expanded to include the recruitment activities of IRGUN for duty in Palestine. In 1948, the character of the case was changed to add violations of the Voorhis Act and Foreign Agents Registration Act. During the course of the investigation, Menachem Begin was identified as the leader of the Irgun Zvai Leumi organization from 1942 until it was disbanded in 1948. He is also captioned as one of the subjects of this file.

Proposed material for release regarding Menachem Begin, who died on March 9, 1992, pertains mainly to his visit to the United States for the purpose of securing support and correction of misunderstandings for the newly formed political party, Tenuat Hacherut. The Department of State and the FBI gave careful consideration to the visa application of Menachem Begin to enter the United States. It was finally decided to admit him in view of the fact that he headed a political party which might some day come into power in Israel.

Deletions have been made to protect classified material kept secret in the interest of national defense or foreign policy; internal rules and practices of an agency, such as symbol source numbers; personal privacy of third parties; information provided by a confidential source; and disclosure of techniques used for law enforcement investigations, such as mail covers.

Dr. Rockaway, a professor in the Department of Jewish History, Tel-Aviv University, is doing research on "American Jewish gangsters". Among his many requests are people such as Peter Bergson, Ben Hecht and Moe Sidwartz for the book he is writing.

MEMORANDUM FROM J. KEVIN O'BRIEN TO MR. BAUGH  
RE: FREEDOM OF INFORMATION ACT (FOIA) RELEASE OF  
DOCUMENTS PERTAINING TO THE ANTI-DEFAMATION  
LEAGUE (ADL) OF B'NAI B'RITH TO SCOTT THOMPSON

captioned "Anti-Defamation League; Information Concerning  
(Internal Security)" and individual case files on deceased  
officials of the ADL.

Mr. Thompson is a journalist for the Executive  
Intelligence Review who is currently in litigation with the FBI  
regarding certain field office records regarding the ADL (Scott  
Thompson v. U. S. Department of Justice; U.S.D.C. for the  
District of Columbia; Civil Action No. 93-1219).

The current interim release of material consists of  
three volumes of the FBIHQ Internal Security file and the  
corresponding field files for the Cincinnati, Dallas, Los  
Angeles, Newark, Philadelphia, and Washington Metropolitan Field  
Offices. This material clearly documents both the liaison  
between FBIHQ and ADL Headquarters and the local liaison between  
FBI field offices and regional offices of the ADL, which each  
field office was required to establish upon the instructions of  
former Director Hoover.

This memorandum is being submitted to advise of the  
release of this material to Mr. Thompson inasmuch as the apparent  
liaison between the ADL and local law enforcement agencies in  
California has recently been the subject of news articles in the  
national media (see attached).

originally denied in order to protect the sources of the information has been reexamined in light of the United States Supreme Court's decision in United States Department of Justice v. Landano, 113 S. Ct. 2014 (1993), and in response to Putnam's ongoing complaint filed with the United States District Court for the District of Columbia wherein he alleges that the FBI improperly withheld information. The proposed supplemental release is from the kidnapping investigation which resulted in Putnam's conviction and consists of 153 pages as well as 23 cover pages provided to assist in identifying the reprocessed documents. Information now being released was provided, for example, by car rental agencies, hotels, realtors and interviews with individuals providing nonsubstantive information. Following the Landano standard, we are unable to make an adequate showing that these particular sources provided information with an expectation of confidentiality. However, information continues to be denied in these documents to protect the privacy interest of third parties, information relating solely to the internal practices of the FBI, names of FBI employees, as well as some source information where confidentiality could be inferred.

Deletions were made to protect the identities and identifying data of INS non-supervisory personnel and FBI employees. Memorandum from J. Kevin O'Brien to William E. Baugh, Jr.  
RE: FREEDOM OF INFORMATION ACT (FOIA)  
REQUESTS OF SETH P. TILLMAN AND  
RANDALL B. WOODS FOR INFORMATION  
PERTAINING TO FORMER ARKANSAS SENATOR  
JAMES WILLIAM FULBRIGHT

DETAILS: Professors Tillman and Woods made individual FOIA requests for records on former Senator J. W. Fulbright. Authorizations to release information have been received from Fulbright. A release of 1,024 pages will be provided to Professor Tillman. Professor Woods will receive 1,092 pages which include 68 pages of public source material previously released to Professor Tillman.

FBI Headquarters records on James William Fulbright consist of nine files in which he was the victim of extortion attempts, two files in which he was the target of alleged threats to assault/assassinate and a liaison type file. Additionally, there are 14 pages of previously released material concerning him appearing in the "Hoover Official and Confidential" files. The former Senator was never the subject of an investigation by the FBI.

Deletions were made to protect the personal privacy rights of individuals mentioned or investigated, to protect the identity of confidential sources and information furnished by those sources. Redactions were also made to protect classified national security information.

Included in the liaison file is a memorandum which shows that James William Fulbright was arrested in New Jersey on September 15, 1931, for manslaughter. Additional research has determined that he struck and killed a pedestrian; however, a Grand Jury failed to return a true bill and the case was closed. This information was reported to the White House in 1975, in connection with a name check for a Presidential appointment.

In addition, former Senator Fulbright was placed on the "Do Not Contact Without Authorization" list by former Director Hoover following public statements made by him in March, 1954. He is described in the liaison file as unfriendly, abrupt, sarcastic and having an antagonistic attitude.

Memorandum from J. Kevin O'Brien, to Mr. William E. Baugh, Jr.  
Re: Freedom of Information Act (FOIA)  
Request of Ms. Dianna Hunt, Houston  
Chronicle, For Records Pertaining To The Late  
Congressman Mickey Leland

December 15, 1989, Houston referred this request to FBI  
Headquarters (FBIHQ) for processing.

By letter dated July 1, 1991, 42 pages of material from  
FBIHQ files was released to Ms. Hunt. Prior to the release, the  
Press Office was advised and no further action was requested.

Presently available for release are 70 pages of Houston  
Office's investigation into charges of possible bribery and  
conflict of interest by Congressman Leland. This investigation  
was opened in August, 1987, based on information received from a  
confidential source alleging that Congressman Leland accepted  
bribes on behalf of American Discount Stamps, LTD (ADS).

ADS was interested in selling U.S. Postage Stamps  
containing advertisements; however, this was against U.S. Postal  
Service regulations. As the Chairman of the House Postal  
Operations Subcommittee, Congressman Leland would get ADS's stamp  
approved for use in the U.S. Mail. The investigation was closed  
in December 1987, based on the Assistant United States Attorney's  
opinion that the allegation was without merit.

Material protected from disclosure consists of symbol  
source numbers, information regarding details of a possible  
undercover operation, the identities and identifying data of  
third parties, confidential sources and information furnished by  
confidential sources.

Additional material regarding Congressman Leland is  
presently undergoing a classification review and is not available  
for release at this time. On completion of this review, all  
information subject to disclosure will be released. Absent any  
unforeseen circumstances, notification of the release of that  
material will be made directly to the Press Office.

Re: FREEDOM OF INFORMATION ACT (FOIA) RELEASE TO  
S. A. PAOLANTONIO OF THE PHILADELPHIA INQUIRER;  
WALTER F. ROCHE, JR. OF THE PHILADELPHIA INQUIRER  
AND JOSEPH SERWACH OF THE PATRIOT OF HARRISBURG, PA;  
CONCERNING FORMER PHILADELPHIA MAYOR  
FRANK LAZZARO RIZZO

A search of our central records system revealed 12 responsive main files which consist of 782 pages. These files are captioned "Obstruction of Criminal Investigation (OCI)"; "Extortion"; "Miscellaneous Information-Concerning"; "Laboratory Case"; "Racketeering Influence and Corrupt Organization (RICO)" and "Civil Rights".

The "OCI" file pertains to Mayor Rizzo's son who was arrested in Miami, Florida, on a drug charge and allegations that Mayor Rizzo used his influence to have the arrest dismissed.

Mayor Rizzo and several other public officials were the victims in an extortion investigation following receipt of a threat letter by major newspapers in several states.

There are two "Miscellaneous-Information Concerning" files. One pertains to a threat to shoot Rizzo when he was Philadelphia's police commissioner. The other is a general correspondence file consisting of congratulatory letters to Rizzo from Directors Hoover and Gray; letters from Rizzo trying to schedule a meeting with the Director; a letter from a newspaper photographer requesting permission to take pictures of Hoover and Rizzo together; and some newspaper articles.

The "Laboratory" file pertains to a threat letter to Mayor Rizzo and his wife. The letter was sent to FBIHQ by Philadelphia police to be analyzed.

There are three RICO files. The first pertains to alleged kickbacks from Philadelphia International Airport contracts wherein several politicians in Philadelphia received cash payments. The second pertains to allegations that local public officials as well as Mayor Rizzo were receiving kickbacks in return for special favors. No evidence was uncovered of any use or misuse by Rizzo of his position for personal gain. The last file relates to allegations from a source that he witnessed and had evidence of payoffs to Mayor Rizzo from other third parties. Source did not provide the evidence and the case was never prosecuted.

Re: FREEDOM OF INFORMATION ACT (FOIA) RELEASE TO

WALTER F. ROCHE, JR. OF THE PHILADELPHIA INQUIRER  
AND JOSEPH SERWACH OF THE PATRIOT OF HARRISBURG, PA;  
CONCERNING FORMER PHILADELPHIA MAYOR  
FRANK LAZZARO RIZZO

There are four "Civil Rights" files. The first pertains to a suit that was filed against Police Captain Rizzo and the Philadelphia Police Department following a controversial raid on a Philadelphia coffee shop. The second file pertains to a 1961 riot at Eastern State Penitentiary in Philadelphia. The Philadelphia Police Department was called in to help regain control of the prison; at that time Rizzo was Inspector of the Philadelphia Police Department. The third file pertains to a harassment complaint filed against the Philadelphia Police Department when Rizzo was the Deputy Commissioner. The last file pertains to a complaint filed against Mayor Frank Rizzo concerning alleged police abuses and discrimination on the basis of race.

Pursuant to the FOIA, deletions were made to protect the personal privacy of Bureau employees and third parties mentioned and to protect the identities of and information from confidential sources. Of the 782 pages processed, 275 pages are being released.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA)  
Request of William P. Barrett for  
Records Concerning Charles Cummings Collingwood

Mr. Collingwood. Apparently during a radio broadcast in June of 1949 Mr. Collingwood was critical of the FBI.

Bureau file 124-7533 concerns Mr. Collingwood's investigation under the European Recovery Act when he was appointed the Special Information Assistant to W. Averill Harriman, the Mutual Security Administrator. Information contained in this file indicates an attempt to "block" Mr. Collingwood's appointment by the Assistant Director of Security (Leight Barber). Allegations that Mr. Collingwood gambled frequently while employed by CBS are also contained in this file. In addition, further information concerning the alleged affair involving Mr. Collingwood indicates it received a great deal of adverse publicity in 1946.

This FOIA request may result in publicity due to the status of Mr. Collingwood and the fact that a previous request of Mr. Barrett has been the subject of publication.

Subject : REQUEST OF BERNARD FENSTERWALD  
TO BORROW THE JOHN F. KENNEDY (JFK) SPECIAL INDEX

PURPOSE: To advise that, by letter dated 12/15/86, Bernard Fensterwald, President of the Assassination Archives and Research Center, requested to borrow the Freedom of Information-Privacy Acts (FOIPA) Section's Reading Room copy of index pertaining to the JFK assassination for the purpose of including it into the Research Center's "JFK data base."

RECOMMENDATION: That Disclosure Unit D, Team D-1 coordinate the dissemination of the Reading Room copy of the JFK index to Mr. Fensterwald.

b6  
b7C

DETAILS: By letter dated 12/15/86, Washington attorney Bernard Fensterwald requested the use of the FOIPA Section's Reading Room copy of the Dallas Special Indices to the JFK assassination. The stated purpose of Mr. Fensterwald's request, is to place the information from this index on computer so as to meld it into the "JFK data base" of the Assassination Archives and Research Center which he heads up. This data base contains indices to the Warren Commission Report, the House Select Committee on Assassinations (HSCA) Report and various books and newspaper articles concerning the assassination. He also advised the FOIPA Section would be provided a copy of the completed index on floppy disk as well as a printout at no cost.

Memorandum from [ ] to Mr. Moschella  
Re: Request of Bernard Fensterwald  
To Borrow The John F. Kennedy (JFK) Special Index

b6  
b7C

Obtaining the computerized index from Mr. Fensterwald, would be extremely beneficial to the FOIPA Section since its availability would:

- a. Eliminate checking three separate indices in handling the forthcoming Department of Justice appeal regarding the Headquarters release of the assassination.
- b. Expedite the processing of all future requests for JFK assassination material, which would be of a general benefit to any future requesters and/or historians.
- c. Save numerous man-hours and money for the Records Management Division (RMD) since the FBI would be preempted from this administrative task.

In addition, Mr. Fensterwald advised he would file a formal Freedom of Information request for a copy of the index and a fee waiver if it became necessary. Should he make a formal request, and file a lawsuit, it would result in considerable time and money expended by RMD and Legal Counsel Division in defending such a suit. Also, since Mr. Fensterwald's stated intention is to provide anyone with a free copy of the computerized index, given the current state of the case law, it is possible that he would prevail in such a lawsuit. Therefore, by acceding to his request, the government would be relieved of these additional time and cost burdens.

Should this request be granted, approximately six of the 121 total sections of the Reading Room copy would be furnished to Mr. Fensterwald at a time, and upon their return they would be parceled out to Team D-1 MDE's for checking against the available "brown-out" copy which is repositied on Team D-1. This task would take approximately fifteen minutes per MDE to check. In the interval, the "brown-out" copies would be available to make an additional black out should this unlikely necessity occur.

It is not anticipated that the above procedure will create an undesirable precedent for the FOIPA Section, since the JFK assassination files can be distinguished in their historical precedence to any other of the FBI's files.

Memorandum from [ ] to Mr. Moschella  
Re: Request of Bernard Fensterwald  
To Borrow The John F. Kennedy (JFK) Special Index

b6  
b7C

It is recommended that Mr. Fensterwald's request be approved since it would on balance improve the administrative capabilities of the FBI in handling this matter at considerable cost savings with little down side risk.

REQUEST OF WILLIAM P. BARRETT FOR  
RECORDS CONCERNING CHARLES CUMMINGS COLLINGWOOD

PURPOSE: To advise of a proposed release of documents concerning the former Columbia Broadcasting System (CBS) News commentator, Charles Cummings Collingwood, now deceased, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Mr. William P. Barrett, a free lance journalist, submitted an FOIA request for records concerning Charles C. Collingwood.

Mr. Collingwood is the subject of two Bureau main files (100-362228 and 124-7533).

Bureau file 100-36228 pertains to a security investigation of Mr. Collingwood beginning in May of 1949 when he was the CBS radio correspondent attached to the White House. This limited investigation which ended in July of 1949 revealed that he had taken part in the activities of Communist fronts in Los Angeles and had associated with known Communist Party members. This file reveals Mr. Collingwood's alleged affair with a married woman. It also contains a handwritten notation by J. Edgar Hoover regarding

For Records Concerning the Pratt and Whitney  
Aircraft Fraud Against the Government Investigation

was conducted by a task force comprised of FBI, Defense Criminal Investigative Service, DOD Office of Inspector General, U.S. Air Force Office of Special Investigations and Defense Contract Audit Agency personnel. This task force completed its investigation in the summer of 1984, and presented the results to the United States Attorneys Office for the Southern District of Florida for a prosecutive opinion.

On 2/19/85, the FBI case agent was subpoenaed to appear before the House Subcommittee on Oversight and Intelligence for the Committee on Commerce and Industry to provide testimony concerning the investigation and lack of prosecutive action of this matter. Thereafter, the United States Attorney (USA), Southern District of Florida requested further investigation to completely resolve the allegations surrounding PW.

In July, 1986, the USA for the Southern District of Florida declined prosecution in this matter.

Included in this file is a memorandum dated 2/10/83, from Director Webster to Mr. Revell wherein the Director advised that while at a dinner party given by the Business Council (whose membership includes the chief executive officers of major corporations of America) mention was made to him of the then pending PW investigation. (Copy attached. Highlighted portions to be withheld based on privacy concerns).

This FOIA request may result in publicity due to the high media attention that was given to the Congressional hearing, the recent public awareness concerning the practices of military contracts, and the fact that no prosecution against PW was undertaken.

MEMORANDUM TO MR. REVELL

Last night, I attended a dinner given by the Business Council whose membership includes the Chief Executive Officers of the major corporations of America. I was introduced to [redacted]

In the course of very general and positive conversation about the work and performance of the Bureau with [redacted] and others in the conversation, [redacted] said that he knew how to save us some work. He then mentioned that an employee of Pratt and Whitney (apparently a subsidiary) had been unhappy because he was being moved from his Florida assignment and was registering complaints about P & W expenditures (I may have misunderstood him; he may have said that a government auditor assigned to Pratt and Whitney was being transferred). He stated that it was a frivolous complaint and that the FBI was now involved and would probably have to waste a lot of resources.

I simply stated that if the facts were as he stated he would certainly want us to resolve the problem with finality and then changed the subject. I am sure [redacted] did not intend to influence an investigation and made no effort to pursue the matter when I quickly changed the subject, however, I think it well for me to record this conversation. As I recall among those present at that time was [redacted]

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF  
LANCE GAY REGARDING THE FBI'S ENTERTAINMENT  
AND BUDGET EXPENSES FOR 1985 AND 1986

PURPOSE: To advise of the forthcoming FOIA release to be made to Mr. Lance Gay, staff writer for Scripps Howard News Service, inasmuch as media interest can be anticipated.

RECOMMENDATION: For information.

DETAILS: By letter dated 11/12/86, Lance Gay requested a copy of the FBI's official entertainment budget expenses for 1985 and 1986, including all information naming persons entertained, who entertained them, type of entertainment, costs of the entertainment provided, hotel, restaurant, bar bills, and other costs paid out of these accounts. A search of our central records index failed to locate any information on the captioned matter. Coordination with Budget Unit and Office of Liaison and International Affairs revealed Bureau records regarding expenses for Fiscal Years 1985 and 1986 amounting to \$45,000 each year. Expenditures were listed under the following headings: Date of Function, Division or Office, Type of Function, Visitors/Guest, and Expenditures. Copies of entertainment expense lists for 1985 and 1986 to be released are attached to the original of this memorandum.

Re: Freedom of Information Act (FOIA) request of  
Joseph Volz concerning disciplinary action taken  
against FBI employees in 1985

to it being reviewed by all concerned Divisions. The 1985 Annual OPR report has changed in format and contains only a random sampling of reported disciplinary actions. The FOIPA Section made the determination based on Mr. Volz's letter and the prior release to him that the release of the QSDM's would be responsive to Mr. Volz's request. The QSDMs contain a summary of some of the disciplinary problems, the final remedial actions and a statistical breakdown by category of the total number of actions on a quarterly basis.

The cover airtels to the QSDMs, which have been the object of some concern due to a cautionary statement concerning dissemination to the media, are being withheld as being outside the scope of Mr. Volz's request. The file and serial numbers have been placed on the QSDM's to identify the documents. No names, identifying data or offices of assignment are mentioned in the documents which would lead to the identification of any Bureau personnel. The nature of the complaints ranges from the general unsatisfactory work performance by an employee to the more noticeable dismissal of an SA for sexual abuse of children. It is anticipated that the information contained in the QSDMs might draw media attention even though the FOIPA Section is not aware of any publicity generated as a result of the previous release made to Mr. Volz.

Bureau file 166-1838 concerns an extortion investigation in which a source provided information that Liberace was confronted by individuals posing as police officers who threatened to publically expose and/or incarcerate him for an alleged homosexual act. They

extorted a total of \$60,000 from him. It was requested that Liberace be interviewed in connection with his allegation, however, this file does not contain the results of his interview. Being released in this file are the portions dealing with the compromise and extortion of homosexuals and Liberace's name is listed as a victim. The details of this extortion which were furnished confidentially are being denied. There are two deceased famous people also listed as victims of this homosexual extortion whose identities have been withheld to protect the privacy interests of their families. The well-known living individuals that were also alleged homosexual extortion victims have also been protected.

In addition, 13 cross-references were located in which Liberace was mentioned in the investigations of other individuals or subject matters. These references which are being released, concern allegations of Liberace's homosexuality, in addition to several other prominent individuals whose identities are being protected for privacy reasons. Included in these references are: an anonymous allegation that he was a communist, an FOIA request submitted in 1978 from a third party for records concerning Liberace, and several newspaper articles dealing with his \$25 million libel suit in 1957 against "Confidential" magazine for the story entitled: "Why Liberace's Theme Song Should Be Mad About The Boy." Also being released is, a review of telephone conversations obtained through a legal state court order in 1969 revealing that Liberace had been making long distance bets with a Buffalo bookie for several years.

This FOIA request may result in publicity due to the prominence and popularity of Liberace and the fact that five separate journalists have submitted FOIA requests for his records; one of which, William P. Barrett, has made other FOIA requests the subject of publication. It is noted that Liberace died in Palm Springs, California, on February 4, 1987, and that courts have ruled that dead persons have no rights to privacy under the FOIA. The privacy interests of others who have been subject to investigations have been protected.

Re: Freedom of Information Act (FOIA) Release to  
Kathy McManus, Producer, "CBS Evening News with  
Dan Rather," regarding Application for Pardon  
After Completion of Sentence (APACS) Investigations

On December 11, 1986, this request was referred to the FBI for consideration concerning the disclosure of any APACS investigation reports which may have been prepared in connection with the named Executive Clemency and Pardon applications. The Office of the Pardon Attorney advised the requester that their files concerning Messrs. Felt and Miller did not contain pardon petitions and, as far as they were aware, those individuals had not submitted petitions for pardon. Consequently, no APACS investigations were conducted regarding Messrs. Felt and Miller.

Most of the contents of the FBI APACS files responsive to the FOIA request of Ms. McManus are being withheld due to privacy considerations. Five hundred and six pages of public source material, consisting almost entirely of court documents or summaries of court documents, are being released to the requester.

This matter has been coordinated with the Office of the Pardon Attorney of the Department of Justice.

**RECOMMENDATION:** None, for information.

**DETAILS:** John Leach, Assistant City Editor, The Arizona Republic requested material pertaining to Reverend Edwin T. Dahlberg, who died in Phoenix, Arizona on September 6, 1986.

Memorandum from Allen H. McCraight to Mr. Clover  
Re: Freedom of Information Act (FOIA) Request of  
John Leach Regarding Reverend Edwin T. Dahlberg (Deceased)

The material proposed for release to Mr. Leach consists of 12 pages pertaining to a sedition investigation regarding Rev. Dahlberg conducted in 1943. This investigation was closed in August, 1943, when no information was found to substantiate allegations of possible sedition and when the complainant was reported to be extremely mentally unstable. The remaining 113 pages to be released consist of a collection of inquiries and responses concerning allegations between 1957 and 1963, of communist affiliation of Rev. Dahlberg.

In addition to the documents released to Mr. Leach, he is being advised that there are approximately 60 to 70 "cross-references" to or mentions of Rev. Dahlberg's name in the files on other alleged subversive individuals or organizations. Mr. Leach will be requested to indicate if he desires these "cross-references."

The FBI has never publicly acknowledged any investigative interest in Dahlberg. In view of Rev. Dahlberg's prominence, this release may generate some publicity.

PURPOSE: To advise of anticipated release of documents on 5/15/87 concerning Desi Arnaz, now deceased, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Gilbert M. Gaul, staff writer for the Philadelphia Inquirer, Philadelphia, Pennsylvania; and Stewart Harris, staff associate of nationally syndicated columnist Jack Anderson have submitted separate FOIA requests for records pertaining to Desi Arnaz.

There is one general correspondence main file (94-52549) concerning Mr. Arnaz that consists of two sections and one sub A file. In addition, approximately 34 cross-references have been located in which he is mentioned in the investigations of other individuals or subject matters.

Bureau file 94-52549 contains allegations received from a confidential source that Desi Arnaz had once been a card carrying member of the "Cuban" Communist Party. However, it was determined that Mr. Arnaz was only six years old at the time he left Cuba with his parents to reside in the United States. The allegations are being released without identifying the source.

Allen H. McCreight to Mr. Glover Memo  
RE: FREEDOM OF INFORMATION ACT (FOIA)  
REQUESTS OF GILBERT M. GAUL AND  
STEWART HARRIS FOR RECORDS  
CONCERNING DESI ARNAZ

This file indicates that his wife, Lucille Ball, registered in 1936 as a communist voter and was active in Hollywood Communist Party activities but apparently became inactive after reaching prominence as an actress. This information is not being released in the main file due to privacy considerations and the fact it was obtained by confidential sources.

The fact that Mr. Arnaz is deceased and Ms. Ball is living accounts for the disclosure of information concerning Mr. Arnaz' alleged Communist Party membership on the one hand while withholding such information concerning Ms. Ball on the other. As you are aware, court decisions and USDJ interpretations have stated that deceased persons have little, if any, expectation of privacy.

A good portion of this file deals with FBI monitoring of the Desilu Playhouse production of the TV show, "The Untouchables," which starred Robert Stack as Eliot Ness. It contains correspondence between the Bureau and Desilu Productions wherein the Bureau complained about the inaccuracies portrayed in which Eliot Ness was given credit for cases that were actually solved by the FBI. During an interview of Robert Stack for TV Guide, an alleged derogatory remark regarding the FBI was made at which Director Hoover and Associate Director Clyde Tolson took offense. Correspondence concerning this incident was directed from Hoover and Tolson to Desilu Productions, Desi Arnaz and Mr. Stack. It also includes their replies, in addition, to a phone call from Mr. Arnaz in which he pleads the case on behalf of Mr. Stack.

An interim release of this main file is being made. The cross-references have not been processed. They will be processed at a later date.

This FOIA request may result in publicity due to the popularity of Mr. Arnaz and the fact that previous requests of Mr. Harris have been the subject of publication in Mr. Anderson's syndicated column.

RECOMMENDATION: For information, inasmuch as media interest may be anticipated.

By letter dated 4/22/87, HHS referred documents consisting of FBI-originated information to the FBI for direct response to Mr. Brubaker. Code, Section 1001 and on 7/24/80 was sentenced to three years probation, \$5,000 fine and full restitution of \$9,571.20. Mr. Brubaker's request letter to HHS indicates he is aware of the "fraud charges" against Manley. WAYNE WOODROW (WOODY) HAYES

PURPOSE: To advise of an anticipated release of documents on 7/29/87 concerning Wayne Woodrow (Woody) Hayes, now deceased, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Gilbert M. Gaul, staff writer for the Philadelphia Inquirer has submitted FOIA request for records concerning Wayne Woodrow Hayes, football coach at Ohio State University (OSU).

There are several cross-references in general correspondence file (94-1-306). Some of these cross-references are letters from Director Hoover to Mr. Hayes in appreciation of Mr. Hayes's invitation to speak at OSU and his generous comments about the Director. Also, in a letter dated 11/30/70 to the Director from the SAC Charles G. Cusick, the SAC advised that Mr. Hayes had visited the Cleveland Field Office in hope of recruiting SAC Cusick's son Peter to play football at OSU.

This FOIA request may result in publicity due to the fact that Mr. Hayes was an outspoken and controversial figure, and Mr. Gaul has made previous FOIA requests for public individuals.

INFORMAL NOTE - NOT FOR RETENTION

8/3/87

John:

The Freedom of Information-Privacy Acts (FOIPA) Section has received two requests from the news media for all files the FBI has on Malcolm Baldrige, former Secretary of Commerce, who died 7/25/87.

Requests have been received from Ted Agres, Assistant Managing Editor, The Washington Times, 3600 New York Avenue, N.E., Washington, D.C. 20002; and Michael Rosenfelt, Staff Associate of Jack Anderson, 1401 16th Street N.W., Washington, D.C. 20036. These requests will be handled under normal FOIPA Section procedures; and you will be informed if records are released.

INFORMAL NOTE - NOT FOR RETENTION

August 7, 1987

Mr. Glover:

Fifty-two pages of documents from FBI files pertaining to Mrs. Jacqueline Kennedy Onassis are ready for release to Mr. David Heymann, an author, pursuant to his Freedom of Information Act request.

Mr. Heymann was initially furnished only two documents regarding Mrs. Onassis; informed that, absent notarized authorization from Mrs. Onassis, all other reviewed material would not be released for privacy reasons; and told that additional cross-references existed but were not yet reviewed. It was requested that, after considering the type of material that can be released without Onassis' authorization, he decide whether he wanted the additional references.

Mr. Heymann asked for the remaining references. Of the 26 serials reviewed for this interim release, 13 had been previously released on several occasions in the Kennedy assassination material. The remaining 13 are references regarding public appearances by Mrs. Onassis; letters and phone calls to the Bureau (or reported to the Bureau) critical of the Kennedy family; a radio broadcast about the family; a Department of Justice invitation for employees to view films of Jacqueline Kennedy's foreign travel in 1962 (not posted by the FBI); and a White House request to determine how a letter written by Jacqueline Kennedy to Mrs. Lyndon Baines Johnson was obtained by Autographs, Inc., in New York City.

Mrs. Onassis' privacy was protected to the extent possible under the statute. Some additional references which require classification review remain to be considered for release to Mr. Heymann. You will be notified if any future release contains significant information.

Attached is a copy of the 13 references scheduled for release, for the first time, two weeks from the date of this note.

Subject : FREEDOM OF INFORMATION-PRIVACY ACTS  
REQUEST OF LENELL GETER

PURPOSE: To advise of a forthcoming release of documents on August 21, 1987, concerning Mr. Lenell Geter, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Lenell Geter is an individual who received national media attention for being convicted in October of 1982, of the armed robbery of a Kentucky Fried Chicken restaurant near Dallas, Texas. After allegations were made in the media that he was unfairly convicted, the Department of Justice Civil Rights Division requested on September 28, 1983, that the FBI conduct an investigation into the possible violation of Title 18, United States Code, Section 242 (Deprivation of Rights under Color of Law).

The results of the FBI's investigation were reviewed and on December 27, 1983, the DOJ Criminal Division determined that the complaint had no prosecutive merit.

On December 29, 1983, the DOJ Civil Rights Division directed an inquiry into the question of whether Mr. Geter had been "railroaded" by local officials for racial reasons. The Civil Rights Division alluded to a segment of the television show "60 Minutes" which raised this issue. The Civil Rights Division, after careful analysis made of the "60 Minutes" transcript, concluded that Mr. Geter was not a victim of a discriminatory prosecutorial decision, but the tragic victim of misidentification.

RE: FREEDOM OF INFORMATION-PRIVACY ACTS  
REQUEST OF LENELL GETER

The District Attorney's Office in Dallas was assigned to reinvestigate this case in preparation for a second trial for Mr. Geter. In March of 1984, the reinvestigation developed a second suspect in the armed robbery who bore a strong resemblance to Mr. Geter. Several of the eyewitnesses identified this suspect as the robber. On March 26, 1984, the Dallas District Attorney's Office officially dropped all charges against Mr. Geter.

Bureau files 44-96842, 63-0-63957, 62-5-49318X22 and Dallas Field Office file 44B-9350 consisting of 158 pages were processed with a total of 135 pages available for release. The release of this material has been coordinated with the Civil Rights Unit, Criminal Investigative Division.

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF NELLIE  
DUNCAN FOR RECORDS CONCERNING ANATOLY GOLITZYN

PURPOSE: To advise of anticipated release of documents on  
September 28, 1987, concerning Mr. Golitzyn which may result  
in publicity. (U)

RECOMMENDATION: None. For information. (U)

DETAILS: By letter dated October 17, 1983, Ms. Nellie Duncan,  
a researcher for the CBS news program "60 Minutes" submitted  
an FOIA request for records pertaining to Anatoly Golitzyn. (U)

Mr. Golitzyn was a major in the KGB who defected  
to the U.S. in December, 1961. Mr. Golitzyn publicly alleged  
that the KGB had penetrated all the Western intelligence agencies.  
He restated this allegation in an October 14, 1984, Parade  
Magazine article after the arrest of FBI Agent Richard Miller. (U)

Although Mr. Golitzyn is still alive, the FOIPA  
Section in consultation with the Intelligence Division determined  
that the public interest in acknowledging the existence of  
these records outweighed Mr. Golitzyn's privacy interests.  
This is recorded in a memo from J. K. Hall to Mr. Monroe dated  
May 12, 1983, prepared in connection with Robert Ling's FOIA  
request for records concerning Anatoly Golitzyn, et al. Due  
to the sensitivity of the information in the records, a decision  
was made that the FBI would handle all the records of the  
other Government agencies after coordination with them and  
make any release. (U)

RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF NELLIE DUNCAN  
FOR RECORDS CONCERNING ANATOLY GOLITZYN

[REDACTED]

[REDACTED] (S)

The only materials released from this file are newspaper clippings and three U.S. Army documents totalling 37 pages. Two of the U.S. Army documents contain no substantive information while the third document is a 1963 inquiry about the Office of the U.S. Army Attache in Helsinki, Finland. The information released is an interview of an individual who described the physical security, personnel security and the personal characteristics of the assigned employees. Over 9,000 pages of information were reviewed and denied in accordance with applicable FOIA exemptions. (U)

The FOIA request may result in publicity due to the controversy concerning Mr. Golitzyn and the current increased public interest in the activities of the intelligence community. (U)

Subject : FREEDOM OF INFORMATION ACT (FOIA) RELEASE TO  
TED AGRES, ASSISTANT MANAGING EDITOR, WASHINGTON

AND DANCER

PURPOSE: To advise of anticipated FOIA release on September 17, 1987, of records concerning the actor and dancer, Fred Astaire.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated June 23, 1987, Ted Agres, Assistant Managing Editor of The Washington Times, requested under the FOIA any records on Fred Astaire, the actor and dancer, who died on June 22, 1987.

A search of the indices to our central records system disclosed one main file, consisting of 5 pages, regarding a 1967 copyright complaint against several motion picture and television companies. Fred Astaire is carried in the caption but was not, in fact, the subject of the complaint. The U. S. Attorney's Office instructed the FBI to conduct no investigation into the matter as there was no prosecutive merit to the complaint. A minor portion of this file is being released but no information concerning Astaire.

In addition to the main file, there are nine cross-references concerning Fred Astaire. Eight references are being denied in their entirety pursuant to the confidentiality and personal privacy provisions of the FOIA; the ninth reference is being referred to the State Department for direct response. These cross-references contain source information on other individuals and/or organizations in the entertainment industry and include letters to Government officials mentioning Astaire movies; a KKK LHM mentioning a magazine with a picture of Astaire; espionage informant providing information on a production company using Astaire, etc. There were no instances of a source providing information specifically on Fred Astaire.

Subject : FREEDOM OF INFORMATION ACT (FOIA) RELEASE TO  
GAIL EISEN, CBS NEWS, REGARDING VISION QUEST, INC.

PURPOSE: To advise that documents processed for release to captioned journalist may result in publicity concerning an FBI investigation.

RECOMMENDATION: None, for information.

DETAILS: On April 13, 1987, Eisen requested FBI reports regarding the interviews of 50 graduates of the Vision Quest Program which were conducted in the Spring of 1985 to determine if their civil rights were violated. Vision Quest is a program located in San Diego which treats juvenile offenders.

Eisen will receive a five page document from HQ file 196-5967, which is the only document reported to Headquarters incident to this investigation. This document briefly outlines the Vision Quest Program and describes the allegations of mistreatment and misappropriation of Government funds. All third party names and information have been withheld.

Eisen is also receiving a two-page document from San Diego file 196-1775 which reflects that this investigation was closed upon the opinion of the AUSA that no criminal violation existed. Third party names have also been withheld from this document.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) Release to  
Gail Eisen, CBS News, regarding Vision Quest, Inc.

The interviews requested by Eisen do not appear in the Headquarters files inasmuch as this investigation was closed pursuant to the opinion of the AUSA. Therefore, San Diego did not forward any further information to Headquarters.

On August 3, 1987, Ms. Eisen was advised telephonically that it was incumbent upon her to submit a request to any field office which she thought might have information pertinent to her request. In addition, she was advised that any such interviews would be exempt from release due to privacy rights and expectations of confidentiality unless she provided notarized authorizations from the interviewees.

One additional investigation, consisting of 14 pages, relative to Vision Quest was surfaced as a result of the index search. However, this material is not considered pertinent to Eisen's request since it pertains to a Fraud Against the Government investigation conducted in 1978 through 1981.

REQUESTS FOR INFORMATION PERTAINING TO  
JOHN DEMJANJUK

PURPOSE: To advise of a proposed FOIA release of 10 pages of documents concerning John Demjanjuk.

RECOMMENDATION: None. For information.

DETAILS: Six persons, including Demjanjuk's former attorney and a reporter for the "Christian Science Monitor," submitted FOIA requests to the Department of Justice (DOJ) for information concerning John Demjanjuk, who was extradited by the U.S. in February, 1987, to the State of Israel. Demjanjuk, accused of being "Ivan the Terrible," is being tried by Israel for atrocities he allegedly committed as a guard at Treblinka concentration camp in Poland during World War II. This trial has been the subject of extensive media coverage, as has the Department of Justice policy concerning the deportation of former war criminals.

On 3/19/87, the DOJ Office of Enforcement Operations referred 10 pages of documents to the FBI for FOIA processing. The documents include two letters (dated 4/26/84, and 9/11/85) from Mark J. O'Connor to the FBI. O'Connor, Demjanjuk's former attorney, enclosed in his first letter another letter he had

written to the Soviet Ambassador to the U.S. (also dated 4/26/84) and copies of four pages of identity documents concerning Demjanjuk obtained from Soviet sources. O'Connor's letters set forth his belief that Demjanjuk is the victim of fraudulent evidence (the identity documents) prepared by the KGB. The identity documents were used against Demjanjuk in denaturalization proceedings before he was extradited to Israel. Together, the above documents comprise 8 pages; the final two pages are an FBI transmittal memo dated 5/18/84, which forwards O'Connor's first letter and enclosures to the DOJ Office of Special Investigation, and an FBI letter to O'Connor dated 10/25/85, advising that future inquiries may be directed to the DOJ Office of International Affairs.

The ten pages referred by the DOJ are proposed for release without redaction. They contain no FBI opinion as to the authenticity of the identity papers nor any other information which has not already been well publicized. This release has been coordinated with the DOJ Office of Special Investigations, which has advised that the identity documents have been accepted as bona fide by U.S. Federal Courts and courts in Israel. O'Connor was fired by Demjanjuk's family, and his charges that the documents are forgeries and that government lawyers knowingly submitted false evidence have never found official acceptance in either a judicial or administrative forum.

Allen H. McCreight to Mr. Glover Memo  
RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST CONCERNING  
THE VETERANS ADMINISTRATION MEDICAL CENTER (VAMC) IN  
CINCINNATI, OHIO

Our FBIHQ file 44-105666 consisting of one section and our CI file 44-3308 consisting of 7 sections have been processed under the FOIA, and due to the exigencies of the lawsuit, a release was made on 9/29/87. The vast majority of the investigation was withheld pursuant to exemptions (b)(7)(C) for privacy of third persons and (b)(7)(D) for information obtained from confidential sources.

The VAMC investigation has received widespread publicity in both the Cincinnati and national media, and is currently the focus of Congressional investigations and/or hearings, as well as a State of Ohio Attorney General's probe and a VA Inspector General probe. Attached is a Jack Anderson Washington Post article dated 9/21/87 concerning this matter.

JACK ANDERSON and DALE VAN ATTA

## VA Chief Wrote Justice About FBI Probe

**V**eterans Administration documents indicate that Administrator Thomas K. Turnage was urged by subordinates last November to contact his friend, Attorney General Edwin Meese III, about a potentially embarrassing Federal Bureau of Investigation probe of alleged police brutality at the VA medical center in Cincinnati.

A month later, Turnage wrote to Associate Attorney General Stephen S. Trott, saying the VA hoped that the FBI probe would be wrapped up quickly because it was hurting worker morale.

Trott's response was made two weeks later: The FBI had turned up new leads and, once they were investigated, Justice Department attorneys would decide quickly whether the case would go to court.

In March, the Justice Department announced that it would not seek prosecution of the hospital's police chief, Daniel Wilson. In testimony before Congress, police officers at the medical center had accused Wilson of hurling racial epithets at blacks as he beat them bloody for such transgressions as begging on the premises and parking in unauthorized places.

A spokesman for Turnage said he never contacted Meese. And we have found no further communication with the Department of Justice other than Turnage's letter to Trott.

We can't say with certainty that a cover-up is afoot, but our associate, Stewart Harris, has dug up additional evidence that, in our opinion, tends to support the theory. It is:

- At a recent hearing, Sen. David Pryor (D-Ark.) waved a secret FBI report that he said does not exonerate Wilson. The Justice Department is

resisting efforts to make the report public, although usually such reports are released with deletions of the portions protected by privacy laws.

The Government Accountability Project (GAP), a public-interest group, filed suit under the Freedom of Information Act to obtain a copy of the FBI report. Even though some of the witnesses interviewed by the FBI have signed affidavits supporting GAP's access to their testimony, the FBI is stalling release of the report.

- VA officials considered prosecution of two officers who blew the whistle on Wilson. According to VA records, agency officials met with the U.S. attorney in Cincinnati on Nov. 18, 1986, and asked that Paul Headley and John Berter be prosecuted for making "false statements." The meeting was held before the FBI had concluded its investigation. Cathy Brinkman, the assistant U.S. attorney who worked on the case in Cincinnati, declined comment. Headley and Berter have not been prosecuted.

- The day after the Cincinnati meeting, a regional VA official in Chicago wrote a memo recommending that Turnage "make the appropriate contacts at the Department of Justice to facilitate an end to the FBI's investigative activities." It was another official's memo that suggested that Turnage could raise the issue with his friend Meese.

- In Senate testimony, VA center police officer Harold Hipple said Wilson had bragged about being sent in to "clean up" the Cincinnati hospital. He said Wilson claimed that James Fasone, chief of security for the VA, and the director of the Cincinnati hospital were "completely behind him."

BARRETT FOR RECORDS CONCERNING HENRY CABOT LODGE

[REDACTED]

The file also contains a document concerning Mr. Lodge's contact with the Bureau in 1957 in which he wished to talk to Director Hoover about the lack of security at the U.S. Mission to the United Nations. Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF WILLIAM P. BARRETT FOR RECORDS CONCERNING OTTO PREMINGER

PURPOSE: To advise of anticipated release of documents on 10/23/87 concerning Otto Preminger, now deceased, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: William P. Barrett, a free lance journalist based in New York City, submitted FOIA requests to FBI Headquarters (HQ) and the Los Angeles and New York Field Offices for records concerning Otto Preminger, former movie producer and director.

Mr. Preminger is the subject in three FBIHQ main files, 100-432481 (LA 100-58980 and NY 100-141396); 67-309754 (NY 62-7441); and 87-139454 (NY 87-77308 and LA 87-41977).

b6

RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF WILLIAM P.  
BARRETT FOR RECORDS CONCERNING OTTO PREMINGER

Bufile 100-432481 (LA 100-58980 and NY 100-141396) concerns Mr. Preminger's association during the 1940's with various individuals in the motion picture industry who were identified as either Communist Party members or sympathizers. This file also indicates that in 1968, the Bureau requested that Mr. Preminger remove unfavorable references to the FBI appearing in one of his movies which he refused to do. This file also contains an interview of Mr. Preminger on the Dick Cavett Show. Mr. Preminger discussed J. Edgar Hoover's testimony before the House Subcommittee on Appropriations wherein the Director advised that Mr. Preminger and Leonard Bernstein had contributed to the defense fund for the Black Panther Party. This file also indicates that in 1971, Mr. Preminger planned to make a film on the trial of Julius and Ethel Rosenberg. In view of Mr. Preminger's previous hostile attitude toward the Bureau, there was some concern that the FBI would be portrayed in an unfavorable light in this film. The Headquarters file consists of 104 pages and 87 are being released. The NY file consists of 61 pages and none are being released (59 are duplicates and two were referred). The Los Angeles file consists of 189 pages and 78 are being released.

Bufile 87-139454 (LA 87-41977 and NY 87-77308) concerns the theft of a valuable painting from the business office of Mr. Preminger in New York City. The FBI recovered the painting for which Mr. Preminger was extremely grateful. This recovery received a lot of newspaper publicity. The HQ file consists of 175 pages and 44 are being released. The Los Angeles file consists of 15 pages and 7 are being released. The New York file consists of 289 pages and 54 are being released.

This FOIA request may result in publicity due to the prominence of Mr. Preminger.

RECOMMENDATION: None. For information.

DETAILS: Clayton L. Magruder, Washington, D. C., and four other requesters submitted FOIA requests for information concerning the late Roy M. Cohn.

Among other things, Cohn who died in August, 1986, was an Assistant United States Attorney for the Southern District of New York; participated in the prosecutions of a number of highly publicized Bureau cases including the Rosenberg espionage group; served as a Special Assistant to Attorney General McGranery in late 1952; and was an investigator and Chief Counsel for Senator Joseph McCarthy's Committee on Government Operations. He left Government employment in the mid-1950's and entered private practice in New York. The majority of the material proposed for release is contained in a 1962-64 Bribery investigation (58-5100) which involved an alleged payment of \$50,000 to Roy Cohn and [redacted] by subjects of a Securities and Exchange Commission investigation. The FBI conducted extensive investigation at the request of then United States Attorney Robert M. Morgenthau. Cohn was indicted for Perjury, Conspiracy, and Obstruction of Justice. The case went to trial on March 23, 1964, and ended in a mistrial because of the death of a juror's father. The second trial resulted in a verdict of not guilty on all counts. The indictment and the trials received widespread media coverage. Also being released is information concerning Cohn's involvement in two Obstruction of Justice investigations and an ITAR-Extortion matter. Prosecution was declined in each case.

Additional material, of a more personal nature, such as Cohn's background investigation for employment as an Assistant United States Attorney and a Miscellaneous Correspondence file, is pending classification review. The files of the New York Field Office will also be processed at a later date.

PURPOSE: To advise of anticipated FOIA release on November 16, 1987, of records concerning the actor and comedian, Jackie Gleason.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated June 25, 1987, Ted Agres, Assistant Managing Editor of The Washington Times, requested under the FOIA any records on Jackie Gleason, the actor and comedian, who died June 24, 1987.

A search of the indices of our central records system disclosed one pertinent main file, consisting of seventeen pages. The file concerns the FBI's assistance in 1956 to locate Jackie Gleason's father utilizing civilian fingerprint cards. (Gleason's father disappeared when Gleason was eight years old.) This assistance was aimed at developing Gleason as an SAC Contact and was approved by Director Hoover. All Identification Division information concerning Gleason's father has been deleted from this release, since such information is specifically exempt from release by statute (28, U.S.C., 534).

The remainder of the file concerns an FBI tour by associates of Gleason and letters from private citizens critical of comedian George Carlin's remarks made on the

the FBI. The identities of the letters' authors are being  
protected in this FOIA release.

In addition to the main file, there are six cross-  
references concerning Jackie Gleason. Two insignificant  
references to Gleason in Anti-Racketeering documents concerning  
other individuals are being denied in their entirety pursuant  
to the confidentiality of sources and personal privacy  
considerations of the FOIA. The remaining references concern  
the development of Gleason as an SAC Contact in Miami;  
a letter to Gleason from Director Kelly acknowledging receipt  
of an autograph picture from Gleason; a memorandum advising  
of unfavorable references to the FBI in the movie "Skidoo,"  
which starred Gleason; and an anonymous letter critical  
of Hoover, Gleason and others for associating with Frank  
Sinatra.

There were no instances of a source informing  
specifically on Jackie Gleason or any indication that Gleason  
provided information as an SAC Contact. One of the documents  
being released states that "We have not investigated Gleason  
and our files contain no derogatory information concerning  
him."

JONATHAN DANN AND MARGARET L. RATNER

PURPOSE: To advise of the anticipated release of FBI Headquarters material regarding CISPES on December 1, 1987.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated July 5, 1985, Mr. Jonathan Dann of the Chronicle Broadcasting Company, San Francisco, California, submitted an FOIA request to FBI Headquarters (FBIHQ) for material in our files pertaining to CISPES.

Another request dated May 30, 1986, was submitted to FBIHQ by Margaret L. Ratner, an attorney affiliated with the Center for Constitutional Rights, who is representing Linda Hajek of the Dallas CISPES organization. Subsequently, Ratner submitted requests to 21 field offices for their records pertaining to CISPES.

On May 27, 1987, Hajek filed a complaint in the United States District Court, Northern District of Texas seeking timely production of records from both FBIHQ and the Dallas field office in response to her FOIA request.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) release of  
files pertaining to the Committee In Solidarity  
With The People of El Salvador (CISPES) to  
Jonathan Dann and Margaret L. Ratner

An agreement between plaintiff and the FBI provides for the release of FBIHQ files on or before December 1, 1987, and for the release of Dallas Field Office files on or before March 1, 1988.

CISPES, formed in 1980, is a national organization involved in activities supporting the Salvadoran leftist cause. An investigation was initiated January, 1981, upon receipt of information from another government agency that CISPES was engaging in covert terrorist activities. The investigation was closed on June 18, 1985.

The CISPES organization remains active and its activities often generate publicity.

Frank Varelli, an exposed informant, was targeted against CISPES. He became disgruntled, has filed a civil action against the FBI demanding back pay and expenses for his activities, and has been the subject of media attention. Mr. Varelli has publicly accused the FBI of illegal acts against CISPES, none of which have been substantiated. None of the information provided by Varelli when he was acting as an informant is being released.

Processing and release of this material was coordinated with Terrorism Section, CID, and Legal Counsel Division.

articles and information relating to the controversy over Mr. Casey's appointment by President Nixon in 1970 to head the Securities and Exchange Commission (SEC). It reveals that Mr. Casey had previously been accused of allegedly violating the Securities Act of 1933 and indicates that he was also sued in a plagiarism matter in which the verdict of the jury was expunged and the records sealed. During the hearings for his SEC appointment, there was some controversy over who ordered the records sealed. The file contains a handwritten note by J. Edgar Hoover in which he stated, "Note how our superficial handling of this has plagued!" This note pertains to a small news article in which the National Observer in 1971 wrote that the William Casey background held some surprises the FBI had not turned up. There is no indication in the news article exactly what surprises the National Observer was talking about.

The file also contains a memo dated 7/29/80 written by former Director William Webster in which he handled a telephone inquiry from a journalist whose name has been deleted from the original document appearing in the file. The redactions were not made by the FOIPA Section. The journalist wanted to know if the FBI was investigating Mr. Casey in connection with certain activities (not indicated) involving a rubber company some nine years earlier. At the time of this inquiry, Mr. Casey was the Chairman of Ronald Reagan's Campaign Committee. The document indicates that former Director Webster handled this inquiry personally since he knew the journalist, and advised him that he (Webster) was positive that no such investigation was being conducted by the FBI.

The final background investigation in this file, which concerns Mr. Casey's appointment as the Director of CIA, was initiated in December of 1980 and was concluded in 1981.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) Release of  
files pertaining to the Committee in Solidarity  
With the People of El Salvador (CISPES) to  
Jonathan Dann and Margaret L. Ratner

by March 1, 1988. In addition, other field office files requested by CCR will be processed following the Dallas release. The releasable information from these field office files will be similar in nature to that already released from the FBIHQ file.

The FBIHQ release consists largely of public source information such as newspaper articles, press releases, and leaflets, pamphlets, and brochures publicly distributed by CISPES and related organizations. In addition, information from FBI physical surveillances was disclosed, including observation and recording of license numbers of vehicles in the vicinity of group activities.

CCR has widely distributed the released information to various media outlets. A number of articles have already appeared in the press concerning the FBI's investigation of CISPES, and it is anticipated that there will be additional media coverage concerning this material (e.g. see attached Baltimore Sun article of 1/27/88).

The aforementioned Baltimore Sun article states that a Los Angeles document reflects that the FBI placed a wiretap against a political activist. No information has been located or processed to date which would indicate any wiretap activity.

One document indicates the discontinuance of a consensual monitoring at TACA Airlines, Los Angeles, which was the target of bomb threat. This information was redacted. However, the words "Elsur Index" appears at the top of the document.

# FBI papers reveal probe over groups' Latin views

Boston Globe

BOSTON — The FBI conducted an extensive campaign of surveillance and infiltration of more than 100 U.S. groups opposed to Reagan administration policies in Central America, according to documents to be made public today by a legal rights group.

The documents were obtained recently from the Federal Bureau of Investigation by the Center for Constitutional Rights in response to a Freedom of Information Act request. They indicate that from 1981 to 1985, agents in 52 of the FBI's 59 field offices participated in a counterterrorism investigation of a variety of political groups.

The probe generated 3,500 pages of files on the groups and on a number of activists. No documents have been released to indicate that the investigation has been closed.

The investigation, which initially targeted the Committee in Solidarity with the People of El Salvador, known as CISPES, subsequently was expanded to include a wide range of political and religious organizations opposed to U.S. policy in Nicaragua, Guatemala and El Salvador. The FBI probe went under the heading "CISPES investigation."

One of the documents cites 138 groups as being "connected with CISPES," including the American Civil Liberties Union, the Southern Christian Leadership Conference, Oxfam America Inc., Amnesty International, the American Federation of Teachers and the Hospital Workers Union.

Ray McElhaney, an FBI public information officer in Washington, refused to comment on the CISPES investigation because of the classified nature of the material and because of two pending lawsuits that touch on the probe.

But Mr. McElhaney said that in general, a counterterrorism investigation is conducted when "sufficient predication" exists under Justice Department guidelines that indicate "potential criminal conduct."

"These investigations are not predicated upon people simply disagreeing with or criticizing U.S. government policies," Mr. McElhaney said.

"The FBI is indeed sensitive to the constitutional rights of the U.S. public, and the bureau has no interest in interfering with the exercise of people's First Amendment rights to disagree, to dissent or to demonstrate," he said.

The FBI came under harsh criticism in the mid-1970s, when the ex-

tent of its counterintelligence activities against civil rights and anti-Vietnam War groups was exposed by several congressional committees.

Guidelines issued in the wake of those revelations restricted the FBI's ability to engage in surveillance, wiretaps, mail interception, break-ins and undercover work in the absence of an official criminal investigation.

But in a 1981 executive order, President Reagan restored the use of many of these techniques to the FBI in investigations dealing with foreign counterterrorism or counterintelligence.

Guidelines issued under that order, titled EO 12333, permit FBI agents to engage in warrantless break-ins, to receive stolen information, to contract with private groups and individuals for intelligence gathering, and to conceal these agreements in counterterrorism investigations.

The FBI released 1,200 pages of the files to the Center for Constitutional Rights, a New York-based lawyers' group that has represented a number of clients who say they are the targets of government harassment because of their political views.

The classified documents, although heavily blacked out, indicate that:

□ FBI agents or their "assets" — operatives who work on contract — infiltrated organizations around the country to gather intelligence on groups opposed to U.S. policy in Central America.

□ FBI agents took thousands of photographs of demonstrators and circulated them to other federal agencies.

□ Agents recorded hundreds of license-plate numbers of people who attended rallies or meetings. The names of the owners of the vehicles were entered into the FBI's files.

□ In at least one instance, agents in Los Angeles placed a wiretap on a political activist.

□ Agents conducted active surveillance on college campuses. The FBI material refers to covert surveillance on the campuses of Wichita State University and Florida State University.

□ The FBI solicited information on leftist and liberal activists from private right-wing political informants, notably the Virginia-based Young America's Foundation. The foundation's president, Michael Boos, said recently that his work is supported by Kenneth Cribbs, President Reagan's assistant for domestic affairs, and by Frank Donatelli, a presidential political adviser.

Several surveillance reports ap-

pear from cover markings to have been routed to the National Security Council, where Oliver Revell, the FBI's executive assistant director, sat on several interagency task forces with Lt. Col. Oliver L. North and others. An FBI spokesman said he could not comment on the meaning of the markings, which read "AT W/NSC."

"This investigation has an odor of harassment about it," said Representative Don Edwards, D-Calif., chairman of the House Judiciary subcommittee on civil and constitutional rights.

Mr. Edwards, whose committee oversees the FBI, said, "We want the FBI to investigate when there is criminal or terrorist conduct. When there is not, the investigation must stop. Here, obviously, they went on for years, doing the things they did in the J. Edgar Hoover days."

"The FBI is supposed to catch criminals — not political activists. Hoover investigated long-haired young people and Dr. Martin Luther King. This looks like sort of a repeat."

Ann Mari Bufrago, director of FOIA (Freedom of Information Act) Inc., a public interest group, said the investigation did not result in the arrest of any terrorists or in any indictments for terrorist actions.

Asked about the lack of arrests or indictments in the five-year investigation, Mr. McElhaney said domestic security and counterterrorism investigations generally have two goals. One involves arrest and prosecution. A second goal, he said, "is the prevention or interdiction of criminal activity before it happens."

He said he could not comment on whether the CISPES probe led to any such actions by the FBI.

Margaret Ratner of the Center for Constitutional Rights said yesterday:

"The breadth and scope of this investigation indicates the FBI was engaged in an illicit campaign to stifle dissent."

Ms. Ratner added that the surveillance campaign "is part of a larger picture of intelligence abuses against people who dissent from the administration's foreign policy." That pattern, she said, includes FBI interrogations of people returning from Central America, Internal Revenue Service audits of political groups, Customs Service seizures of papers from U.S. citizens returning from Central America, and documented cases of mail tampering.

One FBI official, who asked not to be identified, said that such investigations frequently are prompted by allegations from reliable sources that some group may be involved in terrorist activities. "If someone who doesn't look mad or crazy brings these allegations, you check them out. It may generate teletypes to all the FBI field offices, and a number of interviews to check out the allegations."

The official emphasized: "We don't execute fishing expeditions. We operate on reliable sources."

The official noted that the former FBI director, William H. Webster, explained to Congress in a classified session why the FBI has interviewed people who have returned from Nicaragua.

"Webster explained that we had legitimate foreign counterintelligence reasons for those interviews," he said.

Angela Sanbrano, executive director of CISPES, took issue with the FBI in a telephone interview from Washington.

"We are outraged at this investigation. We want the FBI to release the entire 17 volumes of files. We want them to end surveillance and harassment against CISPES and other groups working to change U.S. policy in Central America," she said.

For six years, the government tried to prove that CISPES was under the control of a foreign power or

that the group harbored terrorists "or that we are a front for covert activities," Ms. Sanbrano said.

But, she added, despite the lengthy and exhaustive investigation, "the government has never filed a single charge against us."

Several FBI communications contained in the released material note that the investigation was designed to combat terrorism and should not focus on individuals who were legitimately exercising their First Amendment rights of free speech.

A 1983 teletype to FBI headquarters from the Louisville field office noted that information on groups and individuals opposing administration policy "does serve as a data base to begin the process, which is intended to ferret out the identities and activities of those CISPES members who are knowingly supporting Salvadoran guerrillas in the U.S. and Central America and furnishing financial and material support to the guerrillas."

However, several FBI communications had a distinctly political tone. One report from the Pittsburgh field office noted that the probe is targeted at "core" members "with strong Communist or socialist beliefs."

A 1983 teletype from the New Orleans field office said: "It is imperative at this time to formulate some plan of action against CISPES and, specifically, against individuals [deletion] who defiantly display their contempt for the U.S. government by making speeches and propagandizing their cause."

One source familiar with FBI counterintelligence operations said the documents seemed to indicate a profound confusion within the bureau, with some offices expressing concern about political free speech and others engaging in red-baiting.

PURPOSE: To advise of the supplemental release of two  
teletypes dated 3/30/83 and 10/17/84 on 2/17/88.

RECOMMENDATION: None. For information only.

DETAILS: As a result of the publicity concerning the FBI's  
investigation of CISPES, and following a press conference  
by the Director on 2/2/88, two documents in the FBIHQ file  
were re-reviewed for classification. Classified information  
within certain paragraphs was identified and isolated,  
so that the unclassified information in the balance of  
those paragraphs could be so marked and released under the  
FOIA. The portions intended for release now are indicated  
by heavy brackets in the margins of the attached.

The information being released sets out the predication  
for the FBI's investigation of CISPES, as well as some  
goals and guidelines for conducting the investigation.  
Disclosure is being made after consultation with the Assistant  
Director-Legal Counsel.

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST FOR  
RECORDS CONCERNING THE MURDERS OF STEVEN CHRISTENSEN  
AND KATHLEEN SHEETS

PURPOSE: To advise of an FOIA release of documents on 3-4-88,  
which may result in publicity.

RECOMMENDATION: None, for information.

DETAILS: ROBERT LINDSEY, Chief West Coast Correspondent for The New York Times, has requested all material relevant to the above bombing murders which occurred in Salt Lake City on 10-15-85. This crime generated intense publicity due to its connection with the Church of Jesus Christ of Latter-Day Saints (LDS Church).

STEVEN CHRISTENSEN was a researcher and collector of historical documents relating to the LDS Church. He had donated to the Church archives a letter allegedly written in 1830 by MARTIN HARRIS, an early church leader. This letter, commonly referred to as the "White Salamander" letter, purportedly links a founder of the LDS Church, JOSEPH SMITH, with the practice of "folk magic." Because this letter threw doubt on official versions of early Mormon history, much controversy ensued. CHRISTENSEN purchased the "Salamander" letter for \$40,000 from MARK HOFMANN, an individual noted for his discoveries relating to LDS Church history.

Re: Freedom of Information Act (FOIA) Request for  
Records Concerning the Murders of Steven Christensen  
and Kathleen Sheets

Subsequently, HOFMANN borrowed \$165,000 from the Church for the purchase of the McLELLAN Papers. These papers allegedly were original writings of JOSEPH SMITH and/or WILLIAM McLELLAN, McLELLAN being one of the original 12 apostles in the Mormon Church. CHRISTENSEN was to advise the Church of the authenticity of these papers on the day he died from the first bomb explosion outside his office door.

CHRISTENSEN was also an officer of two finance corporations, along with victim KATHLEEN SHEETS' husband, GARY SHEETS. Both corporations had recently lost millions of dollars of private investors money. Approximately two hours after the first explosion, MRS. SHEETS died as a result of another bomb which had been placed outside the front door of her residence. The following day, a third bomb exploded in MARK HOFMANN's vehicle, critically injuring him.

The Salt Lake City Office determined that FBI jurisdiction did not exist; however, liaison and cooperation were maintained with local authorities. Numerous pieces of evidence supplied by sources, including original documents, were processed by the FBI Laboratory Division. In order to assure the confidentiality of sources, evidential material from sources has been protected, as were the results of the Laboratory Division's examinations. Only general information is being released. FOIA disclosure consists of 111 pages being released, with 185 pages denied in their entirety.

MARK HOFMANN eventually pleaded guilty to two counts of fraud and two counts of second-degree murder to avoid the death penalty.

A one-half page article recapping this incident appeared in the Washington Post on 8-11-87, and indicates continued interest by the news media in general.

# Forger's Impact on Church a Puzzle

## Scholarly Facade Disguised a Killer Who Attempted to Alter Mormon History

By Marjorie Hyer  
Washington Post Staff Writer

PROVO, Utah—Returning to his upscale Salt Lake City home after an evening get-together with Mormon friends, Mark Hofmann chatted with his wife, Doralee, until she went to bed about 11:30. Then he descended to his basement workroom and began assembling the supplies he had bought 10 days earlier: two lengths of threaded, one-inch pipe; two end caps; nails; and two cans of Hercules Bullseye gunpowder.

About 3 a.m., Hofmann got into his gold Toyota van to deliver the first of his two homemade pipe bombs to the doorstep of businessman W. Gary Sheets. In the darkness, he unhooked the tiny wires from a safety device and connected them to the mercury switch that, a few hours later, would blow up Sheets' wife, Kathleen, who picked up the package.

Hofmann was home by 3:30 a.m., when his sleepy wife, accustomed to her husband's nocturnal restiveness, called down from upstairs to ask him to tend their small daughter, who had awakened in the night. He stayed with the child until she fell asleep. It was Oct. 15, 1985.

At 6:30 a.m., Hofmann got back into the van and delivered the second bomb to the office of Steven Christensen, a former partner of Sheets and a Mormon bishop interested in the historic documents of his faith. Eighteen months earlier, Hofmann had sold Christensen the notorious "white salamander" letter, which linked the church's founder to the practice of folk magic.

The letter caused much disquiet at the time among Mormons and Mormon scholars. Christensen submitted it to church and other experts, who verified its authenticity, then donated it to the church.

Last week, almost two years after the murders of Kathleen Sheets and Christensen, more than 1,400 people—three times the anticipated number—attended a 13-hour symposium at Brigham Young University to consider Hofmann's short, dazzling career as a con man and forger of Mormon and secular historical documents and his impact on the faith he secretly abandoned in adolescence.

"The enormous damage done by Hofmann will take a long time to assess," said forensic handwriting expert Charles Hamilton, who had been fooled by some of Hofmann's work. "He will be out of prison, and at it again before we get around to finding out the real expense of his disruption of scholarship." Hofmann is serving five years to life as a result of a plea bargain, and the sentencing judge recommended that he never be released.

Mark Hofmann in 1980 with document purportedly written by Joseph Smith, Mormon founder.

Of the 424 documents and memorabilia Hofmann is known to have sold to Mormon institutions and individuals, 107 are known to be forgeries, 60 are suspect and others have not been examined. "His deceit," BYU President Jeffrey R. Holland told the symposium, "has certainly not rocked the foundations of the church... but it has rocked the faith of some uncertain, and often very young, hearts and minds."

Most of his forgeries may not have involved the church, however. "From Beethoven to Daniel Boone, from Betsy Ross to George Washington—only 20 to 30 percent of his output was Mormon," Mormon author Allen Roberts said. "His undetected forgeries will continue to have a selected impact for generations."

In early 1985, for example, Hofmann tried to negotiate \$1.5 million deal with the

Library of Congress for a document he claimed to have found in New York's Argosy bookstore—the Oath of a Freeman, dating to the Massachusetts Bay Colony and thought by some to be a model for the Declaration of Independence.

His machinations came apart when he was critically injured the day after the murders by a third bomb. Police discovered that all three bombs had been built of parts purchased at a Radio Shack by "Mike Hansen." In Hofmann's workshop, they found a piece of paper bearing the name Mike Hansen and the number of a Denver engraver who turned out to have negatives of printing plates made for "Hansen" the previous year.

When police confronted Hofmann in his hospital room with this and other evidence, the alarms on his life-support monitor sounded, and nurses shoed them out. They had a suspect, but they had no motive.

"Why would this meek-looking, scholarly, respectable, almost a wimp of a man commit this horrible crime?" deputy Salt Lake County attorney Robert L. Stott asked rhetorically as he reconstructed the crime last week.

Hofmann was a Mormon luminary, in the headlines regularly with his amazing and spectacular finds relating to the church's early history. Six months before the bombings, he promised to tithe to the church another stunning find, the letters of a 19th century Mormon named McLellan. McLellan had left the church after a falling out with its founder, and his papers were expected to be highly critical of the church.

The church loaned Hofmann \$165,000 to acquire the collection. But Hofmann already had received a \$150,000 advance for the same papers from an antiquities dealer.

Under pressure to produce the collection for both buyers and repay the church loan, he told church officials that the failure of his negotiations with the Library of Congress for the Oath of a Freeman would force him to sell the McLellan papers instead. The church found a wealthy Mormon buyer, and Hofmann was to turn over the documents Oct. 13, 1985, at a meeting arranged by Christensen.

But Hofmann had no McLellan collection, had spent the money and never appeared for the meeting. He later confessed to killing Christensen to avoid being found out and planting the bomb for Sheets to cast suspicion on disgruntled investors in a troubled business venture in which the two victims had been partners.

Last January, Hofmann pleaded guilty to two counts of second-degree murder and two counts of fraud involving documents. Last month, the county attorney's office released a 600-page transcript of investigators' interviews in which Hofmann described his deception of the church in a career that spanned seven years.

How he did it and why—his confessions describe his contempt for the church after

his faith failed him—have been easier questions for the church to deal with than the question of how much damage he did. Mormons were particularly vulnerable, Roberts said last week, because the church "ties its validation to the truthfulness of historical events. If those events did not occur, [Mormons] would know the church cannot be true."

The Mormon Church—the Church of Jesus Christ of Latter-day Saints—was founded by Joseph Smith Jr., who told his followers that an angel led him to golden tablets containing the church's tenets.

Hofmann first approached Mormon officials with what deputy county attorney Stott described as "faith-enhancing" documents that tended to fill in the blanks in church history. One of his forgeries was a letter from Smith's mother, corroborating his accounts of angelic visitations.

Gradually, however, his documents became more controversial. The salamander letter purportedly was written by a friend of Smith and portrays him as deeply involved in the occult, an image Mormons hardly wished to promote of their founding prophet.

For a time, Mormon officials withheld the letter and other documents that appeared to undermine the official version of church history.

Elder Dallin H. Oaks, a member of the Council of the Twelve, a church ruling body, defended the church's lack of skepticism in dealing with Hofmann, himself a respected Mormon. ("Ministers of the Gospel function best in an atmosphere of trust and love," he said. "In that kind of atmosphere, they fail to detect a few deceivers they meet.") And he devoted half of an after-dinner speech to denouncing coverage of the scandal as "a media feeding frenzy."

Hofmann's forgeries, prosecutor Stott said, "were good. He did excellent work.... He didn't look like a con man." But Stott, a Mormon and a BYU law school graduate, said church historians had been too gullible and should have investigated Hofmann's stories about how he found his documents.

BYU professor and historian Ronald Baker responded to such criticism by tossing out his prepared address to the symposium and making an impassioned plea for understanding, praying that Hofmann's "duplicitous... will not further befoul our community with unkindness."

"Anyone delving into the Mormon past will find what they want," BYU historian William G. Hardy said. "Their faith or lack of it will predetermine how they will mine the past and to what use they will put it...."

"It is imperative for any who write Mormon history to use the records of the past honestly and exercise... great caution when facing newly found records whose [origins] are in doubt."

Re: Freedom of Information Act (FOIA) Release of  
the Dallas files pertaining to the Committee  
in Solidarity with the People of El Salvador  
(CISPES) to Margaret L. Ratner

The Dallas release consists largely of public source information such as newspaper articles, leaflets, pamphlets, and brochures distributed by CISPES and related organizations. In addition, administrative material such as routing slips, search slips, and serial charge outs are being disclosed.

Of possible media interest is the release of an 11 page Pittsburgh airtel dated 12/21/83 captioned "Central America Mobilization Coalition (CAMC); International Terrorism-El Salvador" (copy attached to the original of this memorandum). The CAMC, which was self-described as a coalition opposed to U. S. intervention in Central America, had advertised the public appearance at Duquesne University on 12/11/83 of Salvadorian refugees and a public rally at Soldiers and Sailors Hall on 12/16/83 to stop the deportation of "Hector Marroquin and all refugees." Both functions were attended by an unidentified Agent of the Pittsburgh office. The first function was a speech by two Salvadorian refugees given during a Catholic mass at the Duquesne University chapel. They also spoke at the second rally. They described their escape from government death squads in El Salvador and the plight of Salvadorian refugees in the U. S. The FBI's presence at both functions and coverage of speech details is being released.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) Request of  
Congressman Ronald D. Coleman for Information  
Pertaining to Jaime Torres and the J. T.  
Construction Company, Inc.

Jaime Torres, doing business as the J. T. Construction Company, Inc., was the subject of a Fraud Against the Government - Department of Defense investigation during 1985 which focused on possible false, fictitious or fraudulent statements or claims that were made on a U. S. Corps of Engineers construction contract let to the J. T. Construction Company. Torres was indicted by a Federal Grand Jury in El Paso for violation of criminal fraud statutes and following trial was found not guilty on 10/9/86. In addition, the United States of America filed a civil suit against Torres which was settled prior to trial with payment of approximately \$500,000.

Congressman Coleman is being furnished a copy of the one-page Army letter without redaction. This letter simply refers to the offenses investigated by the FBI in this matter and contains a request by the Army to be notified of any significant developments in the investigation and to be provided with a copy of the FBI's final report. The prosecutive report consists primarily of interviews of persons knowledgeable of details concerning the bids submitted by the J. T. Construction Company, Inc. The report contains no public source information or other segregable information not exempt from disclosure under the FOIA. There is no indication that Congressman Coleman's request is being made on behalf of a Congressional committee or subcommittee, nor did he suggest any public interest in disclosure that would override the privacy interests of Torres or others involved in the investigation.

Congressman Coleman will be advised that absent a notarized authorization from Mr. Torres, disclosure of this report could reasonably be expected to constitute an unwarranted invasion of Mr. Torres' privacy and is exempt from disclosure pursuant to exemption (b)(7)(C) of the FOIA.

Subject : FREEDOM OF INFORMATION ACT (FOIA) RELEASE TO  
TED AGRES, ASSISTANT MANAGING EDITOR, THE  
WASHINGTON TIMES, REGARDING ARTHUR F. BURNS,  
FORMER CHAIRMAN OF THE FEDERAL RESERVE BOARD

PURPOSE: To advise of anticipated FOIA release on March 30,  
1988, of records concerning Arthur F. Burns.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated June 29, 1987, Ted Agres, Assistant  
Managing Editor of The Washington Times, requested under  
the FOIA any records on Arthur F. Burns, former Chairman  
of the Federal Reserve Board, who died June 26, 1987.

A search of the indices to our central records  
system at FBI Headquarters disclosed three routine background  
investigations conducted for various Governmental positions:  
a 1953 background investigation for a position as Chairman  
of the President's Council of Economic Advisors; a 1969  
special inquiry investigation for the position of Chairman  
of the Federal Reserve Board; and a 1981 inquiry for the  
purpose of a Presidential appointment to the Economic Policy  
Advisory Board. These investigations were favorable and  
did not uncover information about Mr. Burns that was not  
already publicly known.

Deletions were made from these files to protect  
the confidentiality of sources and the personal privacy  
of other individuals.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) Release Of  
Files Pertaining To The Committee In Solidarity  
With The People Of El Salvador (CISPES) To  
Jonathan Dann And Margaret L. Ratner

ADDENDUM: LEGAL COUNSEL DIVISION, 3/8/88, PM:lab

Legal Counsel has now reviewed the two attached teletypes that have been reclassified and reprocessed. Legal Counsel understands that this material has already been released to Margaret Ratner of the Center for Constitutional Rights and one other, non-litigating, requestor by letter dated 2/17/88.

Legal Counsel wishes to note that neither the Assistant Director, Legal Counsel nor the Unit assigned to Freedom of Information Act (FOIA) litigation was consulted prior to this specific reclassification and release (Legal Counsel acknowledges that Civil Discovery Review Unit II was contacted prior to release; however, since that unit was handling the release to Congress, it was unable to provide specific litigation-related input).

Legal Counsel was, however, previously consulted on 2/2/88, regarding the perceived need to release one paragraph, specifically the paragraph beginning at the bottom of page 5 and continuing onto page 6 of the teletype labeled 199-8848-1, after Director Sessions referenced it during his news conference. At that time, on 2/2/88, Legal Counsel advised of the potential adverse consequences to the pending FOIA litigation, if already released documents were reclassified in order to meet the need to justify FBI actions. It was pointed out that any wholesale reclassification of the documents would be perceived as being self-serving and would call the integrity of the processing of all released documents into question by the plaintiffs and the court. It was Legal Counsel's understanding that, based on the potential harm to the FBI's litigation posture, only the one paragraph would be declassified and, to Legal Counsel's knowledge, such was affirmed by the Director. Legal Counsel agreed to the declassification and release of the referenced paragraph due to its facially apparent non-classified nature and was unaware that any further reclassification was being considered.

Legal Counsel has learned that the attached teletypes were reviewed for classification for two reasons: 1) the Director's request for unclassified material to be used in press releases, and 2) for material to be included in the "white paper"

(Cont.) Addendum: Legal Counsel Division, 3/8/88, PM:lab

intended for presentation to Congress by EAD REVELL. This review was (1) performed to identify any segregable information contained within classified paragraphs which in and of itself did not require classification and (2) to identify any information which no longer required classification.

Legal Counsel reiterates the view that the instant reclassification, and any further reclassification of released documents, unless done uniformly and with independent justification under current classification rules, could result in intensive and adversarial scrutiny of the FOIA Section, the integrity of FBI classification procedures, FOIA processing procedures, the truthfulness of declaring Agents and the validity of any exemptions asserted in the future. This will obviously create serious obstacles to the ability of Legal Counsel to avoid adverse decisions and orders of the court; potentially including further disclosures, substantial attorneys fees and costs and discipline for any personnel found to have "acted arbitrarily or capriciously" in this matter (Title 5, United States Code, Sections 552(a)(4)(F) and 552(a)(4)(G)).

INFORMATION CONCERNING CHESTER BLISS BOWLES

PURPOSE: To advise of the anticipated FOIA release of 322 pages of records concerning former politician and diplomat Chester Bliss Bowles upon receipt of duplication fees.

RECOMMENDATION: None. For information only.

DETAILS: Shortly following the death of Mr. Bowles, nearly identical FOIA requests were received from Robert Dubill, who is associated with the USA Today newspaper, and Emily Sack, Executive Director of The Nation Institute. These requests were for information pertaining to the life and career of Chester Bliss Bowles. During Mr. Bowles distinguished career, he served as Governor of Connecticut, Congressman, Ambassador, Undersecretary of State, as well as an advisor to four presidents.

A search of the indices to the Central Records System files at FBI Headquarters surfaced seven main files and approximately 600 cross references. The main files consist of background investigations of Mr. Bowles for various governmental positions, investigations of threats made against him or official correspondence. Deletions were made from these files to protect the confidentiality of sources and personal privacy of third parties. His name is also indexed in three files as Director of the Price Administration Board; however, these investigations concerned other individuals, and therefore have not been processed for release.

RECOMMENDATION: None. For information.

DETAILS: William P. Barrett, a free-lance journalist based

D.C.; and Rudy Abramson of the Washington Bureau of the Los  
Angeles Times newspaper have submitted separate FOIA requests

Mr. Harriman was a very prominent former Government  
official and political figure who also served as the Governor  
of New York.

Two background investigations and 22 cross-references  
are proposed for release at this time.

One background investigation was initiated in October  
of 1940 when Harriman was a "dollar-a-year" employee of the

him. Among the documents being released is information that Director Hoover had "grave doubts" about furnishing Harriman internal security information on individuals with subversive backgrounds; a memorandum from W. C. Sullivan wherein he considered it "laughable" that Harriman praised a leading Soviet subversive publication which had been notorious for its attacks on the U.S.; Harriman's concerns over the election of James Hoffa as Head of the Teamster's Union and the President's failure to take a firmer stand with Governor Faubus regarding the segregation in Little Rock, Arkansas; and a 1971 news article in which Harriman suggested that Director Hoover probably blew the Berrigan brothers wiretaps all out of proportion. Director Hoover took exception to this latter statement in a handwritten notation stating, "There were no wiretaps used in this case, so Harriman is wrong as usual." The file consists of 147 pages and 96 are available for release [REDACTED]

[REDACTED] is  
not being released.

b6  
b7C

A second background investigation was conducted in 1961 for Harriman's appointment as Ambassador-at-large. It contains a correlation summary of approximately 600 cross-references which was processed for release. The entire file consists of 298 pages and 263 are being released. Of possible interest are allegations that Harriman furnished funds for lodging to some of the delegates to the 1956 convention in an effort to secure the U.S. Presidential nomination. Also being released is a discussion between Director Hoover and Harriman of an individual who had been attacked by the HCUA for un-American activities. Hoover urged Harriman to get rid of him.

The 22 cross-references that are being provided consist of 89 pages and 48 are being released. One reference concerns the physical surveillance in 1970 of former Ambassador Harriman's home by the FBI to ascertain the identity of those attending what was described as a meeting of persons opposed to the Cambodian invasion. The remaining references concern Harriman's contact with Russian individuals, news articles, or general correspondence.

an individual made threatening telephone calls to prominent figures all over the country. Since the extortion file pertains to numerous other individuals, only those pages pertinent to Jaworski were reviewed for disclosure.

The primary FOIPA exemptions taken as a result of the processing the above material were for third party privacy and protection of confidential sources. The information being withheld from the proposed disclosure is considered to be of a non-derogatory nature.

PURPOSE: To advise of an anticipated release of documents on 5/13/88 concerning the Office of the Public Guardian, Las Vegas, Nevada, and Wilfred J. O'Brien, [REDACTED] and Jude Joseph Thaddeus, which may result in publicity.

RECOMMENDATION: None. For information.

DETAILS: Scott McCartney, staff writer for the Associated Press, Dallas, Texas, submitted an FOIA request for records concerning the Office of the Public Guardian, Las Vegas, Nevada, and Wilfred J. O'Brien, [REDACTED] and Jude Joseph Thaddeus, public officials. (The FBIHQ and Las Vegas files refer to the Office of the Public Administrator rather than Office of the Public Guardian.)

b6  
b7C

Headquarters file 183-7164 and the corresponding Las Vegas file, totaling 490 pages, were opened in 1983, when evidence was developed in Las Vegas, that employees of the Office of the Public Administrator were involved in stealing property and other valuables from the estates of deceased individuals in Clark County, Nevada. There was a joint investigation between the FBI, Las Vegas Metropolitan Police Department, Clark County District Attorney's Office, and the Office of the Attorney General for the State of Arizona.

Federal prosecution was subsequently declined in favor of local prosecution. Jude Joseph Thaddeus and Wilfred J. O'Brien pled guilty to local fraud charges in Clark County, Nevada, and were sentenced in July, 1985. There is no indication as to whether or not [REDACTED] was prosecuted.

Documents being made available to Mr. McCartney consist of 164 pages of newspaper clippings as well as other information generally available to the public. The majority of the information was withheld in order to protect informant information and material subpoenaed for a Federal Grand Jury.

TED AGRES, THE WASHINGTON TIMES, CONCERNING DANNY KAYE

PURPOSE: To advise of anticipated FOIPA release on June 6, 1988,  
of records concerning the comedian and entertainer, Danny Kaye.

RECOMMENDATION: None. For information only.

DETAILS: By letter dated December 28, 1987, Ted Agres requested  
under the FOIPA any records concerning Danny Kaye, who died on  
March 3, 1987.

A search of the indices of our central records system  
disclosed two main files, 19 cross-references, and several  
newspaper articles responsive to this request. An interim  
release is being made of one main file, one cross-reference and  
the newspaper articles.

The main file, a Selective Service Act matter, concerns  
an FBI investigation regarding Danny Kaye's allegedly fraudulent  
4-F classification in 1943. The facts of the case were presented  
to the U. S. Attorney, Eastern District of New York, who declined  
prosecution.

Danny Kaye's name also appears as a cross-reference in the JFK assassination file, where an interviewee advises she was told, supposedly by Danny Kaye's brother, that President Kennedy was going to be shot. This interview has been previously released in its entirety to other FOIA requesters and is being so released to Mr. Agres.

The newspaper articles being released reflect that Danny Kaye was among thirty Hollywood personalities who flew to Washington, D. C. to protest the Congressional investigation of un-American activities in the motion picture industry in 1947.

The second main file and 18 cross-references must be reviewed for classification before release can be made. Information appearing in these files reveals that Kaye was reportedly involved in various activities of several communist front groups.

Re: Freedom of Information Act (FOIA) Releases to Ted Agres, Assistant Managing Editor, The Washington Times, and to Dr. Steven Rosswurm, Lake Forest College, regarding the late Patrick Cardinal O'Boyle, Archbishop of Washington, D. C.

to Dr. Rosswurm will consist of only the main file. Washington Field Office has no responsive main file records pertaining to Cardinal O'Boyle.

The majority of the processed documents are cordial correspondence between Director Hoover and Cardinal O'Boyle. A

Several cross-references mention Cardinal O'Boyle's presence to publicly pray at large civil rights demonstrations occurring in Washington, D. C., during the 60's. One cross-reference is a suggestion by Mr. Sullivan in 1968 that he meet with Cardinal O'Boyle and a prominent Protestant minister to warn them of the "lawlessness and the violence prone elements" which will be involved in Martin Luther King's March on Washington, D. C. and to remind them that they, as church leaders, have "an enormous responsibility relative to assisting and maintaining law and order."

RECOMMENDATION: None. For information.

DETAILS: William P. Barrett, a free-lance journalist based in New York City has requested records pertaining to "Organizations/Persons Not To Be Contacted By FBI Agents Without Bureau Approval."

The FBI "Do Not Contact List" consists of 10 sections and begins with a memo from the Executive Conference dated 11/3/49 and concludes with a letter to all SACs dated 7/13/72 terminating the list. This file is a compilation of information regarding individuals and organizations placed in a "do not contact without prior Bureau authority" category, because of their expressed hostility, subversive or derogatory backgrounds, or what was considered as unfair criticism of the FBI.

RE: FREEDOM OF INFORMATION ACT REQUEST OF WILLIAM P. BARRETT  
FOR RECORDS CONCERNING ORGANIZATIONS/PERSONS NOT TO BE  
CONTACTED BY FBI AGENTS WITHOUT BUREAU APPROVAL

The first three volumes are being released at this time. Generally, the reasons or explanation given for including an individual or organization on the "no contact" list are being released. The identities of individuals on the list are withheld except where they are known to be deceased.

One of the more notable individuals placed on the list was Eleanor Roosevelt. J. Edgar Hoover took exception to a news article appearing in the Washington News on 11/29/52 (copy attached) regarding Ms. Roosevelt's interview by an FBI Agent. Hoover placed a handwritten note in the margin of the news article stating, "This 'character' is to never again be contacted by FBI unless I authorize it."

The list included other prominent individuals and organizations such as former Secretary of the Interior, Harold Ickes; former Congressman, John Parnell Thomas; Harpers Magazine; and the Columbia Broadcasting System.

## An FBI Agent Asks Me About John Foster Dulles

**NEW YORK**—I was visited on Tuesday by an FBI agent who tried to be very solemn as he asked me about the loyalty and competence of John Foster Dulles, our future Secretary of State.

This agent's behavior was a wonderful feat—keeping a straight face while making such an inquiry. I'm afraid I smiled openly. Then yesterday I was visited again with questions about another impeccable character. So I want to reassure a number of my friends who think that the FBI is not on the job and is not able to protect us.

**REPRESENTATIVE E. E. Cox**, Democrat of Georgia, who is Chairman of a Special House Investigating Committee looking in to the expenditure of funds by tax-exempt foundations, made an astounding statement at a hearing recently when he said "a great number of grants" have been made to persons disloyal to the United States.

Among others, he referred to the Rockefeller Foundation, which brought forth from the Foundation's President, Dean Rusk, the following statement: "The Rockefeller Foundation has reported the facts on these grants to the Cox Committee in our reply to the questionnaire sent us by the committee."

It is confusing or amusing, or both, to have great foundations in this country under attack for helping subversive persons and at the same time to have them attacked by Moscow.

In the Czechoslovakian trials the Ford Foundation was accused of "sending spies, murderers, saboteurs and wreckers" into east Europe. I should say that this, if true, indicated that the foundations had been very careful to keep a balance between being too conservative or too radical. When you please neither extreme, you are probably doing a pretty good job in keeping to the middle of the road.

**TUESDAY** night I went to Tea-Neck, to a very interesting meeting—the first one sponsored by the Hi-Y and Tri Hi-Y clubs and the county committee of the Y. M. C. A. of Bergen County. There were many young men and young women present from many "y" groups, and they conducted their meeting in a very fine way.

The theme was a Thanksgiving Service to draw the attention of all present to the things for which we, in this country, may be thankful, but to emphasize, as well, our close ties with the rest of the world, and the growth of human brotherhood thruout the world. These young people are anxious to know the world as a whole and they believe in human dignity and its recognition for all peoples.

*This character is to never again be contacted by FBI unless personally authorized by K.*

Re: Freedom of Information Act (FOIA) release of the  
New Orleans files pertaining to the Committee In  
Solidarity With the People of El Salvador (CISPES)  
to Margaret L. Ratner and Vickie Lavaun Ishee

The New Orleans Field Office files pertaining to CISPES have been processed and a release will be made to Ratner and Ishee on or about July 1, 1988. A redacted copy will also be placed in the FOIPA Reading Room at FBIHQ. The New Orleans files consist of 2,835 pages (9 volumes and one 1A). Of this total, 1,075 pages were determined to be copies of documents previously processed in the FBIHQ file. From the remaining 1,760 pages, only 155 are being released.

The New Orleans release consists largely of public source information such as newspaper articles and other publicly known facts regarding CISPES and related organizations.

Of possible media interest is the release of a three-page Agent memorandum to SAC New Orleans dated May 15, 1984, captioned "CISPES" (copy attached to the original of this memorandum). Five professional individuals from Nicaragua, on a State Department sponsored tour of the United States, spoke at a public meeting at Loyola College in New Orleans, Louisiana, on April 23, 1984, which an Agent from New Orleans attended. The five professionals, (not otherwise identified), discussed the current situation in their country. After the meeting, the Agent, under a pretext, spoke to several people in attendance in an apparent effort to further identify them and their views.

This statement was uncorroborated and no subsequent investigation of these individuals was conducted as a result of this allegation. Since this information came from an individual who expressly requested confidentiality, only limited information is proposed for release, e.g., the caption and that Dr. Davis had visited the Soviet Union in 1943 with other physicians to study medical work under war conditions. In an effort to prevent any misinterpretation of this material, our letters to Ms. Winebrenner and Mr. Culvahouse will include the sentence, "Please do not infer from a review of these documents that Dr. Davis was in any way involved in subversive activities."

Also proposed for release are copies of correspondence relating to an invitation from Dr. Davis to J. Edgar Hoover to address the annual dinner of the American Surgical Association and portions of Ronald Reagan's Personnel Security Questionnaire (PSQ) listing Dr. Davis as his father-in-law. This PSQ was submitted in 1967 in connection with Mr. Reagan's clearance for access to Atomic Energy data while serving as Governor of California. In addition, one document is proposed for release which reports that in 1943, Mrs. Edith Davis, wife of Dr. Loyal Davis, assisted the Shore Patrol of the 9th Naval District in an investigation of local taverns selling liquor to teenage sailors. This information was paraphrased from various newspapers.

PURPOSE: To advise of the proposed Freedom of Information Act release of documents regarding Ferdinand and Imelda Marcos to Katherine Ellison on 8/3/88 and to Corky Johnson upon receipt of appropriate fees.

RECOMMENDATION: None. For information.

DETAILS: Corky Johnson, an associate of columnist Jack Anderson, and Katherine Ellison, correspondent for the "San Jose Mercury News" and the Knight-Ridder News Agency, both submitted FOIA requests for information concerning the Marcoses. Johnson requested all records pertaining to the Marcoses while Ellison limited her request to specific records from 1970 to 1972.

Material processed for release at this time emanates from eight files which concern the protection of the Marcoses while traveling in the U.S. and/or threats made against Ferdinand Marcos and one file which reports a 1947 Foreign Agents Registration Act matter which was closed prior to any investigation by the FBI when Marcos withdrew his registration statement.

Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF SETH  
ROSENFELD REGARDING BECHTEL CORPORATION

PURPOSE: To advise of the forthcoming release of documents to Seth Rosenfeld on 8/8/88 which may result in additional media interest.

RECOMMENDATION: None, for information.

DETAILS: Seth Rosenfeld is a writer for The San Francisco Examiner who requested information regarding Bechtel Corporation from the San Francisco office. Bechtel was the subject of a Foreign Corrupt Practices Act investigation conducted in 1982-1983.

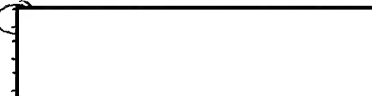

The investigation was predicated on allegations by a former Bechtel employee that a consultant for Bechtel in South Korea arranged to have large sums of money passed to Korean Government officials between 1978 and 1980.

b6  
b7C

During this period, former Secretary of Defense Caspar W. Weinberger and Secretary of State George P. Shultz held top positions at Bechtel. Weinberger was Vice-President, General Counsel and a Director of Bechtel before joining President Reagan's Cabinet in 1981. Shultz was Vice Chairman and a Director of Bechtel before becoming its President in December 1980. He left Bechtel in 1982 for the position of Secretary of State.

Mr. McCreight to Mr. Glover Memo  
RE: FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF SETH ROSENFELD  
REGARDING BECHTEL CORPORATION

There was no direct evidence offered by the former Bechtel employee that Weinberger or Shultz knew about the allegations; however, the media speculated that they did have knowledge.

The FBI investigation did not develop sufficient evidence that Bechtel had paid-off Korean officials and no evidence that Weinberger or Shultz knew about the allegations. Prosecution was declined by AUSA and no further investigation conducted.

A total of 93 pages are proposed for release consisting of Bureau documents setting forth leads to interview knowledgeable individuals to determine credence of allegations, and newspaper and magazine articles from the Washington, D.C., and San Francisco areas.

RECOMMENDATION: None. For information.

DETAILS: Dean Olsen, reporter for The Peoria Journal Star, Peoria, Illinois, requested information pertaining to the dismissal of SA John Ryan and the domestic security/terrorism case he refused to investigate.

Ryan was the subject of an administrative inquiry file concerning his refusal to investigate a domestic security/terrorism case. This case (Unsub, [redacted] Domestic Security/Terrorism, Sabotage) involved a series of vandal-type activities to military recruiting facilities in the Chicago area. Ryan refused to investigate this case based upon his "personal, religious and human beliefs." Resultantly, Ryan was dismissed from the FBI on 9/11/87.

Documents responsive to the dismissal of Ryan are being released from his personnel file (67-609763) and the administrative inquiry file (62-122390) as the requester has obtained Ryan's authorization. Documents are also being released from the [redacted] domestic security/terrorism file (100-487573) since this case has been publicly acknowledged through Ryan's Merit

PURPOSE: To advise that public source-type information is being offered to the requester in response to his FOIA request.

RECOMMENDATION: None. For information.

DETAILS: Mark Tushnet, Professor of Law, Georgetown University Law Center, requested records concerning Justice Thurgood Marshall from 1933 to 1967. Although he indicated he is writing a biography of Justice Marshall, he did not, however, provide authorization from Justice Marshall for access to records concerning him.

Thurgood Marshall was the subject of background investigations conducted in connection with his appointments as United States Circuit Court Judge, Solicitor General of the United States, and United States Supreme Court Justice. These records contain information already in the public domain (newspaper clippings and Congressional record data). In addition, FBI files captioned "Communist Infiltration of the National Association for the Advancement of Colored People" (NAACP) and "Segregation - General" contain newspaper articles in which Thurgood Marshall is mentioned. While specifically acknowledging the existence of the above described background-type files only, Tushnet will be advised that the public record-type information will be provided should he so desire it.

criminal cross-reference documents a city-wide anti-busing demonstration that concluded at the home of Governor-elect Dukakis. In view of the fact that the demonstration took place in the public domain and involved Dukakis' residence rather than his person, the balance tips in favor of disclosure since Governor Dukakis' personal privacy is not involved. This document and copies of the correspondence cross-references, revealing the concerns of a public person acting in an official capacity, have been processed pursuant to the provisions of the FOIA. Eleven pages are being released to Mr. Goldberg. An administrative marking on one of the documents is classified and was properly excised. Further deletions were made from these cross-references to protect the identities of third parties and FBI personnel. Mr. Goldberg is being advised that without Governor Dukakis' notarized authorization, the FBI will neither confirm nor deny the existence of other material responsive to this request in order to fully protect Governor Dukakis' privacy rights. Subject : FREEDOM OF INFORMATION ACT (FOIA) REQUEST OF JOHN WEISMAN FOR RECORDS CONCERNING CHARLES CUMMINGS COLLINGWOOD

PURPOSE: To advise of the proposed release on 9-9-88, of preprocessed documents concerning the former Columbia Broadcasting System (CBS) News Commentator, Charles Cummings Collingwood, now deceased, which may result in publicity.

RECOMMENDATION: None. For information.

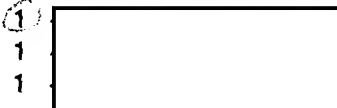

DETAILS: In October 1987, John Weisman, TV Guide Bureau Chief, submitted an FOIA request for the FBI records of 43 past and present employees at ABC, CBS, and NBC News Divisions; one of which was Charles C. Collingwood.

William P. Barrett, a free lance journalist, submitted the initial FOIA request in 1986, for Mr. Collingwood's records which were furnished to him in February, 1987.

Mr. Collingwood is the subject of two Bureau main files. One pertains to a security investigation of Mr. Collingwood beginning in May of 1949, when he was the CBS radio correspondent attached to the White House. This limited investigation which ended in July of 1949, revealed that he had taken part in the activities of Communist fronts in Los Angeles and had associated with known Communist Party members. This file reveals Mr. Collingwood's alleged affair with a married woman.

It also contains a handwritten notation by J. Edgar Hoover regarding Mr. Collingwood (see attachment). Apparently during a radio broadcast in June 1949, Mr. Collingwood was critical of the FBI.

The second investigation of Mr. Collingwood was conducted in 1952, under the European Recovery Act when he was appointed the Special Information Assistant to W. Averell Harriman, the Mutual Security Administrator. Information in this file indicates an attempt to "block" Mr. Collingwood's appointment by the Assistant Director of Security (Leight Barber). Allegations that Mr. Collingwood gambled frequently while employed by CBS are also contained in this file. In addition to further information concerning the alleged affair involving Mr. Collingwood, the file indicates this affair received a great deal of adverse publicity in 1946.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information Act (FOIA) Requests of  
Alexander Charns, For Information Relating  
To The United States Supreme Court

On 8/21/88, the attached news article appeared in the New York Times. The material furnished to Mr. Charns regarding the U.S. Supreme Court itself is primarily from a general correspondence file and files where the court was a victim (i.e. extortion, bomb threats, etc.) or otherwise mentioned. The information furnished to Mr. Charns from these files was innocuous in nature. The U.S. Supreme Court was not the subject of an investigation conducted by the FBI. Likewise, neither the U.S. Supreme Court nor the Justices mentioned in the article were the targets of FBI electronic surveillance.

Material relative to Justices Hugo Black, Tom Clark, Felix Frankfurter, Abe Fortas, William O. Douglas, Earl Warren and Potter Stewart, among others, has been released to Mr. Charns. The material released consists primarily of applicant/background investigations conducted prior to becoming Justices, extortion investigations where they were victims, general correspondence type files and various cross-references.

Pursuant to Mr. Charns' requests, searches were conducted of the Headquarters electronic surveillance indices. As a result of these searches, it was determined that Abe Fortas, William O. Douglas and Earl Warren were mentioned in conversations monitored of other individuals.

Justice Potter Stewart was overheard in 1970 in two conversations monitored at a result of an electronic surveillance of

Processing of additional requests from Mr. Charns is continuing. Should any additional information surface of a noteworthy nature you will be advised.

# F.B.I. KEPT A FILE ON SUPREME COURT

## Some Conversations Involving Justices Were Monitored, Documents Disclose

Special to The New York Times

DURHAM, N.C., Aug. 20 — The Federal Bureau of Investigation kept a confidential file on the United States Supreme Court from 1932 until at least 1965, according to recently obtained F.B.I. documents.

The 2,876-page file, much of it compiled during the tenure of Director J. Edgar Hoover, contains everything from suspicions about possible Communist influences on the Court in the 1950's to the use of Court employees as F.B.I. sources. The file was obtained by a Durham lawyer and freelance journalist under the Freedom of Information Act.

Other F.B.I. documents, obtained by earlier freedom of information requests, show that the F.B.I. wiretapped or monitored conversations involving four men who served on the Court: Earl Warren, William O. Douglas, Abe Fortas and Potter Stewart.

It is not clear from the documents whether all the conversations occurred while the four were on the Court. Nor is it clear, in most instances, whether the F.B.I. listened to actual conversations of the four Justices, or conversations involving them.

### Stewart's Voice Is Heard

Justice Stewart, who served on the Court from 1959 to 1981, was heard in two monitored conversations. He was not the target of the wiretap, the bureau documents show. The dates of the conversations and the target of the investigations that occasioned the wiretaps were not revealed.

Ramsey Clark, who was Attorney General from 1967 to 1969 and as such officially in charge of the F.B.I., said he had not been aware of such a file on the Supreme Court.

Told of the file, whose existence was first reported last week in The Durham Morning Herald, Mr. Clark described the disclosure as worrisome "considering the history of the F.B.I. and its ideology." Mr. Clark said he did not recall ever being asked to authorize electronic surveillance of a Justice or being told of a wiretap involving a Justice.

Spokesmen for the F.B.I. repeatedly declined to comment.

Kenneth O'Reilly, professor of history at the University of Alaska at Anchorage and author of "Hoover and the Un-Americans," said that wiretapping was so pervasive from the 1940's to the 1960's that "virtually everyone was overheard" who was important in Washington politics.

The documents, which include newspaper articles, clippings from The Congressional Record and internal F.B.I. memorandums, show the F.B.I.'s relations with, and changing attitude toward, the High Court from 1932 to 1985.

The earlier material includes references to personal favors, such as help with travel arrangements, that the bureau furnished for the Justices and their families. Much of the material after Mr. Hoover's death in 1972 includes references to security checks for prospective Court employees that the F.B.I. furnished at the Court's request.

In the late 1950's, the F.B.I. became increasingly concerned about what it believed were pro-Communist decisions by the Court. F.B.I. records previously released show that Justice Douglas's loyalty was questioned by Mr. Hoover and his top aides in that era because of his views involving the Constitutional rights of Communists.

### Rosenberg Case Is Mentioned

Also, according to the file, select Court employees served as F.B.I. sources of information during the Rosenberg atomic spy case in the early 1950's.

The chief of the Supreme Court police, Capt. Philip H. Crook, was described in a 1953 memorandum as having "furnished immediately all information heard by his men stationed throughout the Supreme Court building. He kept special agents advised of the arrival and departure of persons having important roles in this case."

An F.B.I. memorandum states that Harold B. Willey, then Clerk of the Supreme Court, made suggestions to F.B.I. agents as to the best places to be in order to "know at once what action individual judges, or the court as a whole, was taking. They also advised as soon as legally possible any action contemplated by the defense lawyers."

A few days after the execution of Julius and Ethel Rosenberg in 1953, an F.B.I. memo recommended that Mr. Willey, T. Perry Lippitt, the marshal of the Supreme Court, and Captain Crook be sent "a letter of appreciation by the director for their wholehearted cooperation in this case."

### Warren Not a Target

The bureau located seven classified references in its electronic indices to Earl Warren, who was Chief Justice from 1954 to 1969. The electronic surveillance indices are a collection of the names of people targeted by or overheard on F.B.I. wiretaps and monitors. Mr. Warren was not the target of the surveillance, the F.B.I. said.

There are two classified "references" from 1965 and 1967 to Mr. Fortas, who was an Associate Justice from 1955 to 1969, when he resigned amid controversy over his personal finances.

It has been reported previously that Justice Douglas, who served from 1939 to 1975, believed in 1969 and 1970 that listening devices had been planted in his chambers. He sometimes conducted conversations in the hall way.

In 1969, Mr. Hoover discussed with President Richard M. Nixon what he

saw as the need for a more conservative Court. Mr. Hoover told the President that he would have the opportunity to appoint four justices. One vacancy, Mr. Hoover said, would be created by the departure of Justice Douglas. "Douglas, of course, is crazy and is not in too good health," a note in the F.B.I. file says.

Subject : FREEDOM OF INFORMATION-PRIVACY ACTS (FOIPA) REQUEST  
OF MR. TY WEST, ASSOCIATE PRODUCER CBS NEWS,  
FOR FBI TELETYPE DATED JUNE 11, 1986

PURPOSE: To advise of the captioned request and pending release of an FBI Teletype dated June 11, 1986 (copy attached) and the basis for declassification of same. The anticipated release date of the requested teletype is October 11, 1988.

RECOMMENDATION: None. For information only.

DETAILS: Ty West, Associate Producer for the CBS News television show "West 57th" submitted a request for a WFO to Director (Attention: Intelligence Division) teletype dated 6/11/86. Mr. West stated that the document appeared in the "REPORT OF THE COMMITTEES INVESTIGATING THE IRAN-CONTRA AFFAIR." The teletype in question was located in FBI files. The teletype, originally classified "SECRET", is contained in a FCI file. A copy of the teletype appeared in the committees' report and was declassified by the National Security Council with only three minor deletions. Names of specific FBI personnel were allowed to remain in the teletype as it appeared in the published report. However, the copy of the teletype in the FBIHQ file remained classified at the time of the publication of the committees' report.

Memorandum from Allen H. McCreight to Mr. Glover  
Re: Freedom of Information-Privacy Acts (FOIPA) request  
of Mr. Ty West, Associate Producer CBS News,  
for FBI teletype dated June 11, 1986

It has been determined that Civil Discovery Review Unit (CDRU), through the Office of Congressional and Public Affairs, had provided this and other Bureau documents to certain congressional committees with the expressed understanding that the committees would confer with the Bureau on the classification of the documents before publishing their report. However the committees released their main report for publication in November of 1987, and the National Security Council (NSC) unilaterally declassified large segments of information contained in various Bureau documents. The committees then published, in early 1988, the appendix to their main report which includes the pertinent Bureau documents.

Due to the declassification of the WFO teletype by the NSC, Document Classification Unit reviewed and declassified everything but the file numbers thereon. Appropriate FBI personnel whose names appear in the teletype were notified of its publication in the committees' report.

AGAINST SPECIFIC CONTRA VOTE DATES PROVIDED BY FBIHQ CONGRESSIONAL LIAISON. THROUGH WFO'S INVESTIGATION, IT HAS BEEN DETERMINED THAT THERE IS A DEFINITE ASSOCIATION BETWEEN THE DATES OF THE CONGRESSIONAL VOTES ON CONTRA AIDE TO THE NICARAGUAN REBELS AND THE "ACTIVE MEASURES" BEING DIRECTED AGAINST LIEUTENANT COLONEL NORTH. IN ADDITION TO THE ABOVE, WFO HAS OBTAINED A COPY OF A CIVIL COMPLAINT TAKEN IN THE SOUTHERN DISTRICT OF FLORIDA FILED ON MAY 29, 1986 AND ON REVIEW HAS DETERMINED THAT THE CIVIL COMPLAINT MAY BE YET ANOTHER ACTIVE MEASURES PROGRAM PRIOR TO THE JUNE 19, 1986 CONTRA AIDE VOTE. AS IN THE PAST, THE ACTIVE MEASURES CIVIL SUIT IS DIRECTED AT NORTH, AND SPECIFIC CHARGES IN THE CIVIL COMPLAINT MAY BE DROPPED IF THE CONTRA VOTE FAILS IN THE U.S. CONGRESS. THE CIVIL COMPLAINT NAMES NUMEROUS INDIVIDUALS WHICH ARE PRESENTLY AIDING THE CONTRA EFFORT UNDER COLONEL NORTH'S DIRECTION. THE PURPOSE OF THE CIVIL COMPLAINT MAY BE TO DISCLOSE THE IDENTITY AND METHODS, THROUGH THE USE OF THE U.S. COURT SYSTEM, OF PERSONS IN SUPPORT OF THE CONTRA VOTE. THE ABOVE INFORMATION WITH

RESPECT TO THE CIVIL SUIT IS AN OBSERVATION.

ON JUNE 3, 1986, WFO MET WITH COLONEL NORTH IN ORDER TO OBTAIN ADDITIONAL INFORMATION WHICH MAY ASSIST IN ADDING MORE INFORMATION OF INVESTIGATIVE VALUE TO REFERENCED COMMUNICATION. AT THIS MEETING NORTH EXPRESSED GREAT CONCERN THAT INFORMATION HE HAD PREVIOUSLY PROVIDED HAD NOT BEEN ACTED UPON BY WFO. IT SHOULD BE POINTED OUT THAT WFO HAD NO SPECIFIC INSTRUCTIONS OTHER THEN THOSE INSTRUCTIONS RECEIVED BY SA DAVID BEISNER IN A MEETING WITH DEPUTY ASSISTANT DIRECTOR PHIL PARKER AND UNIT CHIEF JIM EGBERS. IN THE ABOVE MEETING, WFO WAS TO TAKE NO SPECIFIC INVESTIGATIVE STEPS INTO ALLEGATIONS OF ACTIVE MEASURES DIRECTED AGAINST NORTH.

NORTH EXPRESSED SPECIFIC CONCERN AS TO WHY NO ACTION HAS BEEN TAKEN REGARDING THE FOLLOWING:

1. NO INTERVIEW OF [REDACTED] CENTRAL INTELLIGENCE AGENCY (CIA), IN ORDER TO OBTAIN ANALYTICAL ASSISTANCE AND INFORMATION CONCERNING ACTIVE MEASURES CAMPAIGN. (b)(7)(c)

2. LACK OF CONTACT WITH NATIONAL SECURITY OFFICER FRED COLCON FOR ANY INFORMATION CONCERNING DRUG CHARGES

LEVELED AGAINST NORTH.

3. NO INTERVIEW OF DANIEL SHEEHAN OF THE CHRISTIE INSTITUTE CONCERNING THE SOURCE OF ALLEGATIONS HE PROVIDED AGAINST NORTH.

4. NO CONTACT OR INTERVIEW WITH LEONARD DOWNING OF THE WASHINGTON POST CONCERNING THREATENING TELEPHONE CALLS HE ALLEGEDLY RECEIVED FROM LIEUTENANT COLONEL NORTH.

5. NO REVIEW OF ANY CHARGES PLACED BY SENATOR KERRY AGAINST NORTH, NOR ANY ATTEMPT TO OBTAIN THE INFORMATION PRESENTLY AT THE DEPARTMENT OF JUSTICE (DOJ) INVOLVING SENATOR KERRY'S ALLEGATIONS.

6. NO INTERVIEW OR CONTACT OF SENATOR DURENBERGER AND HAMILTON CONCERNING THE SOURCE OF CHARGES THEY BROUGHT AGAINST COLONEL NORTH IN AUGUST, 1985.

7. NO INVESTIGATION BEING CONDUCTED WITH THE METROPOLITAN POLICE DEPARTMENT (MPD) IN ORDER TO CHECK THE NUMBER OF VANDALISM INCIDENCES ON THE ELLIPSE IN WASHINGTON, D.C. DURING AUGUST AND SEPTEMBER, 1985, WHEREIN NORTH'S PERSONAL VEHICLE WAS VANDALIZED. NO EFFORT HAS BEEN

~~SECRET~~

PAGE FIVE DE WF 0028 ~~S E C R E T~~

MADE TO DETERMINE IF NORTH'S VEHICLE WAS THE SOLE TARGET OF ANY VANDALS DURING THAT PERIOD.

AT THE SAME MEETING, NORTH EXPRESSED FURTHER CONCERN THAT HE MAY BE TARGETED FOR ELIMINATION BY ORGANIZED CRIME DUE TO HIS ALLEGED INVOLVEMENT IN DRUG RUNNING IN VIEW OF THE MURDER ON FEBRUARY 17, 1986 OF A DRUG ENFORCEMENT ADMINISTRATION (DEA) AGENT STEELE, ON THE DATE PRIOR TO STEELE'S TESTIFYING AGAINST THE SANDINISTA DRUG INVOLVEMENT.

BASED ON THE ABOVE, AND THE RESTRAINTS PLACED ON WFO WITH RESPECT TO ANY FURTHER INVESTIGATION, WFO IS PLACING THIS MATTER IN A CLOSED STATUS FOR THE FOLLOWING REASONS:

ALTHOUGH THE ALLEGATIONS MADE BY LIEUTENANT COLONEL NORTH MAY BE THE RESULT OF AN ACTIVE MEASURES PROGRAM DIRECTED PRIMARILY AGAINST THE REAGAN ADMINISTRATION'S EFFORT TO SECURE 100 MILLION DOLLARS IN MILITARY AIDE TO THE CONTRA, AND SPECIFICALLY DIRECTED AGAINST LIEUTENANT COLONEL NORTH, AS THE ADMINISTRATION'S PRINCIPAL AGENT IN SUPPORT OF THE CONTRA, WFO IS UNABLE TO RESOLVE THE IDENTITY OF THE ORIGINATOR OF THESE ACTIVITY MEASURES. FURTHER, WFO HAS NO PREDICATION INTO THIS INVESTIGATION.

PAGE SIX DE WF 0028 ~~S E C R E T~~

IF FBIHQ REQUIRES ANY FURTHER ACTION BY WFO, WFO IS REQUESTING SPECIFICS REGARDING ANY FURTHER INVESTIGATION AND IS REQUESTING THAT THIS INFORMATION BE SET FORTH ALONG WITH APPROPRIATE INVESTIGATIVE ASSISTANCE.

instances where main files concern security matters. Cross-references consist mainly of newspaper articles, and non-investigatory material such as interviews by news personalities of FBI personnel, reviews and critiques by the FBI of television news stories and/or the news person and cooperation with news people on research matters and stories. There are also instances where some of the subjects are referenced in the criminal, security or applicant files of individuals unrelated to this request.

Certain non-investigatory files relating to these requests are not subject to the conditions usually applied to "third party live" requests; therefore, some of this non-investigatory-type material is subject to release.

In this regard, Mr. Weisman will be provided with a random sampling of this non-investigatory information and some public source material (newspaper articles) to establish if he is interested in this type of information.

The random disclosure consists of 16 documents totalling 55 pages relating to requests by the news media for FBI assistance in news reports; requests for interviews of FBI personnel; reviews, discussions and critiques of FBI portrayal on T.V. news shows; a request by former Director Webster for Ted Koppel to moderate a panel discussion at a Boy Scout convention; a proposal to use a video made by the Public Affairs office of a "20/20" segment on counterintelligence for training purposes; a transcript of an interview on CBS with former Director Kelley; and 2 newspaper articles. Special Agent names were the only excisions made from the documents.

Mr. Weisman will be advised that unless he obtains notarized authorizations, the information described above represents the only type of material that may be released. This release was coordinated with the Media Services Unit, OCPA.
